SUPERTEST PETROLEUM CORPORATION LIMITED

To the Shareholders:

During the past year, Canada has again witnessed an ever-increasing demand for petroleum products, an increase in which your Company has fully participated resulting in another all-time record in volume of sales. Net earnings of \$1,002,000.00 after taxes is likewise a record in the Company's history.

New developments instituted at the close of the war in the Province of Quebec and in Northern Ontario were continued aggressively in 1949 with gratifying results. Many new districts are seeing the "SUPERTEST" Maple Leaf Emblem for the first time with a large number of new accounts being opened up in both Provinces.

Other capital expenditures were concentrated principally on expanding and modernizing bulk storage plants to facilitate the handling of the continually increasing demand for your Company's products. The building of new service stations was held to a minimum in view of the aforementioned development programme. However, some remodelling of older buildings has taken place and all properties have been maintained in a good state of repair.

The Company's fleet of trucks has been enlarged to keep pace with increased volume, and older models have been replaced with new and modern units of larger capacity in an effort to reduce delivery costs.

Although Working Capital shows an increase from the previous year, this is the result of having deferred, to a considerable extent, the modernization of existing properties and the building of new service stations during the period of excessively high costs. A heavy programme of this nature lies ahead and will require large sums of capital in its completion.

In the light of higher earnings during the past several years, your Directors felt justified in establishing a dividend rate of \$3.00 per annum on Common and Ordinary shares.

All products of high quality were in good supply throughout the year. The effect of Alberta crude will be reflected, in due course, in the Eastern Canadian markets. When the Interprovincial pipe line is completed, Western crude will be delivered by pipe line and water to the Eastern refineries improving greatly Canada's domestic supply position.

While your Directors view with some concern the continued unsettled condition of world affairs and fully appreciate that business trends indicate an era of keener competition, they face the future with optimism based on a strong belief in our democratic form of Government and confidence in the "SUPERTEST" Organization to maintain and enlarge its position in an extremely competitive Industry. In their opinion, the outlook for 1950 is encouraging.

Your Directors desire to express their profound appreciation for the faithful and effective services rendered by all "SUPERTEST" employees, tenants and dealers throughout the past year.

On behalf of the Board,

J. G. THOMPSON,

President.
