# SUPERTEST PETROLEUM CORPORATION LIMITED

To the Shareholders:

The year 1948 is one of especial interest to the shareholders and employees of your Company in that it marks the Twenty-fifth Anniversary of the founding of "SUPERTEST".

The past twenty-five years have witnessed a development from one gasoline pump in 1923 to well over 10,000 at the present time. With this remarkable growth have come opportunities for employment and improved working conditions. Today all "SUPERTEST" employees enjoy the benefits not only of excellent incomes, but of Group Sickness and Accident Insurance, Group Life Insurance and Group Pension plans.

Turning to the past year, it might be said that operating conditions have continued to follow the post-war pattern in that many difficulties were encountered in the form of shortages of material and supplies and continually increasing costs of operation.

The demand for your Company's products was excellent and sales were at a higher level than in the previous year. Net profit of \$800,625.00 was likewise higher than in 1946. Having regard, however, to a substantially increased profit from the sale of tires, and to a decrease in income taxes, the improvement in earnings was not in proportion to the increase in sales. Under continually rising costs, an ever-increasing volume of sales is required to maintain a satisfactory profit.

Likewise, during the year under review your Company was again faced with heavy expenditures in connection with the restoration of equipment which had become obsolete during the war years and with the expansion of plant facilities to accommodate the largely increased post-war business.

It had been planned that with the cessation of hostilities, steps would be taken to build a number of modern, post-war service stations. However, high construction costs and shortage of materials have brought about a postponement of this plan and emphasis will continue to be placed on modernization of existing facilities and adequate maintenance of same. Such expenditures are, of course, reflected in the working capital position.

The very severe winter now being encountered has placed added pressure on the supply situation with respect to Fuel Oil and Canadians will be fortunate indeed to pass through the current winter season without at least some inconvenience in this respect, nor is there any clarity with respect to availability of additional heating oils for next season. Indications point to continued shortage.

May we suggest that shareholders will find the issues of the "SUPERTEST" magazine "MAPLE LEAF" of especial interest during this Anniversary year.

On behalf of the Board,

J. G. THOMPSON,

March, 1948.

President.
