ADDRESS OF THE PRESIDENT

E. D. GRAY-DONALD

The year 1971 marked two important anniversaries for the Bank. On May 26, 1846, the Bank was founded as a cooperative enterprise so we have passed 125 years since its original founding. On April 21, 1871, it was incorporated as a joint stock company, so that we have completed 100 years as such. It has been a Montreal Bank dedicated to the service of the people of Montreal, and growing with the city. It has prospered, and we can take justifiable pride in its progress, in the firm belief that it has always unwaveringly pursued the objectives of its founders.

The past year in particular has been a good one for the Bank, and we have been able to show a very satisfactory increase in earnings. We have added a million dollars to our Rest Account and have been able, at year end, to establish our Appropriations for Losses at a higher value than ever before.

Apart from the excellent earnings picture, the Bank has made considerable progress in many other ways. We have always believed that the provision of polite, cheerful and

competent service to our customers is of prime importance, and we have intensified our efforts in this direction.

By the end of this year we expect that all our branches will be "on-line" and that at that time, not only will we be able to provide a truly unified banking system, but we shall be the first in Canada to do so.

Our deposits have increased very substantially. Our aim is to provide a complete personal banking service available to all the residents of Montreal and vicinity and to further this objective we shall be opening a number of branches to serve new areas.

With the financial statements that have been mailed to you are included those of our subsidiary Montreal City and District Trustees Limited. The Trust Company, established over 30 years ago, is growing steadily. As we look upon the services offered by the Trust Company as an extension of those of the Bank we have taken steps to inform our customers more fully of the availability of those services, and expect that this will materially increase the business of the Trust Company, at the same time increasing the usefulness of the Bank to its depositors.

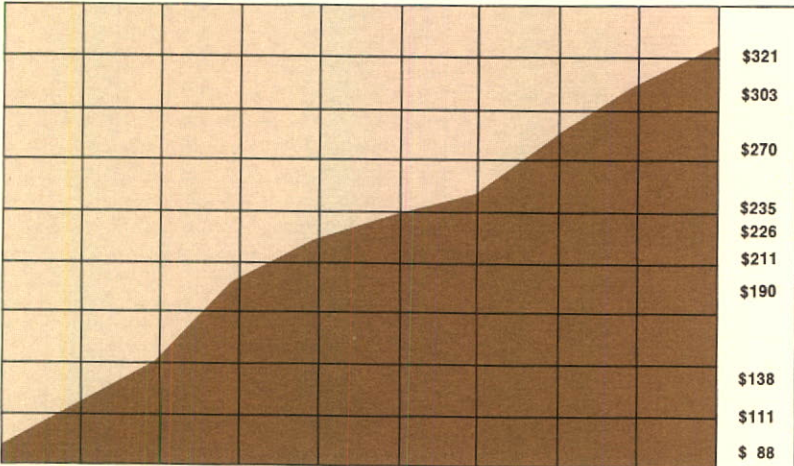

As our Bank is a savings bank operating in a restricted area it has not been involved directly in the international monetary crisis of the past year, but, also because of its nature, it cannot fail to have been affected to some extent by the consequent industrial unrest and uncertainty, and, of course, by the high rate of unemployment. Nor have things been helped by the prolonged debate on the Income Tax Act. With the devaluation of the United States dollar and adjustment of other currencies we should be able to look forward to some degree of stability in international monetary affairs. With the passage of the new Income Tax Act and the establishment of valuation days, another uncertainty has been removed. These will both help a lot, but do not in themselves solve all our problems.

The Income Tax Act is extremely complex, and will undoubtedly be revised as experience shows parts of it to be unworkable or unjust. Another uncertainty is the manner in which the legislation of the Provinces will be coordinated with that of the Federal Government

Savings deposits, millions of dollars

Mortgage loans, millions of dollars

Profits, thousands of dollars

and to what extent. The coming year should see many of these problems resolved.

The recently published economic review by the Bank of Canada presents an encouraging picture for the coming year, but at the same time warns us of potential difficulties. In the Province of Quebec there are many great projects in the planning stage, which, once started, should do much to stimulate overall activity, and reduce unemployment. I am very hopeful that in 1972 we shall see a resurgence of business within the province, in which we shall be active participants.

Your Bank may be old in years, but I can assure you that it is young in spirit. More than ever before we have a young, enthusiastic, and dynamic staff, anxious to develop and expand the Bank to new heights and greater achievement. With such backing we cannot fail to progress.

REMARKS OF THE VICE-PRESIDENT AND GENERAL MANAGER

F.-X. GUÉRARD

You have now received the One Hundred and Twenty-Fifth Annual Report of The Montreal City and District Savings Bank, comprising the Statement of Assets and Liabilities, the Statement of Revenues, Expenses and Undivided Profits and the Statement of Accumulated Appropriations for Losses. The Auditors' report has also been submitted to you.

REVENUE, EXPENSES AND UNDIVIDED PROFITS

Income from loans, from securities and from all other sources reached \$47,019,338 for the financial year, an increase of \$4,684,619 over the previous year.

Expenses, comprising interest paid to depositors, salaries and staff benefits, property expenses, depreciation and all other expenses increased by \$1,773,589 to total \$39,231,397 and leave a balance of revenue for the year of \$7,787,941.

From this sum, an amount of \$3,377,661 was transferred to Accumulated Appropriations for Losses and a provision for income taxes was made in the amount of \$1,832,930, leaving a balance of profits for the year of \$2,577,350 which, compared with the balance of profits of \$2,301,229 for the previous year represents an increase of \$276,121 or 12%.

Earnings per share at \$1.29 compared with \$1.15 for the previous year.

Dividends totalling \$0.70 per share were paid during the year : two quarterly dividends of \$0.16 respectively and two of \$0.18 respectively plus an extra of \$0.02.

A branch manager offers help and advice about getting a mortgage loan.

By the end of 1972, all our branches will be operating with the "On-Line" data processing system.

After payment of dividends amounting to \$1,400,000 there remained a profit of \$1,177,350 which added to \$292,949 brought forward, gave a total of \$1,470,299 from which \$1,000,000 was transferred to Rest Account leaving as Undivided Profits \$470,299.

The Rest Account now stands at \$19,500,000.

ACCUMULATED APPROPRIATIONS FOR LOSSES

Accumulated Appropriations for Losses stood at \$7,939,368 at the beginning of the financial year. After adding a transfer from current earnings of \$3,377,661 and sums representing adjustment to market value of loans and investments, and after providing \$1,750,260 for taxes, said Accumulated Appropriations for Losses increased by \$6,579,511 and now stand at \$14,518,879.

EXPANSION OF THE BANK

We are planning the opening of 7 new branches which will be added, during the coming months, to our present network of 81 branches.

The installation of our on-line data processing system is proceeding on schedule, 56 branches are fully automated and we expect that by the end of this year all branches of The Montreal City and District Savings Bank will be integrated to form one unit at the service of the population of greater Montreal.

During the year a training center was inaugurated at Head Office. The involvement of our employees in the various seminars that were held there, indicates their eagerness to learn.

Practically all members of our supervisory personnel were active participants in Management courses and a programme on employee - customer relations is planned for 1972.

Presently, 10% of our employees are following courses given by the Canadian Bankers Institute and they receive the kind of training which makes them aware of the necessity for them to exceed the technical requirements of their work if they want to face the challenge of the coming years.

In my own name and on behalf of the Management, I take this opportunity of thanking my fellow-directors for their continued and generous support, and all the members of the staff for their sustained efforts, their devotion and their loyalty.

Members of our supervisory personnel are active participants in Management courses.

Launching of a new advertising campaign.

Pre-entry training courses for new tellers were inaugurated during the year.

Auditors' report to the Shareholders

We have examined the statement of assets and liabilities of The Montreal City and District Savings Bank as at October 31, 1971 and the statements of revenue, expenses and undivided profits, accumulated appropriations for losses and rest account for the financial year ended on that date. We have compared them with the books and accounts at Head Office and with the certified returns from the branches. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances. In our opinion, these financial statements present fairly the financial position of the Bank as at October 31, 1971 and its revenue, expenses, undivided profits, accumulated appropriations for losses and its rest account for the financial year ended on that date.

Auditors' Report

We have examined the balance sheet of Montreal City and District Trustees Limited as at October 31, 1971 and the statements of income and expenses and undivided profits for the year ended at that date. We have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

As at October 31, 1971 we have verified the cash and securities of the Company and of the guaranteed accounts. During the financial period we have verified these same securities and those held in safekeeping and those held for trust accounts administered by the Company. The securities and funds of the Company are kept separate from those held in safekeeping, in trust, in guaranteed accounts or against loans and advances and are earmarked in the books so as to show to which account they belong.

In our opinion, according to the best of our information and the explanations given to us and as shown by the books of the Company, these financial statements present fairly the financial position of the Company as at October 31, 1971 and the results of its operations for the year ended at that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
