DIRECTORS' REPORT

TO THE SHAREHOLDERS

debt, purchase of additional shares of subsidiary companies, provision for the net loss and various other charges the consolidated working capital was \$2,026,599 at the end of the year.

At the commencement of 1968 the Company had reason to be moderately optimistic as to the results for the year. The situation changed rapidly during the year because of a drastic increase in imports of our types of products from the low-wage countries of the Far East. Approximately 50% of all shirts used in Canada during 1968 were imports, as against 25% as recently as 1966. We have reason to believe that the Federal Government now realizes the serious situation that exists in our industry and is taking some steps to correct the situation.

Forecasting results for 1969 is rather difficult due to the import situation. Sales for the first quarter were slightly lower than the comparable period of last year due largely to the share of the market absorbed by imports. Nevertheless a moderate profit was realized in the quarter, and the reduction of working capital at the end of 1968 has been in large measure recovered.

Your Directors herewith submit your Company's Sixty-Third Annual Report together with the Financial Statements for the year ended December 31, 1968 as certified by the Company's Auditors.

The Financial Statements are presented on a consolidated basis representing the Company's and its subsidiaries' manufacturing and marketing operations. The consolidated net loss for the year amounted to \$75,803 after providing \$108,572 for depreciation of fixed assets and charging \$10,328 to minority interest attributable to the preferred shares of a subsidiary.

During 1968 minor additions were made to fixed assets where necessary for replacement purposes. After payment of instalments due on long term

Though the Company's manufacturing facilities in La Tuque have been temporarily closed due to our need for less production, again due to imports, our other plant facilities continue to operate and we believe the first-quarter performance can be maintained through the year.

On behalf of the Directors I would like to express to our personnel our sincere appreciation for their loyal efforts during the past year.

Submitted on behalf of the Board.

Vos Directeurs vous soumettent ci-joint le Soixante-troisième Rapport Annuel de la Compagnie, accompagné des Etats Financiers pour l'année fiscale terminée le 31 décembre 1968, tels qu'attestés par les vérificateurs de la Compagnie.

Les Etats Financiers vous sont présentés sous forme consolidée et représentent les opérations de fabrication et de vente de la Compagnie et de ses filiales. La perte consolidée pour l'année se chiffre à \$75,803, compte tenu des provisions de \$108,572 pour amortissement des immobilisations et \$10,328 pour intérêts minoritaires attribuables aux actions privilégiées d'une filiale de la Compagnie.

Au cours de l'année 1968 de légères augmentations aux immobilisations ont été faites pour effectuer les remplacements nécessaires. Après avoir versé les fonds nécessaires pour diminuer les obligations à longue échéance, pour l'achat d'actions additionnelles des filiales, et provisions pour les pertes et autres charges, le Fonds de roulement se chiffrait à \$2,026,599 à la fin de l'année.

Au début de l'année 1969, votre Compagnie avait raison de considérer les résultats de l'an dernier avec optimisme. La situation a dû connaître un changement prononcé durant l'année terminée cause d'une augmentation marquée dans l'importation de marchandises que nous produisons des pays orientaux où la base de gages est appréciablement moindre. Environ 50% de chemises vendues au Canada en 1968 furent importées à comparer à 25% en 1966. Nous avons raison de croire que le gouvernement fédéral réalise maintenant que notre industrie fait face à une grave situation et qu'il prend les démarches nécessaires pour corriger la situation.

Prédire les résultats pour 1969 est quasi impossible en vue du problème des importations.

RAPPORT DES DIRECTEURS

AUX ACTIONNAIRES

Les ventes du premier trimestre ont connu une légère baisse comparativement à l'année passée attribuable au marché absorbé par les importations. Néanmoins un léger profit fut réalisé dans le trimestre et la diminution dans les Fonds de roulement à la fin de 1968 fut renversée en majeure partie.

Quoique nos usines à La Tuque ont été fermées temporairement cause de réduction dans nos demandes de production — un autre adjoint des importations — nos usines ailleurs continuent leurs opérations et nous prévoyons que la performance du premier trimestre saura se maintenir durant l'année complète.

Au nom des membres du Conseil d'Administration, je désire témoigner notre appréciation sincère au personnel de la Compagnie pour leur dévouement au cours de l'année 1968.

Soumis au nom du Conseil.
