## Annual Report

TO THE SHAREHOLDERS OF ARGUS CORPORATION LIMITED

February 26, 1981.

Your directors present the balance sheet of the Corporation as at December 31, 1980 and the statements of income and expenses and changes in the financial position for the 12 months ended on that date. Also shown are comparative figures for the year ended November 30, 1979 and for the 13 months ended December 31, 1980. The financial statements are presented in this form to reflect a change in the Corporation's fiscal year from November 30 to December 31.

The balance sheet shows the Corporation's major investments carried at market values. Provision has been made for deferred income taxes payable under the hypothetical assumption that such investments were sold at the market prices prevailing on December 31, 1980, and on November 30, 1979 for the comparative statement. In our opinion, such a provision is not a definitive figure. Unrealized gain on such investments is estimated at \$74,218,702 at December 31, 1980 and \$50,932,712 at November 30, 1979.

As at December 31, 1980, the net asset value of each of the Corporation's Class C shares and common shares was \$11.19, after providing for the deferred income taxes on capital gains referred to above. Such taxes, if applicable, would amount to approximately 67¢ per share. The comparable net asset value of each Class C and common share at November 30, 1979 was \$11.81 and the comparable deferred income taxes on that date were 9¢ per share.

Income from investments during the 12 months ended December 31, 1980 amounted to \$5,577,539 compared to \$9,035,032 for the year ended November 30, 1979. Expenses were \$1,043,805 compared to \$1,030,921 in the previous year. As in fiscal 1979, a considerable portion of the expenses incurred resulted from necessary renovations at the Corporation's offices at 10 Toronto Street. Net income in 1980 amounted to \$4,754,664 compared to \$7,169,711 for the year ended November 30, 1979. The contraction of investment income in 1980 from the previous year was attributable largely to the disposal of the Corporation's Hollinger holdings in July, 1979.

In addition to the regular dividends on the Corporation's Class A and Class B Preference Shares, dividends totalling 10¢ per share were paid on the Class C and the common shares during 1980. At its meeting in June, 1980, your Board of Directors omitted the regular quarterly dividends on the Corporation's Class C and common shares commencing with the September, 1980 quarterly payments. The Board decided that the withholding of such dividends would strengthen the cash position of the Corporation and permit further increases in portfolio positions. In the opinion of the directors such a policy would prove of longer-term benefit to the shareholders.

In October, 1980, your Corporation disposed of 3,000,000 common shares of Massey-Ferguson Limited representing the Corporation's entire holding of such shares by transferring ownership thereof, without consideration, to the Canadian pension plans of Massey-Ferguson Limited. As reflected in your Corporation's financial statements for the year ended December 31, 1980, an income tax recovery, following upon such transfer, of approximately \$7,600,000 is anticipated in respect of income taxes that were paid as a result of the disposal of certain portfolio investments in the 1979 fiscal year.

In the years immediately prior to 1978, the financial condition of Massey-Ferguson deteriorated considerably. Your Corporation played a significant role from 1978 to 1980 in revitalizing Massey-Ferguson management, streamlining its operations, convincing its lenders of the desirability of a comprehensive financial plan of reorganization, and encouraging Federal and Provincial government participation in such a plan. The above-mentioned disposition was a difficult decision, but we believe it to have been in your Corporation's best interests as well as Massey-Ferguson's. We wish good fortune for Massey-Ferguson Limited and all who are associated with it as that company turns a new page in its long and colourful history.

In the 12 months ended December 31, 1980, the Corporation purchased 165,000 common shares of Dominion Stores Limited increasing your Corporation's interest in that company to 38.5% of the shares outstanding. During 1980 3,938 Class A Preference Shares \$2.50 Series and 4,377 Class A Preference Shares \$2.60 Series were purchased and cancelled.

In September, 1980, Mr. John R. Finlay, Q.C. a director of Argus and of The Ravelston Corporation Limited was elected a Vice-President of the Corporation.

Shareholders, on request, will receive copies of the annual reports of the companies which comprise the Corporation's major investments.

Submitted on behalf of the Board, CONRAD M. BLACK, Chairman of the Board.

G. Montegu Black,

President.

Corporation Limited	Common	2,885,975	50.92%	39,682,156	2,880,975	30,610,359
Securities not having a quoted market value				\$114,671,331 \$ 2,298,949		\$122,209,734 \$ 2,298,952

#### NOTES TO FINANCIAL STATEMENTS December 31, 1980

#### 1. SUMMARY OF ACCOUNTING POLICIES:

Investments-

The investments having a quoted market value are carried in the balance sheet at market values which are determined by pricing the holdings in each security at the closing quoted market prices at the year end. Such amounts do not necessarily represent the value of entire blocks which may be more or less than that indicated by market quotations.

Investments not having a quoted market value are carried at cost.

Deferred income taxes-

Provision has been made for deferred income taxes that would be payable if the investments had been realized at the year end at the indicated quoted market value on that date.

Dividend income-

Dividend income is recognized in the statement of income and expenses on a cash received basis.

Head office premises-

Head office premises are carried at nominal value and all capital additions to the building and furnishings are charged to expense as incurred.

#### 2. CAPITAL STOCK

(a) The Class A and Class B preference shares have a par value of \$50 each and are issuable in series; the Class C preference shares and the common shares are without par value.

The issued Class A and Class B preference shares carry cumulative dividends and are redeemable at the option of the Corporation at \$52.50 per share and accrued dividends.

The Class C preference shares, subject to the prior rights of the Class A and Class B preference shares, participate equally with the common shares in (i) any dividends paid in any fiscal year after \$.30 per share has been paid on each Class C preference share and common share and (ii) any distribution of assets.

(b) During the thirteen months ended December 31, 1980, 3,938 Class A preference shares \$2.50 series and 4,377 Class A preference shares \$2.60 series were purchased and cancelled.

#### 3. Investment in massey-ferguson limited:

On October 2, 1980, the Corporation disposed of 3,000,000 common shares of Massey-Ferguson Limited held by the Corporation by transferring without consideration the ownership of one-half of such shares to each of the two pension plans of Massey-Ferguson Limited established for the benefit of its Canadian employees.

#### 4. INCOME TAXES:

As a result of the transaction described in Note 3, the Corporation incurred a capital loss for tax purposes of \$39,000,000. A portion amounting to \$29,800,000 has been applied against the capital gains realized for the year ended November 30, 1979. The remaining amount of \$9,200,000 may be used to reduce future capital gains and the potential tax benefits will be reflected in the financial statements when realized.

#### 5. CONTINGENT LIABILITY:

The Corporation previously had arrangements which expire in 1983 with certain shareholders of Hollinger Argus Limited (formerly Hollinger Mines Limited) regarding first refusal rights to purchase shares of that company. Certain of such shareholders have the right to put shares of Hollinger Argus Limited to the Corporation. These arrangements have been taken over by The Ravelston Corporation Limited which has agreed to assume and indemnify the Corporation against all obligations under such arrangements.

#### 6. CHANGE IN FISCAL YEAR END:

On November 12, 1980 the directors approved a change in the fiscal year end of the Corporation from November 30 to December 31. As a consequence of this change, the statements of deficit, unrealized gain on investments, income and expenses, and changes in financial position cover the thirteen months ended December 31, 1980 and for comparative purposes, amounts are also shown for the twelve months ended on that date.

#### 7. RELATED PARTY TRANSACTIONS:

The Corporation incurs costs in connection with the administration and operations at 10 Toronto Street. A portion of such costs are recovered from certain related companies.

#### AUDITORS' REPORT

To the Shareholders of

ARGUS CORPORATION LIMITED:

We have examined the balance sheet and the statement of investments of Argus Corporation Limited as at December 31, 1980 and the statements of deficit, unrealized gain on investments, income and expenses and changes in financial position for the thirteen months and twelve months then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1980 and the results of its operations and the changes in its financial position for the thirteen months and twelve months then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.
