#### DIRECTORS' REPORT

TO THE SHAREHOLDERS:

The Fourteenth Annual Report covering the year ended December 31, 1942, embracing the most active period in the Company's history is presented herewith.

The productive facilities of your Company were taxed to capacity to meet urgent demands of the Government for war services, resulting in the largest volume of sales in the history of your Company.

All operating expenses including maintenance, administration and selling expenses have been provided for in the usual manner.

Provision has been made for Dominion Income and Excess Profits Taxes in an amount considered adequate, although the taxes in respect of the years subsequent to 1939 have not been finally determined.

Inventories of raw materials and of goods in process for the year under review were maintained at a high level to insure continuity of production of your Company's plants necessitated by war conditions. The inventory reserve set up as at December 31, 1940, has again been carried forward to provide for future decline in values, in accordance with the Excess Profits Tax Act.

An appropriation of surplus has been made in the amount of \$200,000.00 to create a reserve for contingencies having regard to post-war decline of inventory values and other requirements of a similar nature.

After provision for depreciation and making allowance for taxes above referred to, the net profit for the year was \$163,110.30.

Expenditures on capital improvements amounted to \$137,286.49.

The books and accounts of your Company have been examined and the auditors' report is submitted herewith.

Respectfully submitted,

J. W. Hobbs, Chairman of the Board.
