Maple Leaf Mills Limited

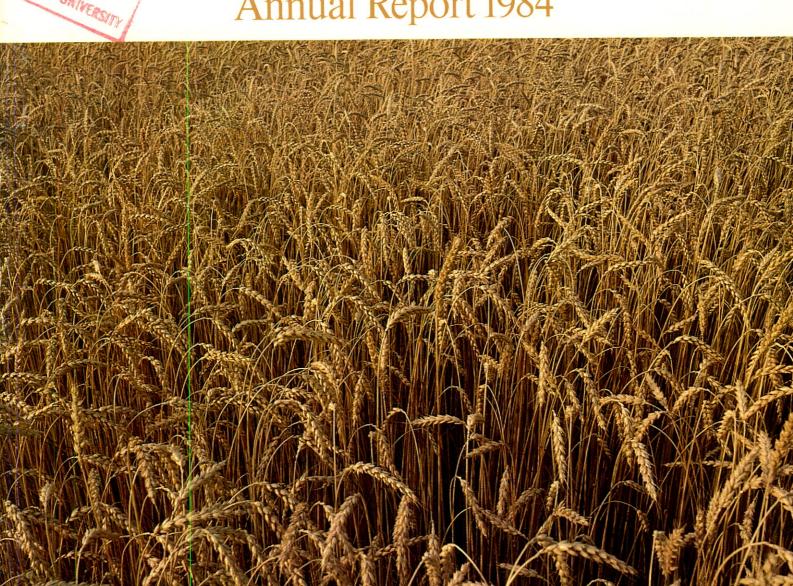

Annual Report 1984

Maple Leaf Mills Limited is a diversified agriproducts company engaged in the production and sale of industrial and consumer flour and flour-based products including the production and distribution of baked goods. Maple Leaf also operates one of the largest rendering businesses in Canada, and a fully integrated poultry business in Ontario. It is one of Canada's largest oil seed processors, produces and markets a complete range of animal and poultry feeds, and merchandises and distributes grain through a network of country and terminal grain elevators principally in Ontario.

The Company, with roots in the flour milling business dating back to 1836, is a wholly-owned subsidiary of Canadian Pacific Enterprises Limited.

Net earnings of \$15.7 million were up 4% from the \$15.1 million earned in 1983 notwithstanding a decline in sales. Sales of \$973 million were down 5% from the record level set in 1983, mainly due to reduced activity in grain trading.

Sales and earnings increased in the Flour and Other Food Products segment while they declined in the Agricultural Products segment.

FLOUR AND OTHER FOOD PRODUCTS

Flour Division earnings were very favourable and reflected a heavier than usual export movement. The domestic market has been and continues to be very competitive. However, our policy of rationalizing productive capacity and improving productivity has enabled the Division to retain unit profitability in the face of the severe competition.

The market for Grocery Products was a very difficult one, especially for prepared mixes and earnings decreased from the previous year.

Our Associated Bakeries as a group again had strong earnings and directly contributed \$4.9 million to net earnings compared with \$4.8 million in 1983. Corporate Foods Limited results reflect good earnings from Unipain Inc. and Dough Delight Limited and volume and productivity gains in Ontario. On December 28, 1984, Unipain Inc., in which Corporate Foods held a 25% interest, merged with Le Groupe Samson Inc. to become Multimarques Inc., Canada's largest bakery. Corporate Foods will retain a 25% interest in the new company. Eastern Bakeries Limited results also reflect cost saving and productivity improvement projects but the earnings of McGavin Foods Limited are disappointing.

AGRICULTURAL PRODUCTS

Masterfeeds had another difficult year in spite of continuing efforts to pare down the operations to a profitable core. During the year the Division either closed or significantly reduced its retail store operations and reorganized on a functional rather than a geographic basis. As a result, the Division is well positioned to take advantage of a turnaround in the agricultural economy.

Poultry Products Division had a very successful year as it benefitted from the steadily increasing per capita consumption of chicken. The Stillmeadow operation has been equipped to enable it to capitalize on the rapidly increasing demand for boneless poultry products including finger foods.

Rendering Division achieved record sales and earnings. Tight world supplies of oils pushed tallow and edible product prices to all time highs and more than offset the effect of depressed protein prices caused by an oversupply of vegetable meal.

Grain Division also had an excellent year as earnings improved significantly from the depressed levels of the last two years. Weather conditions for Ontario grain were much more favourable and the higher throughput of Western export grain is reflected in the improved earnings.

The International Division's Caribbean operations in Barbados and St. Vincent had excellent results. However, these were offset by losses incurred in grain trading operations as a worldwide surplus of grains caused a very competitive market place. Because of poor prospects, the Geneva grain office was closed and the Minneapolis grain office was scaled down.

Maple Leaf Monarch Company had a better year as soya margins improved due to a firmer oil basis resulting from a worldwide tight oil supply. Strong earnings from the oil importation business helped soften the impact of an eight week strike at the Windsor plant.

SUMMARY

The results of the past year are a testimonial to the excellent efforts of all personnel. Management and staff continue to work together on Quality of Work Life and Health and Safety programmes. On the job accidents have declined 45% over the last two years and productivity improvements have been made in many areas of the Company. The Company is well positioned in all its areas of expertise.

On behalf of the Board of Directors.

Robert G. Dale Chairman of the Board Robert S. DeMone President and Chief Executive Officer

Auditors' Report

To the Shareholder of Maple Leaf Mills Limited:

We have examined the consolidated balance sheet of Maple Leaf Mills Limited as at December 31, 1984 and the consolidated statements of earnings, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the Company as at December 31, 1984 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Notes to Consolidated Financial Statements

December 31, 1984

1 Summary of accounting policies

(a) Basis of consolidation-

The consolidated financial statements include the accounts of all subsidiaries, and also the company's proportionate share of the accounts of Maple Leaf Monarch Company, a 50%-owned unincorporated joint venture. The principal subsidiaries and the company's interest therein are set out below:

Corporate Foods Limited	63%
Eastern Bakeries Limited	69%
Maple Leaf Mills Inc.	100%
Phenix Flour Limited	100%

Investments in associated companies are accounted for by the equity method. The principal associated companies and the company's direct and indirect interest therein are set out below:

Barbados Mills Limited	40%
East Caribbean Flour Mills Limited	40%
McGavin Foods Limited	40%
Multimarques Inc.	20%

(b) Inventories-

Grains held for resale, and other inventories where applicable, are valued on the basis of market prices at December 31, including appropriate adjustments for open purchase and sales contracts as well as futures contracts, to effectively state these inventories at the lower of cost and replacement cost. All other inventories are valued at the lower of cost and net realizable value. The company hedges certain commodity transactions and inventories to minimize risk due to market fluctuations.

(c) Depreciation-

Depreciation is calculated on the straight-line basis. The rates used, as set out below, are estimated to be sufficient to depreciate the cost of the assets over their useful lives:

Buildings	2% – 5% per annum
Machinery and equipment	6% – 33% per annum
Automotive equipment	10% - 25% per annum

(d) Pensions-

Pension costs for current service are charged to earnings and funded as they accrue. Past service costs relating to changes in pension benefits and in actuarial assumptions are amortized and funded over periods not exceeding fifteen years.

(e) Income taxes—

Income taxes are accounted for by the tax allocation method, whereby tax provisions are based on accounting income and taxes relating to timing differences between accounting and taxable income are deferred. Investment tax credits are accounted for using the flow-through method.

(f) Foreign exchange-

The accounts of self-sustaining foreign operations are translated using the current rate method, under which assets and liabilities are translated at the exchange rate prevailing at the year end, and revenues and expenses at average rates of exchange during the year. For such operations exchange gains or losses are deferred in shareholder's equity until realized.

Long-term debt of the company denominated in foreign currencies is translated at the prevailing exchange rate. The resulting unrealized exchange gains or losses are included in other assets and amortized over the remaining term of the debt.

Prior to January 1, 1984, the company followed the current/non-current method of exchange translation and recognized all exchange gains and losses in earnings. The change in accounting did not have a material effect on earnings.

Inventories	1984	1983
	(000's o	mitted)
Grains held for resale	\$ 8,607	\$15,192
Material held for production	35,588	45,617

	1989	_	15,712		

6 Pension costs

Pension expense totalled approximately \$3,100,000 in both 1984 and 1983. During the year, certain pension benefits were improved, including plan amendments to adopt final earnings benefits by Corporate Foods Limited and Eastern Bakeries Limited, thereby giving rise to additional unfunded past service obligations of approximately \$4,400,000. Based on the most recent independent actuarial valuations of the companies' plans, and subsequent improvements in benefits, unfunded obligations at December 31, consisted of the following amounts:

	1984	1983
	(000's omitted)	
Accrued in current liabilities	\$ 570	\$ 900
Accrued in non-current liabilities	2,513	2,596
To be expensed in future years	4,372	500
	\$7,455	\$3,996

7 Share capital

Authorized share capital consists of an unlimited number of common shares without par value of which 220,500 shares have been issued.

8 Income taxes

Income taxes charged to earnings in 1984 include deferred taxes of \$3,265,000 (\$2,817,000 in 1983).

The following table reconciles the statutory federal and provincial income tax rate to the consolidated effective tax rate on earnings before income taxes:

	1984	1983
Combined basic federal and provincial		
income tax rate	49.3%	50.0%
Minority interest	5.3	5.1
Equity in net earnings of		
associated companies	(7.3)	(7.0)
3% Inventory allowance	(4.6)	(3.8)
Manufacturing and processing		
tax credit	(3.9)	(4.0)
Investment tax credit	(1.5)	(2.5)
Other	1.4	2.5
Effective tax rate	38.7%	40.3%

9 Commitment and contingency

On December 28, 1984, Unipain Inc., a 25%-owned associated company of Corporate Foods Limited, amalgamated with Le Groupe Samson Inc., to form Multimarques Inc. On that date Corporate Foods invested \$3,185,000 and on February 16, 1985 an additional \$5,000,000 to bring its interest in Multimarques up to 25%.

Pursuant to the above transaction certain shareholders of Multi-marques Inc. are entitled to put their shares to the company. The maximum obligation of the company is \$8,750,000 subject to adjustment for changes in the net worth of Multimarques Inc., as defined, up to December 31, 1990.

10 Related party transactions

(a) The company participates in a centralized banking system with its parent, Canadian Pacific Enterprises Limited, and borrows under revolving term loan agreements with Canadian Pacific Securities Limited. Interest charged under these agreements amounted to \$1,946,000 in 1984 (\$1,624,000 in 1983). Such interest is based on the lender's cost of borrowing.

Some of the company's products are transported by CP Rail at published tariff rates.

(b) During the year, in the normal course of business, the company made sales to and purchases from associated companies and Maple Leaf Monarch Company amounting to \$49,672,000 (\$61,873,000 in 1983) and \$4,018,000 (\$3,517,000 in 1983) respectively.

11 Segment information

Segment information is shown in the following table. The agricultural products segment includes the production of animal and poultry feeds, hatching, growing and processing poultry, rendering animal and poultry by-products, merchandising grain and operating grain elevators, providing management assistance to associated companies overseas, and processing oil seeds through Maple Leaf Monarch Company. The flour and other food products

segment includes the production of flour, consumer grocery products and bakery products.

Reconciliation of segment operating profit to net earnings:

	1984	1983
	(000's omitted)	
Business segment operating profit	\$49,318	\$46,962
Equity in earnings of associated		
companies	3,687	3,489
General corporate expenses	(9,328)	(6,901)
Interest expense	(15,407)	(15,675)
Minority interest	(2,684)	(2,547)
Income taxes	(9,900)	(10,200)
Net earnings	\$15,686	\$15,128
