# 1929

### ABITIBI POWER & PAPER COMPANY, LIMITED

#### SIXTEENTH ANNUAL REPORT

FOR THE FISCAL YEAR ENDING DECEMBER 31, 1929.

To the Shareholders of the

Abitibi Power & Paper Company, Limited.

Your Directors herewith submit their report for the fiscal year ending December 31, 1929.

Operations for the year produced net earnings of \$8,377,246.35, after income tax, but before providing for interest and reserves. After deducting interest on funded debt, and other interest, amounting to \$2,552,231.17, there was available for reserves and dividends, \$5,825,015.18. Preferred Stock dividends of \$2,162,908.00 were declared and paid. Additional reserves for depreciation and depletion, amounting to \$1,713,211.06, were set up on the usual basis, and \$1,948,896.12 was added to Surplus Account.

During the year fixed assets were increased \$1,358,649.18, of which \$1,328,702.65 represented capital additions to the Company's mills, power plants, railroads and townsites, and Working Capital and Investment Account were increased \$2,193,818.95.

In January, 1929, your Company and Canada Power & Paper Corporation, each acquired a one half interest in General Power & Paper Company, Limited, which is under contract to purchase all the shares of Thunder Bay Paper Co., Limited, owning a modern newsprint mill on deep water at Port Arthur, Ontario, and valuable timber leases in the Great Lakes District. This property is particularly adapted to water shipments of newsprint to United States Lake Ports.

In January of this year, through an exchange of shares, your Company acquired all of the Common Stock of Provincial Paper, Limited, a well established concern, in excellent financial condition, producing book, magazine, coated and other types of fine papers, entirely non-competitive with your Company's main product.

The acquisition of Provincial Paper, Limited, and the development of your more important Power Reserves, now under serious consideration, are in line with your Company's policy of securing additional and more diversified sources of revenue.

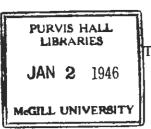

Your properties have been well maintained; material expenditures have been made for the purpose of still further reducing costs and it is a pleasure to acknowledge the splendid co-operation of the entire manufacturing organization towards the same end.

Conditions in the Newsprint Industry are still adversely affected through overproduction, but the prevailing low prices are already having their inevitable effect of limiting the creation of new units and with the return of normal business conditions in its great market, the United States, there is no reason to doubt that this fundamental industry will again reach a position of reasonable prosperity, commensurate with its importance.

On behalf of the Board of Directors,

ALEXANDER SMITH,

President.

Toronto, March 1, 1930.
