## AMALGAMATED ELECTRIC CORPORATION LIMITED

TO THE SHAREHOLDERS:

Your Directors submit herewith the Company's Income Account and Balance Sheet showing the results of the first ten months business and the financial position of the Company, as of December 31, 1929. As you are aware, the business now carried on by your Company was privately owned and for the most part was acquired by the present Company from the former owners as of March 1929. The profits applicable to your Company are, therefore, for the period of ten months.

The Company manufactures wiring devices, residential and industrial lighting fixtures, panel boxes, reflectors, theatre lighting and various miscellaneous electrical units and devices for residential and industrial purposes.

These products are marketed throughout Canada through the jobbers in this business, and in amalgamating the separate units it was necessary to formulate an equitable policy to these jobbers, which has now been accomplished.

Your Company had two plants in Toronto, one of which has recently been vacated and sold, and all the manufacturing in that City has been concentrated under one roof, thereby eliminating uneconomical duplication. The results of this will be reflected in your next Balance Sheet. Adjustments in the personnel of the organization have also been made possible by the amalgamation. We now feel that the Company is in a position to function properly in its field, and to reduce the importation into Canada of foreign products, that we can assemble or manufacture, thus using Canadian workmen, thereby performing an economic service to the country as a whole.

Your Company has plants now located as follows: Montreal, Toronto, Winnipeg, Calgary and Vancouver.

The strategic location of our plants gives us facilities for Dominion wide distribution of our products, and we are now equipped to give the maximum of service to the Canadian jobber, and indirectly to the Canadian consumer. We feel that your Company should naturally grow to large proportions with Canada.

Your Directors wish to express their appreciation of the efficient work of the employees during this trying period of amalgamation, as it has been most difficult at times for them and they have shown a willingness, far beyond their regular duties, to give us their co-operation.

On behalf of the Board of Directors.

W. L. BAYER, *President*
