Anglin-Norcross Corporation Limited and Subsidiary Companies

REPORT OF THE BOARD OF DIRECTORS TO THE SHAREHOLDERS FOR THE YEAR ENDING FEBRUARY 28th, 1938

Your Directors submit herewith a Consolidated Balance Sheet showing the condition of the Company at the close of our fiscal year ending February 28th, 1938.

Adequate provision has been made for depreciation, taxes, contingencies and doubtful debts.

While there has been an improvement in construction work as compared with the previous year such betterment has fallen much below expectation and as compared with the increased activity in other major industries, statistics evidence that construction has lagged behind and is much below normalcy, due no doubt to some extent to the high rate of taxation on real property and the possibility of additional burdens being imposed.

During the fiscal year your Company redeemed by call and purchase 6,737 shares of Preferred stock. The par value of these shares together with that of 660 shares previously purchased is shown on the balance sheet as a capital surplus to conform with the requirements of the Dominion Companies Act.

Despite the cash outlay of \$70,064.80 for redemption of Preferred stock and the Government tax thereon you will note that, due to increased business earnings and to income from investments, our liquid position shows an improvement over the previous year and that there is a slight addition to our earned surplus after provision of the requisite amount for capital surplus.

Yours faithfully, HENRY J. GROSS,

PRESIDENT.

MONTREAL, May 14th, 1938.
