# THE BANK OF TORONTO

The year has been one of increased activity, largely owing to the abundant harvest of 1915, and the extent to which Canada has been engaged in the manufacture of munitions and other war supplies.

The Head Office and branches of the Bank have been regularly inspected by the Inspection Staff, and at the Head Office the usual inspection of cash and securities has been made.

Mr. G. T. Clarkson, C.A., the auditor appointed by the Shareholders, has made the usual examinations at the principal offices of the Bank, and his report is appended to the General Statement presented herewith. Mr. Clarkson's name will be submitted to the Shareholders at the Annual Meeting for re-appointment as Auditor.

Branches of the Bank have been opened at Chaplin, Sask., and Sibbald, Alta.

It is with the deepest regret that your Directors record the loss sustained by the Bank through the death of their late President, Mr. Duncan Coulson, which took place on February 19th last. His connection with the Bank extended over 59 years, during which time he served the Bank with great ability and unwavering devotion to its best interests.

Mr. W. G. Gooderham was elected to succeed him as President, and the vacancy on the Board was filled by the election of Mr. Archibald H. Campbell, who has for many years been a Shareholder of the Bank.

All of which is respectfully submitted.

W. G. GOODERHAM,

*President.*

## AUDITOR'S REPORT TO THE SHAREHOLDERS.

To the Shareholders of The Bank of Toronto:

I have compared the above Balance Sheet with the books and accounts at the chief office of The Bank of Toronto, and with certified returns received from its branches, and after checking the cash and verifying the securities at the chief office and certain of the principal branches on November 30th, 1916, I certify that in my opinion such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs according to the best of my information, the explanations given to me, and as shown by the books of the Bank. In addition to the examination mentioned, the cash and securities at the chief office and certain of the principal branches were checked and verified by me during the year, and found to be in accord with the books of the Bank. All information and explanations required have been given to me, and all transactions of the Bank which have come under my notice have, in my opinion, been within the powers of the Bank.

TORONTO, December 13th, 1916.

Chartered Accountant.

# THE BANK OF TORONTO

After the reading of the Report, the PRESIDENT addressed the meeting as follows:

GENTLEMEN:—I desire to add a few words to the Report which has just been presented before moving its adoption.

The outstanding features of the year, from a banking standpoint, so far as Canada is concerned, have been the beneficial effects of the abundant harvest of 1915, the unparalleled increase in exports, and the response made by the Canadian banks and people in subscriptions to war loan bonds issued by the Government of the Dominion of Canada and in loans made to the Imperial Government through the Imperial Munitions Board.

The trade returns furnished by the Statistics Department at Ottawa present the following summary of exports for the twelve months ending 30th November, 1916, and a comparison with the corresponding period of 1915 gives changes as herein noted:

|                       |               |                             |
|-----------------------|---------------|-----------------------------|
| Minerals.....         | \$78,457,189. | An increase of \$18,484,292 |
| Fisheries.....        | 23,786,818.   | " 2,943,954                 |
| Forest.....           | 54,515,579.   | " 5,590,349                 |
| Animal Products....   | 114,458,052.  | " 21,073,459                |
| Agricultural Products | 366,781,913.  | " 173,238,202               |
| Manufactures.....     | 407,026,574.  | " 269,323,725               |
| Miscellaneous.....    | 7,814,506.    | " 3,934,598                 |

The total merchandise exports for the year being \$1,073,505,600, against \$598,741,906, an increase of \$474,763,694. Merchandise imports for the same period were \$744,403,345, an increase of \$309,153,379.

The total foreign trade figures (excluding coin and bullion) were \$1,817,908,945, an increase of \$783,917,073.

These figures show a most favorable trade balance, and in a recent address by the Minister of Finance he stated that when the Government's fiscal year closed he estimated that the trade balance in Canada's favor would be \$500,000,000.

The duty paid on imported goods shows an increase of \$48,540,576, and will enable the Government to pay that amount of our war expenditure out of current revenue.

The increase of \$173,238,202 in agricultural products exported is evidence of the value of the superabundant crop of 1915, and has been one of the most important factors in our prosperity. Railroads and transportation companies have had steady and continuous freight traffic throughout the entire season, and the shipment of last year's crop had not ceased when the new crop began to be moved.

With the products of our farms debts have been paid, capital has been accumulated, bank deposits have increased, and trade stimulated.

The increase in the export of manufactures of \$269,323,725 is also indicative of the extent to which our manufacturers have, by the aid of the Banks, been enabled to increase their output. This increase has no doubt been largely in war materials and equipment for soldiers in the camps and on foreign service.

The number of factories all over this country that have been adapted for production of war materials has steadily grown, and an increasing number of workers in steel, brass, copper, and operatives in woolens, textiles, clothing, in shoe factories and other establishments, has been steadily employed in turning out goods in large volume.

# THE BANK OF TORONTO

The figures given above relate only to our foreign trade, and do not include the volume of our domestic trade, which has necessarily been beneficially affected by this increased volume. This extraordinary increase in our trade sufficiently accounts for the prosperity which our country has enjoyed during the past year.

Our report of last year referred to the issue by the Dominion of Canada of a loan for \$100,000,000. During this year another amount of \$100,000,000 15 year bonds was offered to the Canadian public, in which the Banks were underwriters to the extent of \$50,000,000. The subscriptions to this latter issue were sufficient to take up the entire loan without recourse to the Banks' subscriptions.

Loans to the Dominion Government and to the Imperial Munitions Board have been made by the Banks during the past year to the extent of \$125,000,000, and further loans amounting to \$100,000,000 have been arranged for, and advances are being made on account of these.

It is natural to ask how the Banks have been able to render assistance to the Governments to the extent we have done and at the same time continue to give mercantile interests the loans they require.

In the first instance we were aided by lessened demands from the mercantile and manufacturing interests. The shock of the war caused everyone to lessen commitments, new enterprises involving amounts of fixed capital were halted, and expenditures on large Government works were curtailed and gradually lessened. We also had not realized the extent to which former years of prosperity had provided surplus capital that could be drawn upon, and the abundant harvest of 1915 gave us a large addition to our available resources. War munitions and war supplies contracts on a large scale, spread over a great extent of country, have been profitable, the capital employed has been turned over quickly and the profits from these operations have provided a portion of the war loan funds. The savings of our people under ordinary conditions now amount yearly to a large sum, and this yearly increase is steadily growing.

The Banks have for many years past been doing a good work in educating the people to save money. Our wide-spread system of branch Banks has brought a safe place for the people's savings easily accessible to all. Banks are willing to open an account if a deposit of One Dollar is made, and an account once opened experience has proved that the possession of a bank-book creates a desire to see the amount of the credit balance grow.

The part which Banks have taken in encouraging saving in the past must not be lost sight of, and in considering any plans for promoting thrift and placing its benefits at the disposal of the Government these plans should not enter upon competition which would lessen the power of Banks of being a medium through which the Government can receive effective and continuous support in their financing.

The opportunity which is being given by the Government to purchase their Bonds at such a remunerative interest return as 5% is one that should appeal to every intelligent citizen, and should prevent the wasting of savings through indulging in purchases of unsound but speciously attractive securities so frequently offered.

As to the future, we have all learned that it is not wise to indulge in predictions. Unfortunately our harvest this year has not been up to the average in either quantity or quality. The amount of wheat available for export will be small as compared with last year, and while the high prices now prevailing will help to swell the amount of money received, yet the distribution of this money will not be so wide-spread nor so general.

# THE BANK OF TORONTO

We will probably have full and continuous use for all our available funds, as there is little doubt that the Dominion and Imperial Governments will require from time to time all the surplus funds we can lend them. Our duty lies in doing all in our power to aid them in their great task, and this duty is immediately and constantly before us.

But the necessity for fostering and increasing the productive capacity of this country is equally an important duty. To the extent we aid in promoting the prosperity of the individual and corporate interests in this Dominion, we enable these to accumulate fresh capital that may in turn be used for Governmental purposes. This is the difficult task that lies before bankers in the coming year—to so maintain the proper proportion between business necessities and Government needs as to fully do duty to both. To assist in this the co-operation of every one in the country is required. Increased savings placed at the disposal of the Banks will be used by them to further these ends, and in no other way can the Banks have the power to render assistance. They cannot create money, they can only administer what is entrusted to them.

It will probably be wise for us to consider that we are possibly at the height of our prosperity for the time being. The length of time that may elapse before peace is declared is of course uncertain, and we cannot then look for a continuance of the favorable conditions that have been created by reason of our abnormal production of war materials and the excessively high prices for all our products.

To the extent that advantage is taken of the present situation to pay off indebtedness, and to accumulate capital, we are doing wisely, but when the time comes that work will be less abundant, and trade, wages, and the prices of products and material return to a more normal state, hardship will be wrought, unless provision is made now for the changes that will follow after the war has closed.

The Report refers to the death of our late President, Mr. Coulson. It is not given to many men to render any institution such long and signally successful years of service as Mr. Coulson gave to this Bank. Entering as a clerk in 1857, he rose step by step and in each new post became more and more useful. As Manager of Cobourg and Montreal branches he displayed sound judgment and great force of character, and in 1877 he assumed the position of General Manager, from which time he became the most influential factor in the Bank's success. He was elected President in 1911, and continued to occupy that position until the time of his death. The following brief statement, showing the progress of the Bank as contrasted in the first statement presented by Mr. Coulson as General Manager, and in the statement submitted to you to-day, will present the results of his work more strikingly than any words that I can use :

|                            | 1877           | 1916           |

| Rest and Reserved Funds... | 1,001,867.91   | 6,507,989.87   |

| Loans and Investments..... | 5,517,163.51   | 53,760,094.68  |
| Assets.....                | 6,419,938.01   | 73,114,546.9   |

Before moving the adoption of the Report, I will ask the General Manager to deal more particularly with the figures of the General Statement presented to you, and to give such explanations concerning them as you may desire.

# THE BANK OF TORONTO

The GENERAL MANAGER then made the following remarks :

In my remarks last year I expressed the opinion that there would better employment for our reserve funds throughout the year, and this has proved to be the case. In every department of the Bank there has been decided increase.

The most notable change is in deposits by the public, which have increased by \$6,123,740.48, notwithstanding that our depositors have been large contributors to the war loans issued by the Dominion Government. This large gain is chiefly due to the abundant crops of 1915, and to the abnormal prices obtained for the exportable surplus of natural and manufactured products.

The circulation of our own notes shows an increase over last year, statement of \$194,429, but our average circulation throughout the year showed an increase of nearly 15%, or an average of \$627,000 more.

The average circulation of all the banks in Canada increased over \$20,000,000, and may be accounted for by higher wages and the increased price of commodities, as well as by the large amounts used in the military camps throughout the country.

In actual cash, in specie and Dominion notes, we held \$10,420,236.92 against \$8,651,035.85 a year ago, an increase of \$1,769,201.07, and immediately available assets we held \$26,957,700.96 as against \$20,653,994.8, an increase of \$6,303,706.14. The total represents 43 1/4% of our total liabilities.

If to these are added advances on produce and grain in store and in transit, which are quickly realizable, the percentage would then be over 60% of total liabilities to the public.

Our current loans have not greatly changed in amount, although they have to some extent changed in character. Advances to manufacturers of munitions and war supplies appear to a larger extent than in last year's statement.

The amount of our loans is \$42,226,387.85 as against \$42,087,385.77.

Following our invariable practice, our loans and securities have been very carefully scrutinized, and the figures represent conservative valuations after full provision has been made for bad and doubtful debts and for contingencies.

We have increased our holdings of high-class securities from \$3,379,676.57 to \$8,172,429.87. This increase of \$4,792,753.30 is very largely in Government bonds. You will notice that our gain in deposits has been largely used in this way. We have considered it our duty and privilege to assist our own Government and the Imperial Munitions Board, and in doing so we have been able at the same time to give our mercantile customers their usual requirements.

The item of Bank Premises has increased \$192,782.67, almost entirely expended on our new office building in Montreal, where we now have a commodious, well-equipped office, splendidly situated, and with an increasing and valuable business connection.

You will notice that we have paid war taxes on circulation amounting to \$49,096.81. Our subscriptions to the Patriotic Fund and other worthy objects connected with the war were \$36,250, a total of \$85,346.81. After providing for these the net profits show a gain of \$67,879.58 over the previous year, which we trust you will consider satisfactory.
