AUDITOR'S REPORT TO THE SHAREHOLDERS.

To the Shareholders of The Bank of Toronto:

I have compared the above Balance Sheet with the books and accounts at the chief office of The Bank of Toronto, and certified returns received from its branches, and after checking the cash and verifying the securities at the chief office and certain of the principal branches on November 30th, 1918, certify that in my opinion such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs according to the best of my information, the explanations given to me, and as shown by the books of the Bank. In addition to the examination mentioned, the cash and securities at the chief office and certain of the principal branches were checked and verified by me during the year, and found to be in accord with the books of the Bank. All information and explanations required have been given to me, and all transactions of the Bank which have come under my notice have, in my opinion, been within the powers of the Bank.

## THE BANK OF TORONTO

The PRESIDENT after the reading of the Report addressed the meeting as follows:—

GENTLEMEN:—In presenting the Report of the Directors for adoption by you, I desire to bring before you some of the events of the year that have had a bearing upon the financial situation, and that of necessity have affected the operations of the Bank.

For the past four years the great war in which Canada has shared has controlled our actions and been ever present in our thoughts. At our annual meetings we have been obliged to refer to its influence upon all our national activities and to the way in which, as a banking institution, we have been affected by it. It has not been possible at any previous meeting to speak with any confidence as to when the end of the war would come, but we may now look hopefully forward to a time in the near future when the present armistice will be followed by a just and satisfactory peace. The business anxieties of these years have been great, but these have been but a light burden compared with the personal and family anxieties that have rested so heavily upon all classes of our Dominion.

At to-day's meeting, in the fifth year of the war, we can come together with thankful hearts in the confident hope that the great end for which we have been striving has been accomplished. The effect upon our national life and character has been to make us as a people more loyal and devoted to the King, the Empire, and our own Dominion, and we appreciate the blessings of peace as we have never before. We can be proud of the record our country has made, and the name and place she now holds amongst the nations of the world, owing to the splendid valor of the men of our army, their uncomplaining and steadfast heroism, and to the fact that they proved worthy to stand side by side with the old and famous regiments of the Motherland, and with them have shared in the honors that have been won in this war.

Neither should we at this time forget the work in which our women have taken so large a part, actively as nurses, V.A.D., and munition workers, and also the larger army of those at home who have given themselves to all that is embraced in Red Cross and kindred work.

But now, speaking of that which is of a financial character and therefore has a close relation to banking matters, I may refer to the astonishing revelation of the willingness and power of the people of our country to furnish the Government with the sums necessary to carry the war to a triumphant conclusion. Each appeal that has been made has shown a steady increase in the amounts that have been subscribed, and when we met last year we referred to the Victory Loan for which subscriptions amounting to \$418,000,000, had been received from 800,000 subscribers. Since then a new record has been made with the last Victory Loan, when in response to a request for not less than \$300,000,000, subscriptions of over \$680,000,000, were received from over 1,000,000 subscribers. It is impossible to place too great emphasis upon the beneficial effects the expenditure of the monies represented by these loans have had upon the business of the country. They have enabled the Government to make expenditures on a large scale, both for themselves and for the Imperial Government. All sections of the Dominion have benefited—manufacturers of war material and army supplies in Ontario and Quebec, the shipbuilding industry in British Columbia and the Maritime Provinces, the producers of cheese, eggs and dairy products, largely from Ontario, Quebec and Prince Edward Island, of beef and pork from all the Provinces, and the growers of wheat and other grains on the prairie lands of the West. Our exports have in

## THE BANK OF TORONTO

consequence been very large and remunerative and employment has been given to all the available labor in the country at abnormally high wages.

The trade figures for the twelve months ending with November show total imports of \$895,38,297, and exports of \$1,270,145,762, the total foreign trade being \$2,165,384,059. While these figures are \$375,000,000, less than in the preceding twelve months, yet they represent an enormous advance upon pre-war figures. Our trade imports from the United Kingdom were \$71,006,779, and our exports \$638,536,280,—from the United States we imported \$731,876,455, and exported to them \$432,292,450. These figures show a large balance due to us from the United Kingdom, but this is offset in part by the payments made by the British Government on our behalf in connection with our army abroad.

I have thus far confined my remarks to matters relating to our foreign trade, but domestic and internal trade has also been very active and unusually great, both in amount and importance. Our harvest, grazing lands, mines, fisheries and forests have all yielded large returns. The wheat harvest was not so uniformly productive as we had hoped, some sections having been affected by drought and frost, but in the aggregate the yield at the high prices prevailing brought good returns. It is gratifying also to observe that an increasing number of Western farmers are going into mixed farming and the number of cattle, sheep and horses is growing, with the result that the farmers are becoming less dependent upon their wheat fields as their sole reliance. Speaking generally, there has been individual prosperity amongst farmers and a very substantial amount of wealth has been added to the country's resources.

Referring now to the report of our own institution, you will observe that larger profits have been earned than last year. I will not go into the figures of our statement, as the changes in them will be more fully dealt with by the General Manager. I will only say that the Bank has increased its resources, having gained largely in deposits, and we have given substantial assistance to the Government, as well as to the Imperial Government, through them, and at the same time have extended ample credit to our commercial customers.

These years of war have, owing to their unusual character, been full of unexpected problems, but it speaks well for our banking system that, in spite of all the demands upon it, the banks have been able to render such effective service and are at the present time in a stronger position than ever before.

As to the future, it is never wise to make confident predictions. When the war burst upon us we could only meet the situation as it developed from day to day, for we could not foresee what the effects would be. The most sanguine never contemplated the possibility of an increase in growth and apparent prosperity such as has come to our Dominion, and now, when we hope that the end of the war has really come, we have to face the changes that are certain to follow. Such a large proportion of our trade has been connected with war that the sudden cessation of production of war material, and all that this will involve, cannot be immediately estimated.

It is inevitable that we should pass through a period of readjustment, in turning from the war period to one of peace and reconstruction. How long this period of readjustment will take depends on many factors that cannot at present be estimated. The Government has wisely taken steps to aid in a movement to secure a share in the work of rebuilding the devastated portions of Belgium and France. In their shipbuilding program, and other plans for work of a national character that will be productive, they are endeavoring to make available the country's resources and give employment to all who are disposed to work.

## THE BANK OF TORONTO

We have to face a heavy burden of debt, with its interest charges. It is fortunate that so much of this indebtedness is due to our own people, but even so, the burden still exists and can only be met by direct or indirect taxation. When our population has increased, when our great potential resources have been actively developed, and exports have grown naturally to a volume that will yield a large surplus profit to the Country's revenue, the burden will be comfortably borne, but until that time shall have come we must be prepared to adapt ourselves to changed conditions. These past years have brought with them inflation in prices of all of the necessities of life, of the materials that are required in every process of manufacture, of the cost of labor employed in all departments of our industrial life, and a readjustment must be made. We may hope that it will come gradually and be accompanied with the minimum of disturbance, but in view of the possibilities we feel that we must be moderate in our expectations. We have, therefore, taken these factors into consideration when valuing the Bank's assets and preparing our statement.

The Bank has throughout the year maintained a strong position, and has increased its holdings of Cash and immediately available securities, and, in view of these facts, we trust that the profits of the year will be regarded by you as satisfactory.

We will also ask you to confirm the action of the Directors in making the appropriations that are set out in the Profit and Loss Statement for sundry patriotic and special funds.

I will now ask the General Manager to address you with more particular reference to the principal items in our statement.

THE GENERAL MANAGER then made the following remarks:—

The statement which we submit to-day for your consideration and approval reflects in some measure the general prosperity of the country in which we have fully shared during the year under review.

Deposits show the largest increase which we have ever recorded in any one year, the gain being \$15,131,977, equal to 24%. The increase in the Canadian deposits of all the banks during the same period was \$374,955,745, equal to 22%. We cannot say, however, that this gain will be fully maintained. The figures include some large items of a temporary character. The subscriptions, too, of our customers to the last Victory Loan amount to a very large sum, which will be gradually withdrawn as payments are made and availed of by the Government.

It has been the experience heretofore that subscriptions to Government issues have been replaced, in fact more than replaced, by new deposits, but we have now to face new conditions. With the cessation of munitions contracts, and the more or less rapid withdrawal of Governments as purchasers of food supplies, the money value of our foreign trade may be expected to decline, while the requirements of our Government will continue for some time to be very large. These conditions may have the effect of retarding the rebuilding of deposits. However, we are happy and thankful that the war is over, and we are as well prepared as it is possible to be for the readjustment of business to a peace basis.

Our circulation has not materially changed from a year ago, standing at \$7,270,615. The excess over our paid-up capital, \$2,276,615, is covered by a deposit of \$2,500,000 in the Central Gold Reserves.

On the other side of the statement you will notice that our holdings of gold and silver coin, Dominion of Canada notes (legal tenders) together with

## THE BANK OF TORONTO

the deposit in the Central Gold Reserves previously referred to, amount to \$13,922,182.91, an increase of \$1,339,830 over a year ago. Other cash items and balances, including call and short loans secured, and securities readily convertible, bring our immediately available assets up to \$47,018,174.02, equal to 53% of our liabilities to the public. This total includes short-date advances to the Dominion Government and to the Imperial Government, amounting in all to \$19,880,000. The remainder of our investments, amounting to \$2,603,581.66, are also of the highest class, and are taken into the statement at or below present market value.

Our commercial loans and discounts now stand at \$49,168,819.03, an increase for the year of \$6,855,043. These advances, which are of a very diversified character, have been subjected to a thorough scrutiny, and are conservatively valued.

Our total resources are now slightly over \$100,000,000, an increase of over \$38,000,000, since November, 1914.

Banking figures have increased very rapidly during the past few years. This expansion may continue for a time, but, as we have already remarked in connection with the gain in our deposits, we are prepared to see a moderate decline during the next two or three years. There must be a readjustment downward of prices for commodities and services, and, it is to be hoped, of production upwards, until we reach a stable level on which all classes of business can proceed in security and comfort. That level will be found only in time, and by natural processes, but violent changes can be avoided, and, we believe, will be avoided through the enterprise and fore-thought of our Government and their co-operation with the business and financial interests of the country.

The profits are \$844,402.16, an increase for the year of \$41,481.67. Net earnings on banking capital are not entirely in keeping with the expansion in resources, but it must be remembered that costs of operation have greatly increased during the past few years, while rates of interest and our charges for banking services generally have remained practically stationary. Our increased volume, however, has enabled us to earn our dividends very comfortably, to give liberal allowances and bonuses to the staff, and to write \$110,884.75 off our Bank premises account, at the same time making what we feel is adequate provision for the hazards of the future. We have also added \$70,317.41 to our Profit and Loss account carried forward which now amounts to \$625,623.94.

I feel that special reference this year is due to the staff. The drain upon us for military service had reduced the number of efficient officers to the minimum when the influenza epidemic swept over us. Practically every branch was seriously affected, but the business of the Bank, together with an enormous amount of responsible work in connection with the last Victory Loan, has been carried on by those who remained in a way that deserves our sincere appreciation. It is a pleasure to acknowledge the industry and loyalty of all ranks during a very trying time.

Moved by Mr. W. G. GOODERHAM, seconded by Mr. JOSEPH HENDERSON, and

*Resolved*—That the Report and Statement now presented be adopted, and that printed copies thereof be distributed to the Stockholders.
