

THE  
BANK OF TORONTO.  
TORONTO

THE BANK OF TORONTO, TORONTO

# To Our Shareholders

**D****URING** the past year substantial progress has been shown in the business and economic life of the Dominion which should result in an increased demand for banking accommodation during the coming year. The Annual Statement submitted herewith indicates the exceptionally favourable position your Bank is in to take on new business and finance the requirements of its customers.

Our shareholders can very materially increase the earning power of the Bank by directing the accounts of their friends and connections to its doors. As the Bank progresses the shareholder's investment will increase accordingly.

Your co-operation in this connection will be greatly appreciated by the Directors and Officers of the Bank.

**Harvey B. Henwood,**  
*General Manager*

## PROCEEDINGS OF THE

## EIGHTY-FIRST ANNUAL GENERAL MEETING

HELD ON

WEDNESDAY, 20<sup>TH</sup> JANUARY, 1937

The Annual General Meeting of the Stockholders of The Bank (being the Eighty-First since the commencement of business) was held, pursuant to the terms of the Charter, at the Banking House of the Institution, corner King and Bay Streets, Toronto, on Wednesday, 20<sup>th</sup> January, 1937.

Moved by Mr. PAUL J. MYLER, seconded by GEN. F. S. MEIGHEN, and

*Resolved—That* Mr. John R. Lamb be appointed Chairman of the Meeting and that Mr. F. H. Marsh be requested to act as Secretary.

*Carried*

Moved by Mr. J. D. WOODS, seconded by Mr. E. D. GOODERHAM, and

Resolved— That the Minutes of the last Annual Meeting be taken as read and approved.

*Carried*

Moved by Mr. AUBREY DAVIS, seconded by Mr. DONALD MACASKILL, and

*Resolved—That* Mr. W. B. Maclean and Mr. R. Pashby be appointed Scrutineers, and that after the ballot they report to the Chairman.

*Carried*

The Secretary then read the Annual Report as follows:—

The Directors of The Bank of Toronto beg to present their Report for the year ending 30<sup>th</sup> November, 1936, together with the Statement of the Bank's affairs and the results of the operations for the par.

### AUDITORS' REPORT TO THE SHAREHOLDERS

*To the Shareholders of The Bank of Toronto :*

We have examined the books and accounts of The Bank of Toronto at its Head Office and have been furnished with certified returns from the Branches, and report that the above statement of liabilities and assets as at the 30th November, 1936, is in accordance therewith, and in our opinion discloses the true condition of the Bank. We have verified the cash and the securities representing the Bank's investments held at the Head Office at the close of the Bank's fiscal year, and during the year we wanted the cash and examined the securities at certain of the important branches. We have received all the information and explanations we have required, and all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank.

## PRESIDENT'S ADDRESS

GENTLEMEN:

Our Annual Meeting this year takes place under somewhat brighter conditions than those of several years past. The outlook, also, is generally good, with the exception of the **ever-present** possibility of international complications, which would change the situation entirely.

We have had nearly **four** years of fairly consistent recovery, with a gradual **building-up** of confidence in the future. People were slow to realize that the corner had been really turned. Now that this stage has been passed, there is an inclination to indulge in speculative activity. In the past two years stock-market values have nearly doubled, part of the rise being purely in the expectation of future earnings. Meanwhile, over ten per cent. of our workers are unemployed, and some important phases of business, notably real estate and building, have so far remained inactive. Obviously we have not yet achieved the balanced all-around activity which is needed to provide real prosperity. It is therefore necessary that we leaven the favorable news and **rumours** of the day with some **thought** about what remains to be done.

International events, and particularly the recurring possibility of a major war, at first over the Ethiopian and later over the Spanish situation, were a cloud on business during the year and interfered with plans for expansion. The political and economic situation in the Old World can scarcely be said to be showing much, if any, improvement **even** now, and as a part of the British Empire we can hardly be so detached in our view as our powerful and independent neighbor to the **South**, whose lead in economic matters we have a tendency to follow. We, however, have tried to make the best of circumstances from day to day, and will continue to do so, but only as the **world** moves away **from** this constant threat of major wars, if this ever happens, will we feel the confidence and security so important to the development of our wide areas and great resources.

In the midst of this political **uncertainty** there has been some progress in trade relations. The total foreign trade of Canada increased from 1,378 millions in the twelve months ended November, **1935**, to 1,628 millions in the period ending a year later, **imports** rising from 562 millions to 634 millions, and exports from 816 millions to 994 millions. The specially large gain in the value of exports has been due, in part, to the using up of surplus stocks of some of the basic commodities, the resulting rise in the price of which has been of much benefit to Canada. While partly offset **by** the increase in imports, there remains the unusually large "favorable" balance of 360 millions for the past year. This is not far from a **normal** condition for Canada, in view of the heavy investment of outside capital in this country, the annual earnings on which must be covered by commodity ex-

# THE BANK OF TORONTO

---

ports unless the debt is to be further increased. In these days a narrow view is being taken of international credit, and this cannot be criticized in the light of recent events. Trade, consequently, is largely on the basis of barter, with a few leading currencies serving as media of exchange and for short-term credits.

Coupled with this improvement **in** our external trade, there has been expansion in domestic business. Growth in buying power is cumulative in its influence, and we have benefited from improvement in the three previous years. Crops **in 1936 suffered** severely **from** heat and drought in **parts** of Ontario and the prairies and in a **large** section **of the** United States. but the net result has been such a rise in prices as to increase the buying power of farmers **as** a whole in Canada

The lumber industry has come back strongly, providing employment and healthy activity in **many** communities. This has extended **to** news-print, some plants being at or near capacity, with the **pricesituation** nearing the point where advances may be made.

The mines continue **in** the forefront of development. New gold properties have widened our frontiers of settlement in several directions, while demand for base metals has recovered to levels which encourage production and exploration.

**In** manufacturing there has been widespread **recovery** due to accumulation of demand from both export and domestic sources.

Construction is practically the one industry which seriously lags behind the general recovery. There is perhaps little which can be profitably said with respect to the building industry. Houses are needed, but the industry cannot go ahead because it is not on an economic basis. Costs and carrying charges are too high. No doubt **an** absolute dearth of housing will, in time, bring about some readjustment. In the meantime, progress will probably be disappointing.

Looking around us at this **time, we** are inclined to ask ourselves what **are** the difficulties still in the way of full and sustained recovery? We would name them in the following order:—

1. **Our** heavy public debts **with** consequent onerous taxation;
2. The cost of Government, for which the wide extent of the areas within our borders is partly responsible;
3. A population relatively small in proportion to territory occupied.
4. Our annually recurring railway deficit.

We should name, also, trade barriers in the **form** of import duties, quotas, and depreciated currencies, which are still so considerable as to make it impossible for foreign trade to reach the level which is needed for a full measure of prosperity in Canada. These difficulties cannot be overcome in a month or a year, but with unity of purpose and strict economy in public expenditures we may look forward to gradual improvement.

# THE BANK OF TORONTO

---

As to the more distant future, we must expect reactions somewhat similar to those which have occurred in the past, but with shortages to be made up in so many lines we can reasonably look to a few years of comparative activity. Easing of trade barriers can help a lot in that direction. Another factor is the additional reserve of credit that has been made available through the reduction in the gold equivalent of the dollar. The significance of this is gradually becoming apparent in the rapid advance in commodity prices, accompanied by forward buying. It appears that from now on the real problem will be to keep activity within healthy and constructive channels, rather than have the movement dissipated in a boom based on artificial conditions.

Turning now to our own business of banking: If the Banks are not the first to feel the blight of a depression, they are certainly among the last to experience the benefits of recovery. Those of you who follow banking figures published each month through the Government, will have observed that commercial loans, which constitute the principal source of bank earnings, again show a decrease of **164** millions or **19%** for the year ending **30th** November last. Deposits by the public in Canada have increased by **139** millions, and securities are up by **179** millions to **1,316** millions, an increase of **836** millions since **1926**, and still rising. These figures cause us seriously to think, and to ask ourselves when and at what cost we may get back to a position where the proportion of our funds invested in this form is in more reasonable ratio to deposit liabilities.

Our own commercial advances are down **12** millions. This reduction is due almost entirely to smaller advances against grain, both to the Wheat Board and to the Trade against the current year's operations; in fact, our grain advances have not been so small for many years, but liquidation of the wheat carryover and the brisk demand for the **1936** crop are sound movements and are welcomed by the Banks, although in the meantime advances are very substantially reduced for ourselves as well as for other banks.

We are glad to see indications that the trend in commercial loans is changing. In the later months of **1936** substantial increases were reported, and we fully expect to see further gradual increases during the current year, reflecting forward buying of raw materials and higher commodity prices.

You will see that our profits for the year have been satisfactory. I will not allude further to the figures, as the General Manager will deal with that subject.

I do wish to refer to the load of Dominion, Provincial and Municipal taxes borne by the banks, which in our case amounted to \$8.57 for every share of stock outstanding, or nearly as much as the dividend payments.

Our profits, after depreciation of bank premises, amounted to **6.39** per cent. on shareholders' total equity, which can hardly be regarded as excessive for a common stock carrying a double liability.

# THE BANK OF TORONTO

---

Banks do not object to paying their share of taxes, but we are subject to special levies which cannot be justified except on the ground that bank investments **are** more profitable than the average earned by corporations engaged in other classes of business. Actually, the **contrary is the case**.

The number of our **shareholders** on the **15th** of November last was **1,339**, and the average holding slightly less than 45 shares. We cannot, therefore, be regarded as an organization of bigcapitalists, but rather as one in which capital is brought together from persons of moderate means, for purposes of administration.

Before concluding I have to refer, with great regret, to the passing **during** the **year** of Mr. Thomas F. How, formerly General **Manager** and a Director of this Bank. Mr. **HOW**'s connection **with** the **institution** **extended** over 60 years, and he was at all times a competent and faithful officer.

We have also to note the resignation from the Board of Mr. A. H. Campbell whose condition of health recently has been unsatisfactory, and he desired, in consequence, to be relieved of the responsibility of office. Mr. **Campbell** served on the Board for over **20** years, and we shall greatly miss his presence at our meetings.

I take the **opportunity**, also, of **introducing** a recent appointee to **our** Board in the **person** of Mr. Harry J. **Carmichael**, vice-president and General Manager of the General Motors of Canada. Limited. who was **recently** elected to replace the late Mr. Thomas F. How. We have had an acquaintance with Mr. **Carmichael** extending over many years. He is a first-class executive, and we are confident will prove an important acquisition to the Board.

# THE BANK OF TORONTO

---

## GENERAL MANAGER'S ADDRESS

MR. CHAIRMAN AND GENTLEMEN:

I have the honour to place before you the eighty-first annual balance sheet of the Bank covering our operations for the year ending November 30th last.

### PROFITS:

Our net profits for the year—\$1,141,810.74, are \$335,418.87 over the amount reported in our annual statement of the previous year. While it has again been necessary to make appropriations for possible losses on loans and for contingencies, on the other hand we have been fortunate in making recoveries of accounts previously written off and as a result of our past policy of creating reserves we were able to charge a portion of the appropriations referred to against such reserves. It is of course, impossible to forecast the future because Canadian problems are still difficult but we are hopeful that the earnings of the Bank in the immediate future will not be subjected to such heavy charges for losses as has been the experience during the last five years of severe depression.

After writing off from these earnings \$100,000. against our bank premises and paying the annual dividend of \$600,000., there remains a balance of \$441,810.74 to add to our previous balance in profit and loss account, bringing the total up to \$1,285,375.93 which is carried forward into the new year. The principal changes in our balance sheet are as follows:

### TOTAL ASSETS:

During the year our total assets have increased from \$126,918,925. to \$135,907,303.—a difference of \$8,988,378., practically equivalent to our gain in deposits. Of this total, \$92,435,472. or 77.37 per cent. of our liabilities to the public, consist of cash or of assets readily convertible into cash.

### LOANS AND DISCOUNTS:

\$37,554,931., are down for the year \$12,568,386., mainly accounted for by the reduction of western grain loans coincident with the liquidation of 140 million bushels of our exportable wheat surplus for the year ending November 30, 1936. This heavy reduction in loans and discounts has necessitated an increasing use of our funds in security investments, which at the end of the year amounted to \$61,216,737., an increase for the year of \$13,274,553., a very large percentage of which consists of government and municipal securities of short-date maturity. During the later months of the year there was a gradual increase in the demand for commercial funds, which we believe will continue, and we are hopeful that during 1937 we shall see a reduction in the large proportion of our funds invested in securities.

# THE BANK OF TORONTO

---

## BANK PREMISES:

There is practically no change in **the** position of **our** bank premises account, the write-off of **\$100,000.** being sufficient to take care of **such** expenditures as we have made during the year.

## NOTES IN CIRCULATION:

**\$4,237,915.,** show a decrease of **\$1,042,000.** during the year in conformity with **the** legislation which again reduces **the** limit of our notes which we may circulate this year to **\$5,400,000.**

## DEPOSITS:

**\$110,043,103.,** have increased during the year by **\$8,779,623.,** a somewhat larger increase than we had a year ago. We have found it extremely difficult to use these funds with **profit** to **ourselves.** It is however, one of **the** main functions of **banking** to **give the** bank's protection to the funds of depositors, and we are always glad to do this.

## BRANCHES:

At the end of our year we were operating **174** branches, one branch having been opened and four closed during the year. Every branch of the Bank has been inspected by our inspection staff during **the** year, and we have had **the** usual audit of cash, securities and loans at our main offices **in** Toronto, Montreal, Winnipeg and Vancouver by our shareholders' auditors.

## THE PUBLIC AND THE BANKS:

The recent appointment of Mr. Vernon Knowles as public relations adviser by the Canadian Bankers' Association will we believe, in time help to bring about on the part of the **public** a clearer and better understanding of **the** services which the banks are endeavouring to render.

I fear bankers have in **the** past assumed that the public, like themselves, were familiar with the functions of banking and have failed to give sufficient information on the subject and the limitations imposed on **the** banks by the provisions of the Canadian Bank Act under **which** we operate.

## GENERAL BUSINESS CONDITIONS:

There **was** a definite improvement **in** business generally during the year **1936.** We are **of the** opinion that **this** improvement will continue during **1937,** and it is our hope and expectation that when the year ends, **the** Canadian picture generally — **both** from a government and business point of view, will have made some **further** advance towards the more favourable condition which is so necessary to our continued prosperity.

# THE BANK OF TORONTO

---

Moved by Mr. JOHN R. LAMB, seconded by COL. W. I. GEAR, and

*Resolved*—That the Report of the Directors and Statement which has now been presented, be adopted and printed copies thereof be sent to the **Stockholders** of the Bank.

**Carried**

Moved by COL. K. R. MARSHALL, seconded by COL. G. G. MITCHELL, and

*Resolved*—That Mr. D. MCK. MCCLELLAND, F.C.A., of Price, Waterhouse & Company, and Mr. W. D. GLENDINNING, C.A., of Glendinning, Gray & Roberts be appointed Auditors of this Bank to hold office for the ensuing year, and that their remuneration be fixed at a sum not to exceed \$10,000.

**Carried**

Moved by Mr. ROY L. WARREN, seconded by COL. H. D. L. GORDON, and

*Resolved*—That the Scrutineers cast one ballot for the election of Directors of The Bank of Toronto.

**Carried**

## REPORT OF THE SCRUTINEERS

We, the undersigned Scrutineers, hereby declare that the following named gentlemen were to-day elected as Directors of The Bank of Toronto:—

JOHN R. LAMB  
PAUL J. MYLER  
COL. WILLIAM I. GEAR  
FREDERICK K. MORROW
