

THE
BANK OF TORONTO,
TORONTO

EIGHTY-SECOND
LIBRARIES
ANNUAL REPORT
NOV. 30, 1937

McGILL UNIVERSITY

THE BANK OF TORONTO, TORONTO

To Our Shareholders

WHILE the latter part of 1937 did not live up to the promise of the **earlier** months of the year, chiefly due to unsettled conditions outside of the Dominion, your bank is again able to submit a very satisfactory report. It has fully maintained its position in assisting the business of the country, as indicated by the increase of over 12% in commercial loans.

You can confidently recommend your bank to all those who desire sound co-operation in the development of their business interests.

The management will greatly appreciate your assistance in directing new business to the bank.

PROCEEDINGS OF THE

EIGHTY-SECOND ANNUAL GENERAL MEETING

HELD ON

WEDNESDAY. 19TH JANUARY. 1938

The Annual General Meeting of the Stockholders of The Bank (being the Eighty-Second since the commencement of business) was held, pursuant to the terms of the Charter, at the Banking House of the institution, corner King and Bay Streets, Toronto, on Wednesday, 19th January, 1938.

Moved by GEN. F. S. **MEIGHEN**, seconded by Mr. F. K. **MORROW**,
and

Resolved—That Mr. John R. Lamb be appointed Chairman of the Meeting and that Mr. F. H. Marsh be requested to act as Secretary.

Carried

Moved by Mr. J. D. **WOODS**, seconded by Mr. E. D. **GOODERHAM**,
and

Resolved—That the Minutes of the **last** Annual Meeting be taken as read and approved.

Carried

Moved by Mr. **AUBREY DAVIS**, seconded by Mr. **DONALD MACASKILL**,
and

Resolved—That Mr. W. M. Hargraft and Mr. R. Pashby be appointed **Scrutineers**, and that **after** the ballot they report to the Chairman.

Carried

The Secretary then read the Annual Report as follows:—

The Directors of The Bank of Toronto beg to present their Report for the year ending 30th November, 1937, together with the Statement of the Bank's **affairs** and the results of the operations for the **year**.

AUDITORS' REPORT TO THE SHAREHOLDERS

To the Shareholders of The Bank of Toronto :

We have examined the books and accounts of The Bank of Toronto at its Head Office and have been furnished with certified returns from the Branches, and report that the above statement of liabilities and assets as at the 30th November, 1937, is in accordance therewith, and in our opinion discloses the true condition of the Bank. We have verified the cash and the securities representing the Bank's investments held at the Head Office at the close of the Bank's fiscal year, and during the year we counted the cash and examined the securities at certain of the important branches. We have received all the information and explanations we have required, and all transactions of the Bank which have come under our notice have, in our opinion, been within the powers of the Bank.

D. McK. McCLELLAND, F.C.A.

TORONTO, 21st December, 1937

THE BANK OF TORONTO

PRESIDENT'S ADDRESS

GENTLEMEN :

Our operations for the twelve months ending 30th November last are reflected in the statements which have been placed in your hands. The figures speak for themselves and indicate a fairly good year.

Moderate gains appear in all departments. An increase of \$4,000,000. odd in deposits has been offset by an almost identical increase in current loans.

Securities show little change in totals.

Profits have been maintained at about the same level as a year ago. Including recoveries and after payment of all charges and expenses, and making full provision for bad and doubtful debts and reasonable contingencies, they were adequate to permit payment of our usual dividends at the rate of 10% per annum and leave the sum of \$356,372.04 to be carried forward to the next year. At this point I might again observe that a dividend of 10% on the par value (\$100) of our shares means only 3.60% on the shareholder's funds employed in the business, made up of Capital, Rest and Profit and Loss accounts.

The Paid-up Capital of \$6,000,000. actually cost the original subscribers \$10,074,836., an average of \$167.90 per share. Not in recent years has any new stock been issued at less than \$200. per share. The remainder of the Rest and Profit and Loss Accounts is represented by accumulated earnings over a period of 82 years, or an average annual rate of only \$2.95 per share, which has been retained for the purpose of adding to the financial strength and stability of the institution and in keeping with the growth of its business and responsibilities. A return of 3.60% per annum is scarcely more than that obtainable on Government bonds, and less than the average on the best class of industrial securities although bank shares still carry a double liability equal to 90% of par value. Yet banks are popularly supposed to be rich and making large profits for plutocratic proprietors. Our shareholders are for the most part people of quite moderate means whose holdings show an average of less than 17 shares. The notion that the banks of the country are owned and controlled by a few millionaires who are naturally hostile to the masses and purely selfish in their objectives—a notion sedulously cultivated by radicals and demagogues with a view to promote and axes of their own to grind, and who thrive on social agitation and unrest—has been repeatedly exploded, but still persists and is responsible for much of the trouble and loss to which banking is exposed in these times. A notable example exists in the Province of Alberta. The attack on the banks by Government authorities in that Province is entirely incomprehensible, unless we assume complete misunderstanding on the part of the Government of

THE BANK OF TORONTO

the simple facts. Their recent tax legislation, now before the Courts on the question of validity, is quite unworkable. The proposed levies upon our own institutions for 1937 would amount to \$143,553., although our entire profits in Alberta for that year were but a small fraction of this amount, without any allowance for Bad Debts and Depreciation, which were taken care of from profits made elsewhere. It may be said that 1937 was not a representative year, and that is true, but in the twenty-nine years during which we have operated in Alberta, and through the ~~most~~ **prosperous** times, our profits in that Province **would** not have provided for this scale of taxation.

Passing to matters of general interest and looking back over the year we would say that 1937 ranks with its three predecessors, as one of recovery, because most lines of business showed further gains in volume. But it **also** brought, near its close, a more serious break than had been **experienced** for some years. This was unexpected, and has caused a stocktaking of the progress already made, and of the forces to which we must look for further improvement.

The peak of recovery to date was reached **about** March, as measured by commodity and stock market prices, and a little later in respect to business activity. Then there was a mild reaction which gave rise to the **hope** that the advance would be quickly resumed, but in the autumn it developed into a wave of pessimism. This extended the net decline, from the **year's** high, to as much as 40 per cent. in stocks, 25 per cent. in commodities, and 20 per cent. in volume of business in the United States.

Whatever the causes may be, the extremes have **been** most evident in the United States, and part of the blame is attributed to political interference with the **normal** management of industry in that nation. It is at least evident that business had been too **much** dependent **upon** "pump-priming" by government funds on a large scale, and that this was checked as a step towards budget-balancing, without adequate encouragement or assurance to private capital to take its place. The decline caught many concerns with over-extended inventories, the correction of which will take some time.

Constant threats of war, with actual fighting in Spain and China, have been a further deterrent. Armament costs which now total several billion dollars a year for the leading nations, create fear rather than assurance for the future. Business apparently **has to** be reconciled to these facts, but certainly they do not make for confidence or long term commitments.

The immediate outlook therefore is cloudy, and hopes for further new records in 1938 are impaired. The major question of whether it is **merely** a temporary dip or the beginning of a new depression, can not be positively answered at this **stage**. There is some ground for hope in the fact that **one** severe depression seldom if ever follows so closely on another, without an intervening boom, and certainly we have not had any such credit or industrial expansion as would constitute a boom in **these** late years.

THE BANK OF TORONTO

Business in Great Britain continues unusually active, though it is marred by the knowledge that rearmament is too prominent a factor just now. World markets are providing a slightly improved demand for Canadian products.

While our Canadian trend is necessarily patterned in large degree **after** that of **the** United States, we have kept well within its most extreme fluctuations, and enjoy some stability by reason of our important trade connections with British and foreign markets.

Our foreign trade has shown **further** expansion, exports rising to \$1.135 millions, and imports to \$808 millions, in the twelve months ended November last. This created a favorable commodity balance **of** over \$326 millions, or a little under that of the preceding year. In conjunction with tourist traffic, interest, and **other** items entering into our international balance, it indicates that Canada is holding its own with the outside world.

This trade along with the domestic demand gave our industries an improved volume **with** resulting benefit to both workers and owners. Drought curtailed production in the hard wheat section of **the** west, but in other sections farm crops were generally good, and marketable at improved prices; our surplus of wheat, **which** depressed the world market and was an unsatisfactory **feature** in Canada for several years, has been entirely liquidated.

The mines continue to set new high records, the increased value of gold and other metals exported being a very important factor in our trade position. The lumber trade is fairly active, and the paper industry has regained a volume and a price **level** which permits of more satisfactory operation. Other manufacturers also have a place in the export as well as in the domestic field.

We trust that such trade arrangements as may be reached by Great Britain and the United States will recognize the part which Canada has demonstrated its ability to fill, and that it may at the same time strengthen the influence of these nations in international affairs.

Turning aside from these current developments, we still have with us, as the outstanding problem in Canada, our public debts and expenditures. Some progress has been made towards balancing of budgets, but when all forms of expenditure, including railways, relief and public works, are **considered**, we are still in the era of deficits. This is cause for **grave** concern in view **of the** relatively high level reached in business activity and **employment** in 1937. A Royal Commission is now **investigating** the financial relations between the Dominion and the Provincial governments, and has wide enough scope to possibly make some suggestions regarding the main question of debt and tax burden, but we have to bear in mind that it is not definitely charged with finding a solution for the latter, which therefore is still an open question, and subject to the unsatisfactory play of political forces which are often incompatible with economic progress.

THE BANK OF TORONTO

There is a growing tendency to higher wages and shorter working hours, as well as a demand for a broadening program of social services, and while these are widely accepted as desirable, it is necessary to count the cost, and to consider ways and means and the effect on industry and employment. We must preserve some kind of economy as well as efficiency in production: further, we must provide for a **growth** in capital after taxation is met. It is doubtful if such growth is possible today, when income and other current levies and estate taxes which fall on each generation, are **considered**; at least when the burden reaches its present proportions, the general public is called upon to meet a large part of it. For progress and prosperity it is essential also that savings shall be adequate to finance new industries, and to provide for expansion.

It has become almost a **practice** at Bank Annual Meetings for officials to **attempt** some sort of forecast of the course of business **for the coming year**, expressing such optimism as individual speakers consider safe. At **this time** it is **more difficult than** usual to look **ahead** with confidence. There are too **many** uncertainties in the situation. It is **hardly** worth while **making** predictions **when** our best hopes can be, and frequently **are**, upset overnight by events in Europe or in the far East, as well as by unfortunate social experiments in our own part of the world. If difficult times should be ahead, however, we **can** only say that we have confronted such situations before and **have** been able to successfully surmount them, and we should have the ability to deal with whatever the future may hold in store.

In the regrettable absence of our General Manager, Mr. H. B. **Henwood**, to which reference has been made earlier in the meeting, we will be deprived of the benefit **of** his comment on the items of interest **relating** to our business and prospects. Under the **circumstances** we have asked the Assistant General **Manager**, Mr. F. H. Marsh, to review the **principal** items of the statement, noting comparisons with the previous year.

In closing, I would like to avail myself **of** the opportunity to say a word of appreciation of the work of the Executive and staff during the year. The Directors have their responsibilities, but for any success that may be achieved the loyalty and faithful work of all members **of the** force is a most important factor, and to the staff generally I wish to express my thanks for the **good** service which they have given. I am glad to say that we have recently been able to accord tangible recognition of their efforts by way of salary adjustments and bonuses.

THE BANK OF TORONTO

ASSISTANT GENERAL MANAGER'S REFERENCE TO BALANCE SHEET

MR. CHAIRMAN AND GENTLEMEN:

The important items in our Balance Sheet include the following:

PROFITS:

Net profits for the year **\$1,156,372.**, an increase of \$14,561, over the amount reported a year ago.

DEPOSITS:

\$114,382,821. These show an increase of \$4,337,718.. and now stand at the highest point in our history. After maintaining the necessary cash reserves, we were able to keep this money fairly well employed but at substantially lower rates.

SECURITIES:

\$61,417,080. Our investment in securities is only **\$200,343.** greater than in 1936. It is our practice to confine our holdings largely to the highest grade bonds of short or medium term, and over **90% of our** securities consist of Dominion and Provincial direct or guaranteed bonds, or **high-grade** municipal debentures.

CALL AND SHORT LOANS IN CANADA:

Against securities **\$5,327,465.,** a decrease of **\$755,815.**

CURRENT LOANS AND DISCOUNTS:

\$41,633,984. The improved demand for commercial funds, which commenced in the later months of 1936, continued during the past year, and in November last our Loans were **\$4,079,053.** higher than a year ago. We are hopeful that conditions will be such that we will be **able** to employ more of our funds in this manner during the coming year.

BANK PREMISES:

\$3,476,003. The appropriation of \$200,000, to take care of depreciation on our Bank Premises reduces slightly the amount at which these are carried, although during the year we erected a number of new buildings.

THE BANK OF TORONTO

TOTAL ASSETS:

During the year our total assets increased by \$4,665,570., and now stand at \$140,572,874., which with the exception of 1929, is the highest point they have ever reached. Of this total \$93,780,075., equivalent to 75.76% of all liabilities to the public consists of cash or assets readily convertible into cash.

BRANCHES:

Six unprofitable branches have been closed during the year, and one new branch opened, resulting in a total of 169 branches now in operation. All branches have been inspected by our Inspection Staff during the year and the Shareholders' Auditors verified the cash, securities and loans at our main branches in Toronto, Montreal, Winnipeg and Vancouver.

THE BANK OF TORONTO

Moved by Mr. JOHN R. LAMB, seconded by Mr. PAUL J. MYLER, and

Resolved—That the Report of the Directors and Statement which has been presented, be adopted and printed copies thereof, together with the Minutes of this meeting, be sent to the Stockholders of the Bank.

Carried

Moved by COL. K. R. MARSHALL, seconded by Mr. J. J. GIBSON, and

Resolved—That Mr. GEOFFREY T. CLARKSON, F.C.A., of Clarkson, Gordon, Dilworth & Nash, and Mr. D. MCK. MCCLELLAND, F.C.A., of Price, Waterhouse & Company, be appointed Auditors of this Bank for the ensuing year, and that their remuneration be fixed at a sum not to exceed \$10,000.

Carried

Moved by Mr. G. H. TOWNSEND, seconded by MR. ROY L. WARREN, and

Resolved—That the Scrutineers cast one ballot for the election of Directors of The Bank of Toronto.

Carried

REPORT OF THE SCRUTINEERS

We, the undersigned **Scrutineers**, hereby declare that the following named gentlemen were to-day elected as Directors of The Bank of Toronto:—

JOHN R. LAMB
PAUL J. MYLER
COL. WILLIAM I. GEAR
FREDERICK K. MORROW
GEORGE KIDD
EDWARD D. GOODERHAM
HARRY J. CARMICHAEL

HARVEY B. HENWOOD
BRIG.-GEN. FRANK S. MEIGHEN
JOHN I. MCFARLAND
J. DOUGLAS WOODS
AUBREY DAVIS
DONALD MACASKILL

W. M. HARGRAFT }
R. PASHBY } *Scrutineers*

TORONTO, 19th January, 1938.

At a subsequent meeting of the new Board, Mr. JOHN R. LAMB, was elected President, and Mr. HARVEY B. HENWOOD and Mr. PAUL J. MYLER, **Vice-Presidents.**

By Order of the Board,

HARVEY B. HENWOOD,
General Manager.
