During the year your Directors approved of writing down the Property Values by the amount at the credit of Capital Surplus and effect has been given thereto in the Balance Sheet now submitted.

The year 1935 witnessed the continued progress of your Company in the Kraft Liner business, with a substantial increase in sales above 1934.

The volume of Sulphite Sales also improved over the preceding year but the margin of profit was unsatisfactory.

The physical assets have been well maintained and the plant is in good condition. Towards the end of the year a programme of alterations and additions to the Kraft Mill and Fourdrinier Machine was commenced, with the object of increasing the productive capacity of Kraft Liner and further improvements have been made during the year and are in contemplation to increase efficiency and reduce costs.

Plans have also been approved to recondition an idle Cylinder Machine for the manufacture of folding box boards. It is expected that this machine will be brought into operation approximately the 1st of June, 1936.

The Auditors, Messrs. Price, Waterhouse & Company, retire at this time, and, being eligible, offer themselves for re-election.

The Board of Directors wishes to express its appreciation of the loyal and efficient services of the officers, staff and employees of the Company.

Respectfully submitted on behalf of the Board of Directors.

J. B. WHITE,
President.
