*Report of the Directors to the Shareholders of*  
**CANADA MALTING CO., LIMITED**  
*For the Fiscal Year ending July 31, 1934*

---

The Directors of CANADA MALTING CO., LIMITED, beg to present herewith Balance Sheet as at July 31, 1934, and Statement of Profit and Loss for the year ending on that date, as certified to by the Auditors of the Company, Messrs. Price, Waterhouse & Co.

Net profits for the year, after making ample provision for depreciation of machinery and plant, bad and doubtful debts, and Income Taxes, amounted to \$620,384.31. The provision for depreciation was \$200,000.00, which amount is that allowed by the Dominion Government Income Tax Department.

Inventory of materials on hand was taken on a cost basis, which was slightly lower than the market, with a conservative provision made in respect to forward malt sales contracts.

The item of investments consists of Government and Municipal Bonds and sound Preferred Stocks, all readily marketable.

The net working capital of the Company was \$2,329,114.48, as against \$1,861,120.14 in 1933.

Business during the period under review was maintained at a very satisfactory volume. In our last report, some reference was made to the relative percentage of domestic and export sales to total sales. In the year ending July, 1933, export sales were 42%, domestic 58%; in the year just completed, export amounted to 53% and domestic 47%. There has been some improvement in this ratio in the first three months of the current year, when the percentages have been—export 40%, domestic 60%. This improvement is due to the new Ontario law coming into effect last July. Sales during the *current year are being well maintained.*

During the several preceding years of low grain prices, the Company had built up an appreciable inventory of finished products. The major part of this accumulated inventory was disposed of for export during the year under review at very satisfactory prices, thus adding to the net profits. Unfortunately, this opportunity will not occur to the same degree in the current year.

The shareholders will note alterations in the wording of several items in the Balance Sheet as compared to previous years. These changes were made in order to conform to the regulations of the new Dominion Companies' Act, which came into effect October 1, 1934.

The plants of the Company have been maintained in first-class condition.

The Directors wish to express their appreciation of the efforts of the staff and employees.

Respectfully submitted on behalf of the Board.

A. C. MATTHEWS,  
President and Managing-Director.
