# Report of the Directors to the Shareholders of **CANADA MALTING CO., LIMITED** For the Fiscal Year ended December 31, 1943

The Board of Directors submits herewith Balance Sheet and Profit and Loss Statement for the twelve months ended December 31, 1943, as certified by the Auditors of the Company, Messrs. Price, Waterhouse & Co.

The net profit from operations for the year, after charging all manufacturing, administrative and general expenses, depreciation, income and excess profits taxes (including refundable portion of excess profits tax—\$172,434.78) amounted to \$442,937.13. The comparative figure in the previous year was \$480,786.79.

To this was added income from investments, etc.—\$83,668.90, making a final net profit carried to Earned Surplus of \$526,606.03, or approximately \$2.65 per share. Dividends paid during the year amounted to \$2.50 per share.

The decline in net profit in 1943 was due to the application of the existing excess profits tax to the full twelve months in this period, and to only six months operations in 1942.

The increase in the investment in marketable securities, as indicated in the Balance Sheet, represents an additional purchase of Victory Bonds.

The refundable portion of excess profits tax accumulated to date is \$223,934.78.

The net working capital is \$4,431,156.61—an increase of \$116,627.85 from the previous year. The ratio of current assets to liabilities is approximately 4.4 to 1.

The provision for income and excess profits taxes, before deducting the refundable portion, amounted to \$1,241,648.04, as compared with \$830,000.00 in 1942.

Under Deferred Charges an item appears, "The Canadian Wheat Board—\$156,287.97." This represents the prepayment to the Wheat Board of the Government Equalization Fee relative to export contracts of malt made in 1943 for forward delivery. It is included in the price of the said contracts and will be received by the Company when the goods are shipped and paid for.

Capital Expenditures were kept to a minimum. Your properties were maintained in first-class repair.

Volume of sales during the year showed a sizable increase over 1942. This was only accomplished by appreciable reduction of inventory, as all plants were operating at capacity during both years. The higher sales can be attributed, to a major degree, to the increased Government demand for industrial alcohol for war purposes. This trend was most marked in the later months of 1943, and, in order to adequately meet this demand, your Directors were obliged to give consideration to enlarging the capacity of your Montreal plant. After consultation with several Government Departments, it was decided to proceed with this work, which is now in progress, and will cost approximately \$500,000.00.

Your Company has no reconversion problem relative to peace-time operations. The problem which will arise, however, will be to find a ready market for the output of over 2,000,000 bushels additional manufacturing capacity (represented by the 1940 construction at Toronto and the above-mentioned addition at Montreal) which will have been constructed by the Company since 1939. The major portion of this quantity will be absorbed by war demand. It represents about 40% of the Company's total pre-war output. It will mean strenuous efforts to regain and enlarge export markets.

We have always experienced cordial relations with our employees. The officers of the Company and the men discuss matters at frequent intervals relative to working conditions, rates of pay, etc., and have never failed to arrive at a mutually satisfactory understanding. A high scale of wages is paid. Annual holidays with pay, as well as statutory holidays during the year, are granted. The Company provides for the major cost of group life insurance and retirement pension. Contact is kept with those who have enlisted in the armed forces; the Company pays a substantial percentage of the difference in remuneration received while in the services as compared with pre-enlistment wages, and maintains their group insurance and pension in good standing.

Your Directors wish to express their appreciation of the loyal and efficient support rendered by the officers, staff and employees throughout the year.

Submitted on behalf of the Board.

ARNOLD C. MATTHEWS,  
President.
