CANADIAN BRONZE COMPANY, LIMITED

TO THE SHAREHOLDERS:

Your Directors take pleasure in submitting the Company's Income Account and Balance Sheet, showing the results of the past year's business and the financial position of the Company as of December 31st, 1932.

Although the reduced buying power of the Railroads, upon whom your Company is dependent for the bulk of its business, and the low volume of industrial work is reflected in your earnings and balance sheet, your Company has been able to make a reasonable showing for the year—the high efficiency of your Plants and the strictest economy in operations have contributed to this result.

You will note in the Balance Sheet that your Company's security investments have been written down to market values and the full depreciation from cost has been charged to surplus. Your working capital is adequate for the handling of a much greater volume of business than is immediately available.

The Dividend on your common stock was maintained during 1932 at the reduced rate of \$1.25 per share which resulted in a charge against surplus of approximately \$36,000.00.

With its modern, well-located Plants and highly trained organization, your Company is in a position to benefit by the first upturn in business, particularly in railroad traffic as replacement of worn-out equipment constitutes a large proportion of your business with the railroads. Any recovery in the volume of traffic from the abnormally low level of today should be quickly reflected in your earnings.

Your Directors wish to express their appreciation of the efficient work of the employees and the fine spirit of co-operation which has prevailed throughout the entire organization during these trying times.

On behalf of the Board of Directors.

W. L. BAYER, *President.*
