FOURTEENTH ANNUAL REPORT

YEAR ENDED SEPTEMBER 30

1923

□ □

To the Shareholders:

Your Directors have pleasure in presenting the Fourteenth Annual Report of your Company and of its subsidiary Companies, the Canadian Steel Foundries, Limited, and The Pratt & Letchworth Company, Limited, covering the combined operations for the fiscal year ended September 30th, 1923.

The total output of all Plants for the year amounted to \$20,689,638.95, being considerably in excess of the preceding year, and after charging against operations the cost of Plant maintenance and depreciation, interest on outstanding bonds and negotiable scrip, and after providing for all contingencies, including Government Income Tax, the net profit amounted to \$1,427,573.60, as compared with a loss for the preceding year of \$586,632.42.

Your Directors consider this result satisfactory, more especially in view of the fact that the trade depression referred to in their last Annual Report continued well into the fiscal period under review.

The Balance Sheet discloses an improved liquid condition, the Surplus of Current Assets in excess of Liabilities amounting to \$6,834,260.96, after providing for Dividends declared payable October 10th, 1923, and January 10th, 1924, and after making allowance for accrued interest on outstanding bonds and scrip.

Bond Sinking Funds to the amount of \$377,502.60 have been provided for during the year and a Redemption Fund has been set up to take care of the outstanding negotiable scrip which matures December 24th, 1927. It is also gratifying to note that there are no bank loans outstanding, the Company having been able to finance its entire year's program without banking accommodation, while on the other hand, interest and discount earned amounted to \$129,529.49.

Dividends in arrears at September 30th, 1923, amounted to 8¾%, and your Directors hope that business conditions will continue favorable so that such arrears may be paid off in the near future, but in this connection due regard must be had for the maintenance of sufficient working capital to meet all ordinary needs of the Company's business.

The value of unfilled business carried forward to the ensuing year amounted to approximately \$7,500,000.00, which is reflected in the Balance Sheet as at September 30th, 1923, where large inventories of materials and supplies, together with correspondingly

heavy trade accounts payable, appear. The completion of this unfilled business will, however, reduce the inventories of materials and supplies to approximately \$1,500,000.00.

The physical condition of all Plants has been well maintained during the year. The Head Office of the Company has been moved to the Company's own building, acquired in 1917, which has been remodelled and now adequately provides for the Company's requirements, and the mortgage loan of \$100,000.00 previously placed on this building has been paid in full. This change will result in a very considerable saving to the Company in respect to office rentals and taxes.

Your Directors take this opportunity of expressing appreciation of the efficient services rendered by the Officers and Employees throughout the year.

For the Directors,

W. W. BUTLER,

President.

December the Thirteenth,

Nineteen hundred and Twenty-three.
