**AUDITORS' REPORT TO THE SHAREHOLDERS:**

We have examined the Books and Accounts of the Canadian Car & Foundry Company, Limited, and its Subsidiary Companies, for the year ending September 30, 1933, and have obtained all the information and explanations which we have required. And we certify that, in our opinion, the above Consolidated Balance Sheet at September 30, 1933, and relative statement of Surplus and Profits are properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Canadian Car & Foundry Company, Limited, and its Subsidiary Companies, at that date, according to the best of our information and the explanations given to us, and as shown by the books of the Companies.

MONTREAL, November 10th, 1933.

# TWENTY-FOURTH ANNUAL REPORT

*Year Ended September 30, 1933*

## TO THE SHAREHOLDERS:

Your Directors submit herewith the Twenty-Fourth Annual Report of your Company and its subsidiaries, Canadian Steel Foundries, Limited, and The Pratt & Letchworth Company, Limited, covering combined operations for the year ended September 30th, 1933.

The difficult conditions of operation referred to in last year's report were even more trying this year, and your Directors again have to report that no orders for cars of any type were received during the fiscal year from either of the two main transportation systems in Canada. The total sales of your Companies were very considerably below those of the previous year which it was thought represented a low-water mark for all time. It is encouraging to note that the Government reports a general improvement in business throughout the Dominion, which should be reflected in orders for rolling stock.

The enclosed Balance Sheet reveals a strong liquid position and a substantial surplus. Inventories are lower than at any period in the history of your Companies, and consist principally of raw materials and partly manufactured product of the foundries and rolling mills, units of which are in operation. All of these materials are valued at cost or market price, whichever is the lower, and, in addition, ample reserves are maintained.

The accumulated profit from the issue of your Company's Ordinary Shares, in connection with the retirement of the bonded debt in 1929; and from the purchases of Preference Shares for retirement—amounting in all to \$475,775.17—has been added to Depreciation Reserve Fund, thereby obviating the necessity for making any provision for depreciation from the General Surplus.

On account of many valuable exclusive contracts for equipment accessories which your Company enjoys, it is necessary to maintain

your plants in a condition to accept any business which is offered. Despite rigid economies, the volume of business has not been sufficient to permit of a net profit on the entire operations of your Companies. However, the continuance of operations, even on such a reduced scale, enables the preservation of a nucleus of an organization which will be available to obtain the maximum benefit from the business which must eventually come to us.

The operations of the Canadian General Transit Company, Limited, in which your Company holds a controlling interest, have been maintained on a profitable basis throughout the year.

Your Directors take this opportunity of expressing their appreciation of the efficient services rendered by the officers and employees throughout the year.

For the Directors,

W. W. BUTLER,  
President.

Montreal, November 10th, 1933.
