AUDITORS' REPORT

* *

Montreal, Que.,
21st March, 1929

*To the Shareholders,
Canadian Celanese Limited,
Montreal.*

GENTLEMEN :

We have examined the books of account and financial records of Canadian Celanese Limited for the year ended 31st December 1928, and have obtained all the information and explanations we have required.

The inventories of raw materials, supplies, work in process and finished goods have been certified to by responsible officials of your Company.

The charges to plant accounts during the year represent actual additions and improvements, together with a proportion of overhead expenses which has been capitalized.

No reserve for depreciation of fixed assets has been provided for.

Subject to the foregoing, we certify that the attached Balance Sheet as at 31st December 1928, is in accord with the books and, in our opinion, presents a true and correct statement of the financial position of the Company at the date thereof.

Respectfully submitted,

P. S. ROSS & SONS,
Chartered Accountants

*To the Shareholders
of Canadian Celanese Limited*

DEAR SIR (OR MADAM) :

Appended herewith are copies of the Balance Sheet showing the financial position of the Company as of December 31st, 1928, and Profit and Loss Account for the fiscal year ending December 31st, 1928, together with statement of the Company's Auditors, Messrs. P. S. Ross and Sons.

The net profits from operations was \$13,257.35, and the total sum carried to deferred credits account for the year \$180,409.05, bringing the total of this account to \$512,119.12. No definite provision has been made this year for depreciation as, the plant being only completed during the year, it was not considered essential to earmark any definite portion of the deferred credits account for that purpose at this time.

The Company's chemical factory was completed so far as to start production at mid-year. Until that time, such yarn as was being used for fabrication was produced in your factory from imported cellulose acetate. The effect of having your own chemical plant in operation was to substantially reduce the cost of cellulose acetate as compared with the imported product, the beneficial effect of which will be still further felt in the year 1929.

We have had approximately six months operation of all departments and the factory is now self-contained from cellulose acetate to finished fabrics which form the main revenue producing item.

The Company has more than doubled its fabric plant during the past year, and further increase is in hand.

Our fabrics have been, and are being, well received in the Dominion and are being developed in a satisfactory manner. Under the circumstances we feel that the results obtained for the year were satisfactory and that your Company will attain complete success.

At this opportunity the Board takes pleasure in thanking the employees and workmen of the Company, both at the factory in Drummondville and at the Head Office in Montreal, as well as its agents wherever situated, for the efficient work they have done during the year under review and for the great loyalty they have shown.

For the Board of Directors,

CAMILLE DREYFUS,
President

APRIL 17TH, 1929.
