To the Shareholders of DOMINION BRIDGE COMPANY, LIMITED

Your Directors submit the Annual Report of the Company together with Balance Sheet as at the 31st October, 1925, and Profit and Loss Account for the year ended that date.

The Plants of your Company have been well maintained and the manufacturing facilities generally improved.

The stocks of raw material and manufacturing supplies are well assorted and saleable; the inventories for these have been taken at conservative prices.

Your Directors declared quarterly dividends at the rate of four per cent. per annum. This necessitated drawing upon the substantial surplus profits which the Company had been able to set aside in previous years. You will be asked to approve these Dividends.

The costs of production and erection have been on a satisfactory basis and the deficit is directly attributable to severe competition and the low prices at which it was necessary to bid in order to secure a reasonable volume of work to keep your organization employed.

There is a good volume of new work in prospect, prices already show some improvement and are tending towards normal; generally, the outlook for better results in the coming year is encouraging.

The contract for the steel superstructure of the South Shore Bridge was secured towards the end of the year on a unit basis, which will amount to about \$7,200,000. Although it will not be finally completed until the year 1930 and actual profits will not accrue until then, it will in the meantime have a beneficial effect in absorbing a portion of the overhead expenses.

Meetings of your Board of Directors have been held monthly, the books of your Company have been regularly audited and the Certificate of your Auditors appears on the Financial Statement herewith submitted.

By Order of the Board of Directors.

G. H. DUGGAN,
President.
