EASTERN DAIRIES, LIMITED

To the Shareholders:

YOUR Directors submit herewith their Annual Report covering the operations of your Company and its Subsidiaries for the year ended March 31st, 1933, accompanied by a Consolidated Statement of Assets and Liabilities and Surplus Account, duly certified by the Company's auditors.

The net profits from operations for the year, and for the previous fiscal year ended March 31st, 1932, are as follows:

	1932	1933
Operating Profit.....	\$801,689.04	\$491,563.24
LESS:		
Bond Interest.....	\$180,000.00	\$180,000.00
Premium paid and accrued on U.S.A. funds for Bond Interest.....	19,247.64	24,090.01
Depreciation.....	200,000.00	225,000.00
Bond Discount and Expense.....	10,453.84	10,453.84
	409,701.48	439,543.85
	<u>\$391,987.56</u>	<u>\$ 52,019.39</u>

It will be noticed that the cost of paying interest on your Company's Bonds in United States funds increased by \$4,842.37. A dividend on the Common Stock of the Company was declared and paid at the rate of 25c. per share for the quarter ending June 30th, 1932. Dividends on the Preferred Stock of the Company were declared and paid at the rate of \$1.75 per share for the quarters ending June 30th, 1932, September 30th, 1932, and December 31st, 1932. Your Directors decided to defer action with respect to the dividends on the 7% Cumulative Preferred Stock for the quarter ending March 31st, 1933.

The decrease in the earnings of your Company is principally due to the continued unsatisfactory conditions and the consequent lack of purchasing power. The volume of sales is somewhat lower than the previous year, particularly sales of the higher-priced products, namely, butter, cream and ice cream. While the number of customers served has been well maintained, the average sales per customer are lower.

The number of customers who are obliged to obtain their supplies through relief organizations has increased by a very considerable extent during the year, and as these sales are made at lower than regular retail prices, the earnings of your Company were adversely affected.

The continuing low values of dairy products throughout the world have also contributed to the decreased earnings of your Company. During normal times only milk which is produced under ideal conditions is shipped to the larger cities for

consumption as fluid milk. The low prices obtainable for milk for the production of butter, cheese, milk powder and other exportable products have induced many of the producers of milk for that market to ship to the cities at very low prices. This has caused severe competition, and consequently a reduction in your Company's selling prices, a considerable portion of which had to be absorbed by your Company in order to ensure a plentiful supply of milk of high quality.

Your Directors believe that the policy of continuing to purchase and offer for sale only milk, cream, butter and other dairy products of the highest quality is in the best interests of your Company, and will, with the return of normal conditions, result in increased sales and earnings.

In April, 1932, a tax of 6% was levied on the sales of ice cream which had to be absorbed by your Company. The cost of supplies purchased by your Company was increased through the raising of the sales tax from 4% to 6% in April, 1932. Provincial and Municipal taxes were also considerably in excess of previous years. This continual increase in taxation has had a very serious effect on the earnings of your Company.

During the year substantial reductions were effected in salaries and wages, and your Directors have made every endeavour to reduce expenses consistent with the maintenance of efficient service. After absorbing the extra taxation referred to, the expenses for the fiscal year are over \$300,000.00 less than the previous year.

The current position of your Company has been well maintained. Collections of Accounts Receivable have been somewhat lower than in previous years and your Directors decided to credit the Reserve For Bad Debts with an additional \$25,000.00, and also to set up a Reserve of \$25,000.00 against Deferred Accounts Receivable. Inventories of products and supplies have been reduced as far as possible, consistent with efficient purchasing and the volume of products produced. In December, 1932, the employees completed the purchase of shares of the Common Stock of the Company referred to in the Report for the previous year.

The securities owned by your Company are substantially the same as at the end of the previous year, and consist of Government, Public Utility and Industrial Bonds, and Preferred and Common Stocks.

The amount of \$225,000.00 reserved for Depreciation is \$25,000.00 higher than in previous years and your Directors consider that this amount is sufficient in view of the excellent condition in which the plants are maintained.

Your Directors again wish to express their appreciation of the services rendered by the officers and employees of your Company.

Submitted on behalf of the Board.

W. R. AIRD, *President.*

Auditors' Certificate

We have compared the above Consolidated Balance Sheet at 31st March, 1933, with the books and records of Eastern Dairies, Limited and its Subsidiaries, with the exception of The Producers Dairy, Limited for which we have received certified statements.

We certify that, in our opinion, the attached Consolidated Balance Sheet has been drawn up so as to set forth a true and correct view of the financial position of Eastern Dairies, Limited and its Subsidiaries at 31st March, 1933, according to the best of our information, the explanations given to us and as shown by the books of the Companies examined by us and the certified statements given to us.

P. S. ROSS & SONS,
Chartered Accountants.
