	<u><u>\$2,212,474.96</u></u>

Branches of the Bank have been opened during the year at Iroquois Falls and Mount Dennis, *Ontario*; at Denholm, Laird, McLean, Pilot Butte, Ruddell and Springwater, *Saskatchewan*; and at New Norway and Peace River, *Alberta*. One branch has been closed, namely, North End, Edmonton, *Alberta*.

Imperial Bank of Canada

The Head Office and Branches of the Bank, now numbering 128, have been carefully inspected during the year. The Auditors appointed by the Shareholders have also made their examinations as required by the Bank Act, and their report and certificate is attached to the Balance Sheet.

A further subscription of \$25,000 has been made to the Canadian Patriotic Fund and will be required during the course of the year.

The Directors have much pleasure in testifying to the loyalty, faithfulness and efficiency of the Staff.

All of which is respectfully submitted.

PELEG HOWLAND, *President.*

AUDITORS' REPORT TO SHAREHOLDERS.

We have compared the above Balance Sheet with the books and accounts at the Chief Office of Imperial Bank of Canada and with the certified returns received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches on 30th April, 1917, We certify that in our opinion such Balance Sheet exhibits a true and correct view of the Bank's affairs according to the best of our information, the explanations given to us and as shown by the books of the Bank.

In addition to the examinations mentioned, the cash and securities at the Chief Office and certain of the principal Branches were checked and verified by us during the year and found to be in accord with the books of the Bank.

All information and explanations required have been given to us and all transactions of the Bank which have come under our notice have in our opinion been within the powers of the Bank.

THE PRESIDENT'S ADDRESS.

In rising to move the adoption of the Report which you have just heard, I am going to make a few remarks, which unfortunately is a custom.

While the year just past has been one of much anxiety, your Directors meet you to-day with some satisfaction, for the management is able to show a considerable increase in the earnings of the Bank. As you will see after paying dividends and making the usual provisions, and also putting aside a sum to cover depreciation in securities, our Profit and Loss Account balance has been considerably augmented.

When we last met together there were few of us, I venture to say, who thought we would still be at war at this date, and now the end seems as far off as ever, with the added anxiety of the uncertainty of happenings in Russia, and the increased submarine peril, an anxiety tempered by the entrance of the United States into the war.

Without doubt our prosperity (unstable though it is) is due to the continuation of the awful struggle. Much of the profit that is accruing to the community would appear to be due to the constant rise in the price levels of almost every conceivable commodity consumed or desired by man. As to what are the causes that lead to these advances, even on materials of which there is an apparent abundance, I will not venture an opinion, suffice it to say that there seems to be an infection in the air that compels the feeling that delay in providing for present or future needs is dangerous; under such conditions the saving of money which is being so strongly advocated is not likely to be made even by the thrifty.

I make the above reference because the inflated conditions existing compel the use of additional money in the conduct of business which the Banks are being called upon to supply; these calls in addition to the needs of the Government, either direct or indirect, are beginning to tax the resources of the Banks and must lead to higher rates of interest on borrowed

money. In our own case we may be compelled to make use of a larger proportion of our reserves than we would under ordinary circumstances think desirable, and which perhaps can only be excused by our Government's or rather our Country's needs. It is, of course, quite true that a state of things such as I have mentioned means increased earnings for us, and would in that respect be a source of satisfaction, if it did not also bring about a reduction in the apparent value of securities even of the highest class; which reduction will have to be provided for out of these earnings as has already been the case to a certain extent in the past year.

All things considered, therefore, is it not wise that the business community, using the term in its broadest sense, should resist all temptation to expand or make capital outlays even at the cost of some prospective profit? The war may go on for a long time, but it may end soon and suddenly, with conditions impossible to foresee, but which we cannot hope will be, immediately, good.

Our Branches have sent in their usual reports; they are, generally speaking, optimistic. It is true that the season is backward, but it would seem as if there would be no reduction in the acreage under crop, except in wheat, but other grains are being sown in its stead; shortage of labor is not complained of *everywhere* by the farming community, and in any case it does not seem to have affected seeding to a great extent. It is to be hoped that Providence will be kind and the yield good. If Providence is kind and half the amateur effort is made that is being urged there will be more garden stuff in this particular vicinity than will be consumed.

I will not burden you with figures, but think it well to mention that the Bank Clearings this year, so far, have increased enormously over last, reflecting in part at least the inflated conditions. Building permits show some increase: it is difficult to decide the cause. Railway receipts have grown. The number of immigrants, while

small compared with former years, has increased somewhat over last year, nearly all coming from the United States. The entry of that country into the war, with the resultant debt and taxation, and the recent regulation regarding free wheat, must, I think, aid us in the future in obtaining American settlers. About a hundred thousand soldiers have been added to our army during the past year, and about one hundred and fifty thousand have been sent abroad to join their comrades; but, alas! ninety thousand casualties have occurred since the war began; of these more than twenty-six thousand are dead, a heavy toll. Our foreign trade has grown enormously, with a balance still largely in our favor: the effect of this is, however, it seems to me, largely nullified by credits granted the Mother Country. Our debt has of necessity grown enormously, and is increasing at the rate of probably three-quarters of a million dollars a day; it is only reasonable to expect that we must soon begin to feel the effect of the burden. It will, I am sure, be cheerfully borne.

Turning to our own immediate affairs, it will be noted from the Report that several small Branches have been opened. We have reason to expect that these will very quickly become self-sustaining, with perhaps the exception of the one at Peace River, which has more the character of a pioneer post, but from which, eventually, good results are anticipated.

We have also secured properties at, it is thought, reasonable values in Vancouver, Windsor, and the corner of King and Spadina Ave., Toronto (two of these are yielding revenue), where it is expected we will erect our own offices, when the opportune time arrives.

In Aurora the business of J. M. Walton & Co., private bankers, has been purchased, with an improved effect on our business at that point.

I am sure you will approve of the further subscription to the Patriotic Fund referred to in the Report, and which will be paid out during this year.

I am sorry that our senior Director, Mr. Ramsay, is not with us this year. It is the first time he has missed this meeting within my recollection. While recently ill, he writes that he is now quite fit, but that the sailings of steamships for America are so uncertain that he decided not to venture. Dr. Merritt is still attending to his military hospital duties in England, and is in consequence absent.

A very large number of our Staff have enlisted and gone overseas (Mr. Hay will give you particulars) and a large number of them, I regret to say, will not return. It has again been a hard, self-sacrificing year for those remaining, and I once more am glad to bear testimony to their loyalty and zeal.

I beg to move the adoption of the Report, and will ask Mr. Rogers to second the motion. (Applause.)

THE VICE-PRESIDENT'S ADDRESS.

In seconding the adoption of the Report there is no occasion for me to refer to the statement, as the figures shown speak eloquently for themselves, and our long experienced General Manager will, no doubt, explain any details you may wish to know which may not have been covered by the Report itself, or by the President's address.

I think I am naturally inclined to be cautious. Perhaps that is owing to my early training on the farm, where all the bad horses about the place were given me to break in. I have ridden all kinds, from the worst broncho of the West to some of the most tricky thoroughbreds of the East, and although I have had some tumbles, that and other experiences must have developed a sense of caution which I have found valuable in business. At the same time the experiences I have passed through have given me freedom from any sense of fear, or else I was born that way. I have no criticism to offer regarding what the President has said, but at the same time I want to say I have the fullest confidence that not only will this worst of all catastrophes ever known end in victory for the Allies, but that the peoples

of the world will come out of it much better, as gold tried in the fire, and that this Canada of ours, also this Bank, will have a great future.

The farm is the chief source of wealth. We have now three transcontinental railways with branches running through thousands of miles of the very best undeveloped agricultural land in the world. In the natural course of things, these must attract immigration. The products of the farm are now commanding the highest prices ever known, and, in my opinion, even after the end of the war, high prices for foodstuffs must continue to prevail. With the mechanical appliances now available for farm work, the farmer needs a considerable supply of extra capital, and should be helped to the extent needed upon good security. The food supply of the world is short; the demand is likely to increase rather than decrease. Development of mines, extension of factories and the reconstruction of devastated Europe must all call for food supplies for the workers. On the whole, the farmer has been helped rather than hurt by this war, and will continue to be so, at least for a long time to come.

Great changes must necessarily take place as the aftermath of the war, and in the meantime there can be no question as to the wisdom of economy in all directions. One common factor will enter into any adjustment after peace has been concluded, and that is the relation of the supply of capital to its demand, and the supply of labor working in harmony with capital. Capital and labor are dependent on each other. The tendency in modern times, unfortunately, has been for capital to use labor too much as a machine.

In my opinion, it would be in the interests of all concerned for capital, which is essential to the development of all enterprises, to take labor, which is equally essential, into its full confidence, each receiving a fair return for that which it gives. Capital is necessary in connection with banking, but apart from that, banking is simply a system of credit. Mr. Henry Dunning McLeod, one of the highest

authorities on credit, says: "A solid system of credit, by which I mean credits on debts which are punctually redeemed at maturity, is the most ingenious and powerful method ever devised by the ingenuity of man for promoting and developing national wealth." Daniel Webster says: "Credit has done more a thousand times to enrich nations than all the mines of the world." To obtain credit there must, or should be, the ability to pay, and the honest intention to pay. The credit of Canada is good, and although the load of debt is growing heavier every day in this, as in every other belligerent country, we must all admit that its financial problems have been wisely handled, and I trust that its credit will continue to grow still stronger with the progress of time.

The Imperial Bank has long been one of the leading banking institutions of Canada, and for its continued successful growth the highest praise is due to its efficient staff. The Board of Directors is necessary to direct the general policy of a Bank, but the responsibility of the real work rests upon the management and official staff.

I have much pleasure in seconding the adoption of the Report. (Applause.)

THE PRESIDENT.— Before I put the motion you would, perhaps, like to hear some explanations from the General Manager, of the figures in this Statement.

GENERAL MANAGER'S REMARKS.

As requested by the President, I have pleasure in pointing out and commenting upon the special features of the Balance Sheet now presented to you.

While our actual cash holdings of \$22,204,696.91 are only very slightly in excess of the amount held a year ago, you will note a material increase from \$10,751,581.96 to \$14,866,892.57 in our "Second Line Reserves," which include Dominion, Provincial and British Government securities, and which are readily convertible into cash. This increase

Imperial Bank of Canada

is represented very largely by short term Government Loans for the purchase of munitions and other war supplies.

Balances maintained in Foreign Countries have decreased during the year from \$6,352,289.15 to \$1,858,167.68. In view of the very large demands of our borrowing customers and the fact that we are able to keep our funds well employed at home, we have reduced our balances abroad by the substantial figure indicated, about \$4,500,000.

Municipal Loans show a decrease during the year of practically \$2,000,000, which is accounted for by the practice of economy and the curtailment of expenditures by municipalities generally. This is as it should be in times like these, and I might say that, in our opinion, some of our Canadian Municipalities should retrench still further.

Call and Short Term Loans show a reduction from \$4,127,322.78 to \$3,900,248.45, roughly \$200,000. While the decrease is not large, I would point out that a very large proportion of the present loans is represented by advances to customers to assist in the purchase of War Loan Bonds.

The substantial increase in current loans and discounts, now amounting to \$41,192,000 odd, as compared with \$34,646,000 a year ago, is due to a general expansion in our commercial business and the present high cost of all commodities.

Bank Premises Account during the year has increased from \$2,621,000 to \$2,908,000. The expenditures in this connection have been conservative, and advisedly made in obtaining desirable sites at reasonable prices. Our policy is, as far as practicable, to own the premises required for the Bank's own business at places where we are satisfied we are permanently established and where advantageous leases are not procurable.

Altogether you will note an increase of \$9,000,000 in Assets during the year.

Turning to the other side of the Balance Sheet—Liabilities—you will observe the amount of notes of the Bank in circulation has, in common with other Banks, considerably

Imperial Bank of Canada

increased during the year just closed; in fact, I might say that the maximum during the year reached the figure of \$8,465,716, the largest in the history of the Bank. The amendments to the Bank Act providing for emergency circulation, as it has been termed, are working out satisfactorily—and to enable us to take advantage of the opportunity afforded by this legislation to increase our circulation, we have deposited with the Central Gold Reserves various sums from time to time, the amount so deposited at present amounting to \$1,000,000.

Deposits not bearing interest have increased by approximately \$3,600,000—from \$11,253,426.11 to \$14,845,206.10. Interest-bearing deposits have shown almost as large an increase, the amount last year being \$48,965,201.86, while this year we have reached the sum of \$51,354,075.12. This growth, representing a total increase in deposits of \$6,000,000, we regard as satisfactory, particularly so when we consider the large withdrawals for investment in War Loan Issues and such like interest-bearing securities yielding higher rates of interest.

You will note that our foreign correspondents' balances with us now amounting to \$1,208,659.35 show a substantial increase. With the high rates of exchange prevailing, no doubt it suits our correspondents to leave these funds, representing chiefly proceeds of collections, on deposit with us pending a return of exchange rates to normal.

The number of individual shareholders of the Bank's stock consistently continues to grow. There are now 1879 Shareholders as compared with 1804 a year ago.

NEW BRANCHES.—Although for the past two or three years' time our policy has not been one of expansion in the way of new branches, you will have noted from the Report that we have during the past year established ourselves at half a dozen rural points in the Province of Saskatchewan and at two points in Alberta. I might say that these expansions have been with a view to the future and to extending our facilities in fields in which we have for some

time been represented. For instance, the branches at Denholm and Ruddell are in the immediate vicinity of North Battleford, where we have had a branch for some ten or twelve years. In the Province of Alberta we have large interests also and have opened a branch at Peace River, which is some 270 miles north-west of Edmonton, where considerable development has already taken place and it is expected will continue. (Applause.)

THE PRESIDENT.—Are there any remarks before I put this motion? It is moved by myself, seconded by the Vice-President, that the Report which has been read be adopted, printed and circulated amongst the Shareholders. (Carried.)

THE PRESIDENT.—The next business is a motion for the appointment of the Auditors.

Moved by Mr. Walter J. Barr, seconded by Mr. R. Carswell: That Mr. G. T. Clarkson, F.C.A., Toronto, and Mr. R. J. Dilworth, F.C.A., Toronto, be appointed Auditors of the Bank for the ensuing year at a remuneration not to exceed a total of \$5,000. (Carried.)

MR. L. A. HAMILTON.—I beg to make the following resolution; I make it out of the fulness of my heart because of the statement that we have just listened to with so much pleasure to-day. And when we consider the trying time the gentlemen who pilot the affairs of this Bank have had during the past financial year, I am sure that the Shareholders will join with me in this resolution. And I speak to-day in a dual capacity; I am not a resident of the city of Toronto; I happen to be one of the largest farmers in the county of Peel, and, therefore, I am speaking on behalf of the rural Shareholders of this Imperial Bank.

I beg to move, Sir, that the thanks of the Shareholders are due and are hereby tendered to the President, Vice-President and Directors of the Bank for their services during the past year.

MR. W. H. KNOWLTON.—Mr. President, it gives me a great deal of pleasure to have the privilege of seconding this

resolution. As a very old customer of the Bank and one who has had many a time to lean on the assistance of the Bank, I have a very warm feeling for the officers for the treatment I got from them. At the same time while as a customer I was always at war with the Bank, because I never could get what I wanted at the price I wanted it—(laughter)—I generally got it though usually I had to pay their price for it. Sometimes my business required a large amount of sterling money, and it often used to amuse me when I came to the Manager and asked him what sterling was to-day. He would say: Do you want to buy or sell?—(laughter)—just as if it made any difference! But mostly I was a buyer, and I always made up my mind when he asked me that question that it was with the object of getting a little time to think how much he should ask, as before then I often found that the credit of Canada in London was very largely the wrong way. Sterling was high, consequently I did not always get that at the price I wanted it. However, I usually got what I wanted and I would not have to pay any more than anybody else. Other times, when I had a little money to spare and did not want it in my current account and would put it in the savings, I would come to the Manager—well, then they did not require any money, but as a matter of privilege they would allow me to leave it there and take care of it and give me 3 per cent., while, if I wanted to get any of that back, I had to pay 6 per cent. (Laughter.) However, that is still going on now, and has been for over 30 years, and I still live and the Bank still lives. During all that time I have always had the greatest courtesy shown me.

But as a Shareholder of the Bank you have the very warmest thanks for the very careful and efficient manner in which this Bank has, as long as I have been connected with it, conducted its affairs. I do not believe there is a Bank in the Dominion of Canada to-day that owes more to its Directors and Officers than the Imperial Bank.

I have much pleasure in seconding the resolution.
(Carried.)

Imperial Bank of Canada

THE PRESIDENT.—It is quite evident Mr. Knowlton knows how to buy and sell. In my behalf, I thank you sincerely for the motion, and I would ask that, on behalf of the Directors, Mr. Gage would say something and also our friend the Hon. Mr. Turner from Quebec.

MR. W. J. GAGE.—Mr. President, it is very pleasant indeed to hear the resolution proposed by Mr. Hamilton and ably seconded by Mr. Knowlton. As one of the Directors, and with knowledge of my colleagues, I think the Directors have simply done their duty, and why thank them? It has been a pleasure to do that duty, because there has been such a delightful feeling of co-operation between the Board of Directors and the Executive of the Bank. Why thank your Directors? They have already had it in the pleasure they have in hearing such a splendid Annual Report read.

It could not be very well otherwise than that this Bank should be conducted with caution, and I want to give it to you Shareholders to-day in confidence—there is not the slightest taint of speculation about the Imperial Bank, either as far as the Directors are concerned or as far as the Executive Mr. Hay, the General Manager, Mr. Moffat, the Assistant General Manager, and Mr. Boulton, the Chief Inspector are concerned. The first two are Scotsmen, so that everything is done with exceeding great caution; they cannot help it, being Scotsmen, but it makes the task of the Directors a much lighter one.

If you require anything further to show that the Directorate and the Executive have tried to conduct the affairs of the Bank with very great caution, I just turn to one or two items in the Annual Report. You have already seen that that splendid nest-egg of \$1,164,876 in the Profit and Loss Account is a very nice thing to fall back upon in time of trouble, if it should come to us. Then there is another item—the securities that are supposed to be gilt-edged that have been purchased by the Bank. After they have been valued and re-valued from year to year, you will find to-day one item down there, “Contingent appropriation to

cover depreciation in Bonds and Debentures, \$100,000." They are worth 100 cents on the dollar, but this is to provide for something to happen in the future; it may never happen. It is there for the Shareholders; it will come back again to the Bank. That shows caution on behalf of the Shareholders on the part of the Directors and the Executive.

There is one matter reminded me of this very thought when Mr. Knowlton was speaking. He came to the Bank to borrow money; he got what he wanted, but the Manager was very, very cautious. He wanted all the security he could possibly get, and that is a failing of the Imperial Bank. It reminds me very much of the advertisement I see in the street car every morning, 2 to 1. The Bank seems to go on that principle that they want two dollars of security for every dollar they advance—a good, wholesome policy in time of trouble. But it is still more pleasant to hear these customers speak in such a splendid way of the courteous, fair treatment they received during all these years.

May I thank you on behalf of my colleagues, the Directorate, for your kind expressions.

HON. RICHARD TURNER.—Mr. President, Ladies and Gentlemen, I did not think you were going to call upon me this morning to say a few words in connection with the Imperial Bank of Canada. The Statement which is in the hands of each of the gentlemen present speaks for itself.

I, as a humble Director of the Bank, express my views with reference to our worthy President. As you are quite well aware, Mr. Wilkie, the late deceased President, was one of the chief promoters of the Bank, and he grew up with the Bank. He had at his right hand, however, the father of our worthy President, Mr. Howland, who was, I understand, a very cautious man. Well, a cautious man would not have established the Imperial Bank as it stands to-day. It required a man to be a man of progress, aggressive, and, at the same time, while he did not play any speculative game as 2 to 1, as described by our friend Mr. Gage, still if he limited himself to strict commercial business as a banker,

it is doubtful if the Imperial Bank would be in the position it is to-day. But he had sufficient of it to make money, and that worthy person, who was ultra-conservative, acted as a good check upon his business ability.

Now, with reference to the Imperial Bank, I live in the city of Quebec, 500 miles away, and it is not always convenient for me to get up to the meetings of the Bank. Since I was appointed in the city of Quebec, I have felt confident that the worthy President and the Directors were quite competent to carry on the affairs of the Bank without the humble representative from the city of Quebec.

As regards economy, I look around this building and I look at the beautiful mosaic floor and marble columns and hieroglyphics on the walls, and they certainly do not show any extravagance. But it shows that the spirit of economy exists from the most minute thing, and I have no doubt in the largest transactions correspondingly. I hope the next time we meet here it will be a very different looking building.

With reference to the Statement, there is just one item that strikes me I would like to have a little more explanation about, and that is, we thank the employees and the staff of the Imperial Bank for their labors and all they have done during the past year. They have shown their loyalty by going and fighting for us at the front; they have shown their loyalty and patriotism in numerous ways. I do not speak for the office only of the city of Toronto, but I speak on behalf of all the employees of the Bank and its agencies. Now, I see about \$7,500 there to the credit of the employees as a contribution to the Pension Fund. We know these young men enter the Bank and the first year they receive very small stipends, not sufficient even to pay for their ordinary expenses of living and clothing. You must remember the young men of to-day are not the young men of forty years ago. They start into this business as clerks at a very early age. I have been 60 years in business; I have been 50 years in active business on my own account, and I notice a change between the young man of that period

and the young man of to-day. Now, as an incentive to these young men—they are giving the best part of their lives, their younger days, to the Bank—why should the Bank not feel disposed to grant them a proper annuity? Take our worthy General Manager: he came to the Bank, you might say, as a child and has been with the Bank ever since. Now, in case of misfortune—we are all subject to it—and if anything happens to the individual and he is called away, do not you think that an annuity, a positive amount, should be placed on proper statistics and allowed to the staff?

I have great pleasure indeed in supporting the adoption of the Report, and it affords me very great pleasure annually to come and visit Toronto. I am very well acquainted in Toronto. You have a fine city; I do not think there is a city in Canada that can surpass Toronto. I had serious thoughts of coming to Toronto to establish my business, but my wife said I was too old for that sort of thing.

THE PRESIDENT.—With reference to the remarks that Mr. Turner has made regarding Pension Fund, there is a certain accumulation of money that has been put aside for years past that forms a nucleus of a fund, and I may say further that the matter now is in the hands of experts who are working on a plan which it is hoped the Bank will be able to afford to adopt, and in due course the Directors will come to you, Gentlemen, for the necessary vote from the funds of the Bank to establish a Pension Fund on what we hope will be a satisfactory and firm basis for all time.

I think Mr. Long has a motion.

MR. THOMAS LONG.—I have pleasure in moving the following resolution: That the thanks of the Shareholders be given to the General Manager, Assistant General Manager and the other officers of the Bank for their attention to the interests of the Bank, and for the efficient performance of their respective duties.

I would like to make a remark or two, as well as move this resolution. I think, Sir, that the Shareholders are very fortunate in having such an efficient Board to confer always

with the General Manager. They have a Board of gentlemen who are I think nearly all business men and of such a standing that the affairs of the Bank are wholly safe in their hands. And if you will allow me to go back as far as the time of the late President and General Manager, I think he always made a wise and careful selection of the young men whom he engaged to learn the affairs of the Bank, and who afterwards, if they were entitled to it, became branch Managers. I think you have as fine a staff of branch Managers throughout the whole length and breadth of Canada as you will find. I happen to visit a great many of them from time to time, and I have always found them very efficient, obliging and capable men.

Looking over the receipts and earnings of the Bank for the past year, I think, Sir, that the Bank has done amazingly well and that the Statement brought before the Shareholders to-day contains everything that we could reasonably expect. When we consider the disturbed commercial and financial interests of the country brought about by war and accompanying conditions, I think that the Statement is an admirable one and that the deduction of \$100,000 for depreciation in securities is a very wise provision to make—and, as far as I am concerned as a stockholder, I am delighted with the Statement.

I also think, after the remarks made by previous speakers, that in times like these, when the cost of living is so high, it would not be out of place for the Board and the management to consider the advisability of giving a reasonable increase to the staff in the way of salary for their services to carry them safely over the trying times we are passing through. As a stockholder, I would like very much to see that done. I think, too, that I am warranted in saying that by the admirable Statement that has been brought before us to-day. And I have no doubt that you Directors will confer with the management and in that way see if you cannot do something for the general staff in the way of bonus or increase of salary. I have pleasure in moving the resolution.

MR. W. CROCKER.—I have much pleasure in seconding the resolution, and I might say that I feel quite satisfied that the officials have done their duty. I think it would be a good thing, these trying times, to give them a bonus or increase of salary.

THE PRESIDENT.—I may say before I put this motion, that the suggestion made by Mr. Long I am sure would be appreciated by the staff. The question is already under consideration by the Directors and will I am sure result in something satisfactory.

Moved by Mr. Thomas Long, seconded by Mr. W. Crocker, that the thanks of the Shareholders be given to the General Manager, Assistant General Manager and the other officers of the Bank for their attention to the interests of the Bank, and for the efficient performance of their respective duties. (Carried.)

THE PRESIDENT.—I will ask the General Manager to say a word or two, in reference to the staff, in reply.

MR. E. HAY (General Manager).—Ladies and Gentlemen, the President has very considerably suggested a word or two; that suits me exactly. I am not a speech maker, and, when given my choice of making a speech, telling a story or singing a song, I have invariably avoided the speech. Sometimes I have told stories, and you have been very patient in listening. I am puzzled what sort of story to tell you, but Mr. Gage, drawing attention to the glorious fact that I am a Scotsman, and consequently more or less cautious, suggests the story of the Scotsman who was cautious even unto death, and when his wife was dying in Dunfermline she expressed the wish to the good man that, regardless of the cost, her body should be carried back to Ecclefechan, where she hailed from; because, by way of explanation, she assured him, she felt she could not lie quiet in her grave in Dunfermline. Of course, he could not do anything else but acquiesce, and he assured her, “nae matter what the cost would be, if you canna lie quiet in

your grave in Dunfermline, we will tak' ye back to Ecclefechan, but I think we will try ye first in Dunfermline." (Laughter.)

I thank you most sincerely for the vote of thanks to the staff. It comes with regularity every year, but it seems to me heartier each time it is proposed, and I certainly for myself and on behalf of my associates and the staff generally thank you most sincerely for this evidence of your appreciation and goodwill.

I cannot miss the opportunity of mentioning to you those who have left us to serve their country, and I have a memo. of figures which I would like to read.

The number of men on the staff of the Bank at the outbreak of the war was 875, of whom 834 were of an age eligible for military service. Out of this enrolment, 300 men, which is equal to 36 per cent., have volunteered and have enlisted for military and naval service. In addition to these, some 85 youths who were appointed to the staff since the commencement of the war have given up their positions to join the colours—in all, 385 of the Bank's employees, of whom I regret to have to report as many as 27 have been killed in action, 40 others wounded, 3 taken prisoners, and 3 recently reported missing. We have now a total staff of 950, and of this number 300 are ladies. This means that the positions of more than 50 per cent. of those who have enlisted are now being filled by ladies, and it affords me pleasure to be able to say that they are performing their duties quite satisfactorily.

THE PRESIDENT.—I know that the Assistant General Manager, Mr. Moffat, is very reluctant to say anything on occasions of this kind, but, if he would overcome his custom, I am sure the Shareholders would be very much pleased.

MR. MOFFAT.—Mr. President and Gentlemen, I join Mr. Hay in thanking you. He has told about the men that have gone to the front, the employees, and I would like to say something about those who remain. They have not gone

Imperial Bank of Canada

to the front, they have not fought, but they have helped to send others there, and they have done good work, hard work, and apparently have appreciated that they are helping to win the war as well as those who have gone forward. I thank you very much.

THE PRESIDENT.—Mr. Phipps, the Western Superintendent, is here somewhere to-day.

MR. PHIPPS.—Mr. President, Ladies and Gentlemen, I am reluctant to speak in public; at this time more reluctant. I have heard voiced by Mr. Turner and Mr. Long an appreciation of the staff that has the sound of true appreciation about it, and I have also heard the President say that a token of appreciation is being arranged.

I have a loyal and efficient staff of Managers and good staff of men, the most of whom, I may say, are physically unfit or not able to take up arms. I have also a loyal and efficient staff of ladies, and I hope, when any consideration is shown, that the ladies as well as the men in the West will be taken into account.

THE PRESIDENT.—Mr. Black has a motion, I think.

MR. J. C. BLACK.—Mr. Chairman, I beg leave to move that the ballot box be now opened and remain open until two o'clock this day for the receipt of ballot papers for the election of twelve Directors, the poll to close as five minutes shall have elapsed without a vote being tendered.

MR. J. W. BAIN, K.C.—I beg to second that motion. (Carried.)

THE PRESIDENT.—I may say that that ends the proceedings as far as the Shareholders are concerned.

I believe that there is a luncheon, of as wet a nature as the law will permit, in the usual place upstairs, and if you will kindly honour us by partaking of it, the Directors, I am sure, will appreciate it.

Imperial Bank of Canada

The Scrutineers appointed at the meeting reported the following Shareholders duly elected Directors for the ensuing year:—Messrs. Peleg Howland, Elias Rogers, Wm. Ramsay (of Bowland, Stow, Scotland), Cawthra Mulock, Hon. Richard Turner (Quebec), Wm. Hamilton Merritt, M.D. (St. Catharines), W. J. Gage, Sir James Aikins, K.C. (Winnipeg), Hon. W. J. Hanna, M.P.P., John Northway, J. F. Michie, J. W. Woods.

The meeting then adjourned.

At a subsequent meeting of the Directors, Mr. Peleg Howland was re-elected President and Mr. Elias Rogers, Vice-President for the ensuing year.
