

May 9th, 1941

Lt.Col. C.E.Cross,
#1 Neurological Hospital, RCAMC,
Canadian Army Overseas.

Dear Colonel Cross:

I have received the interim reports for January, February and March. I am so glad that the huts are really being built at a rapid pace at last.

You did not say anything about your special fund so I assume that you have all you need for the present. We are just renewing payments for the journals. I suppose you have the ones which you want. Do let us know if you want any change in regard to them. Many people ask about the Unit and we always say that you are moderately busy and making a great reputation, and that the morale is kept up very well.

We are working very hard here at research which we fancy may be of some use to the men who are overseas.

With best regards to all the men,

As ever yours,

WGP/AD
