MONTREAL, Canada.

Dear Dr. Penfield--

I am enclosing copies of three monthly reports.

This is an admission of impromptitude for which I apologise.

The different issues were made late in the month and that of January held to be sent with February's which in turn did not materialize until late in the month of February.

I proposed sending them with Major Baker who should have left early in March but only sailed a few days ago.

Time has been at a premium and Headquarters documents must be in promptly so that it must be night time when these bulletins are born.

We are happy in the hope of your purpose in coming-being fulfilled.

With sincerest respects to Mrs. Penfield and all our friends,

(C.E. Cross) Lt.Col. RCAMC,  
O.C. No. 1 Neurological Hospital,
