No. 1 Can Neurological Hospital

CAO

AIR MAIL

Dear Doctor Penfield,

I have been here now long enough to get an idea of the type of work that is being done. Bill Stewart, much against his will, appeared before a board in another hospital, and has been boarded for Canada. His sinusitis has given him considerable trouble over here, along with a tendency to bronchial infection, and he has a mild vasospasm of the fingers. I am firmly of the opinion that he has been overworking and very often the cooperation has not been very pleasant. What he really needs is fresh air, quiet, sunbathing and a more congenial atmosphere.

From seeing his work over here, I feel he is one of the most promising of your long list of pupils but I hope you will not be cross with me if I seem to interfere. I wonder too, if after a rest, he couldn't be given a fellowship until he can find his footing again. He has been promised a return trip over here if his health improves. He certainly has done an excellent job and despite many trying times has kept his balance throughout, so his hard effort has been certainly sufficient. I have written this on my own initiative, will you please treat it as confidential?

I have sent you a banner for Christmas. I hope you will criticize it severely. I know it still isn't right yet - but Lewis is cooperative in improving it and yet keeping it simple.

With Pearson's greetings

Sincerely,

Harold

As a "kinderden" Kristi's note, I have often wondered if the Canadian purchases some inquiries are being collected and consolidated. I wonder if it is possible to have them stop off in Montreal, at an attached centre, on their way through from the eastern ports. Eventually a combination agreed to that of Forster's again the last year might be forthcoming, and if it is to be done, it would be nice to see it done at the same.
