

March 27th, 1940

Dr. Boris P. Babkin,
Biological Building,
McGill University,
Montreal.

Dear Dr. Babkin:

Enclosed you will find a notice of the dinner which is to be given to the Number 1 Neurological Hospital, R.C.A.M.C. We would like it very much if you would join us in giving this dinner. A charge will be made something in the vicinity of \$3.00 a plate which will cover the dinner and the subsequent supply of beer. Do come if you possibly can.

Yours sincerely,

WGP/AD

Encl.

P.S. There will be some songs after dinner in the usual Neurological Institute manner and the fellows will provide a little entertainment. Would you be willing to bring your balalaika and sing us a song or two? We would appreciate it very much, as we have your companionship and sympathy in previous years. There will be a piano on hand if you would like to have someone play for you.
