

1st June 1929.

Mrs. Madeleine L. Ottman,  
Neurological Institute,  
NEW YORK CITY.

Dear Mrs. Ottman,

It was very good to see you in New York the other day.

I am enclosing the receipt for your cheque of \$1100.

The cheque for \$10,000. which you have given us for research in epilepsy has just been turned over to the University to form "The Madeleine L. Ottman Fund for Research in Epilepsy". I doubt if it is possible for you to realise how much of a help this gift is. We do want to go forward in this research and it is quite a struggle. This will lift us over many of the difficulties and I hope that your generosity will bear fruit of which you will be proud.

Be sure to use Mr. Hackett in any way. His opinion about schools is quite good.

Thank you so much.

Yours very sincerely,

WGP/HL.
