Friday

My dear Gress

How can I ever thank you
enough for all your goodness in this & so
many other incidents in my career as
Dean of our Medical School?

It is wonderful to think too that you & your
Foundation have been willing to select
McGill & Peabody as the opportunity to
forward your ambitions & ideals for
neurology & neurosurgery - God grant
us the necessary power to fulfill

Your desires & our own -
whatever I can do as one link in
the chain, you may count on.

We are placing your official letter
before the Governors on Tuesday
afternoon for official sanction to
proceed. & you will of course get
word at once from them.

This is just a personal word of
appreciation & gratitude.

We will have much to write
about later - but I felt the urge

And you a line at once -
with all good wishes to you & yours & were specially
for the "Joy that cometh with the morning" -

Very Sincerely Yours

W. Martine

P. S. I observed what I am sure is a clerical
error in Miss Thompson's letter - the sum the
contributed by the five viz, 1136000⁰⁰ which should have
read 1000136⁰⁰ - the addition or the subtraction being the
reception of the

Cause of the difference. v. p. 24. of your
statement. I will telephone about it
on Monday morning by which time
I hope also to get good news of your
home.

Yours,
M.D.
