Dr. Wilder Penfield,  
3801 University Street,  
Montreal, Canada.

Dear Wilder:

I did get your invitation when I was on my vacation, and I apologize for not having replied to you. I am afraid I did not realize that the R.S.V.P. was attached, and I was unable to go at the time. I should loved to have gone and I am more pleased than I can tell you to think that the Institute is open, and that you are there running it, and that your Montreal life has been such a happy one. You have done a grand piece of work with your talents, and I love to think of the old times when we used to carry on together.

Do let me know when you come on to New York next time, for I am very anxious to see you.

Give my best to Helen, and I hope you both will have a better winter this year than last.

Yours as always,

*Hugh Auchincloss*
