Montreal, Quebec

Dear Wilder:

I have just returned from my trip, since I attended three other meetings following the one at Montreal.

You certainly are to be congratulated upon the realization and completion of your Neurologic Institute. Mrs. Craig and I counted it a great privilege to attend the dedication of the Institute and greatly appreciated your courteous hospitality extended to us while there.

Adson was quite delighted when I told him about the dedication and the new building. He joins me in wishing you and Cone best wishes and continued success and achievement.

Sincerely yours,

*W. McK. Craig*
