Dr. Wilder Penfield,
The Royal Victoria Hosp.,
Pine Street,
Montreal, Ca.

Dear Wilder:-

We had an interesting and amusing visit from Dr. Maudie and if we had not been very fond of the Penfields, we might have grown tired of hearing her singing your praises. I hope that everything is going satisfactorily and that you can get the lab in good working order. Could I be of any help to Dr. Cone and his wife? I understand that they are living in that part of town which I suggested would be near the hospital. If you have time, I think it would be nice if you could call upon Dr. Shepherd if you have not already been invited to his house. After Osler I suppose he has been about the biggest man at McGill. I know that Dr. Maude Abbott has spoken to him about you.

My cousin Edith Macdonald was also here for a short time and I am very pleased that the two families have met.

We are all well and send love and hope that the mumps have now been deflated.

Yours ever,

Archibald Malloch
