31st Annual Report
of
THE CONFERENCE BOARD

The **NATIONAL INDUSTRIAL CONFERENCE BOARD**

is the oldest research and educational institution for the cooperative study of economic and administrative problems of American business by economists and businessmen. It was founded in 1916 by executives representing twelve branches of industry. Its founders believed that the American voluntary competitive economy, founded on private property and individual liberty, is the one best suited to promote enduring human welfare, and that impartial fact finding and education will keep that system sound and healthy. These principles have been the basis of all the activities of THE CONFERENCE BOARD for thirty years.

The Board is a scientific institution. It assembles, analyzes, tests, explains and disseminates facts on human relations in industry, on business organization and operation, and on the basic structure and development of the national economy.

The Board is an educational institution. It conducts conferences and courses on important economic and industrial management problems. It makes its facilities and publications available, at nominal cost, to governmental departments and agencies, and colleges. It regularly releases its findings to the press.

The Board is a nonprofit institution. It is not endowed, but is supported principally by voluntary contributions and annual subscriptions from large and small business concerns, labor unions, industrial organizations, libraries and individuals.

The Board is a wholly independent institution. It has never been a branch, affiliate, subsidiary, agency or department of any other organization or group, academic, professional, industrial, commercial or political.

The Board is not a government agency. Although it includes appointed representatives of certain government departments and cooperates with government divisions in scientific work, the Board has no political affiliations and does not engage in legislative or political activity of any kind.

The Board is not a trade association or employers' organization. It does not represent the interests of any particular fields or groups. The results of its research are available to persons and organizations in all branches of industry, trade and finance, to educators and other professions, to labor unions and to all who are interested in its work and contribute to its maintenance.

FOREWORD

THIS account of the work of THE CONFERENCE BOARD during its thirty-first year is prefaced with some comments upon the developments of the year made by the President at its Annual Meeting in May, 1947. They should not be taken as criticism of anybody but rather by way of objective and realistic report upon the conditions under which the work of THE CONFERENCE BOARD must be carried on in the days ahead. These conditions impose a much more severe test than ever before upon the capacities of any institution devoted to the purposes of the Board, and upon the qualities of those associated with it. Along with tireless industry and patience in finding and furnishing the facts affecting the economic life of our time and the welfare of our country, they require courage, wisdom and vision in facing the facts ourselves and in fighting the enemies who conceal and distort them. To this task the Officers, Trustees and Staff of the Board rededicate their efforts and aspiration as it begins its thirty-second year, with deep appreciation of the cooperation and support of all who have shared in it in the past, and full confidence in their inspiration and aid for the future.

VIRGIL JORDAN,
President

June, 1947

The Conference Board
and
Its Work

I

"THE MOST MOMENTOUS PERIOD SINCE 1933"¹

TO THE three decades of THE CONFERENCE BOARD's record of service in assembling and supplying trustworthy, timely and useful information on current economic conditions and problems of business management another year has been added through the general research program, the special investigations, publications, conferences, correspondence and contacts with its Associates which are reviewed in the following sections of this Report. The year just past has been in many respects the most momentous period for the future of this country since 1933, yet hardly anybody has seemed to be aware of what happened during the year or of its meaning, as they had been in a lively way of the events of fourteen years before. The outward events of the year were indeed not particularly spectacular, except for the few to be mentioned later, but beneath and behind them there emerged something in the experience of the American people—an inner event that had never before been apparent or credible, though it must have been transpiring or preparing long before. The past year revealed or recorded for the first time in a clear and definite manner a fundamental transformation in their attitude toward government and their relationship to it. There are various ways of describing this change, and the briefest is to take the few outward events of the year referred to and consider what is behind them.

First in importance was the passage of the Atomic Energy Act last fall, and the final confirmation of the Commission established under the Act a few weeks ago. This has lately been called America's most radical law, but the Act is much more than another law and the Commission that administers it is something besides another bureau or agency of government. The preamble makes

¹ Address by Virgil Jordan before the 31st Annual Meeting of the National Industrial Conference Board, at the Waldorf-Astoria Hotel, New York City, May 28, 1947.

the usual profound salaam to free competitive private enterprise, and indeed dedicates the law to its promotion, but the Act definitely marks the end of a free, competitive, private capitalist enterprise economy in this country, if in fact it does not abolish it officially, by establishing an absolute and permanent State monopoly of ownership, operation or control of every resource, process or facility that has any relation to production and use of atomic energy—which means virtually the whole economic system.

It does more than that. It marks the breakdown of our kind of government—a representative parliamentary government of limited powers, by establishing within or outside and above that government another government of unlimited power, practically beyond parliamentary control. You can say, if you like, that this super-government is not the Commission or its personnel, that it is science or the scientist; but anyone who has studied the hearings and debates in Congress and observed its behavior in connection with the framing of the law and the confirmation of the Commission must have been aware that here, for the first time in our history, or in any history, this kind of government—of public representatives, of political experts, of administrative specialists, of lawyers or even economists—was dealing with something in face of which it felt itself helpless and hopelessly incompetent. That something is the hypnotic spell, the mysterious power of secret or esoteric knowledge, which we call modern science, and the superstitious fear of the modern scientist and the unlimited forces he claims to control. In these proceedings this power was brought to bear in a somewhat formally organized way by “pressure” groups of scientists; but that is not so significant as the fact that for the first time the government and Congress in particular were compelled to act under a new and strange sort of blackmail, by intangible forces or facts wholly outside the range of their knowledge and experience, about which they were obliged to take everything for granted on faith.

Nobody has yet been able to think through the full meaning of this event or how it came about. It got very little notice and no interpretation in the press. Hardly anybody, even in business, has read the Atomic Energy Act. Few are aware that it has anything more than purely scientific, technical or military significance; and naturally this ignorance or indifference is not likely to decrease, because information about the Commission’s activities is inherently restricted information. You may consider the whole event as a sort of natural catastrophe, or an act of God—science being the

Deity in this case, because the atomic bomb is a fact that neither government nor business nor even science can now do anything about, since it has been created. In the law and the Commission certain arrangements have been made for dealing with it, essentially by taking it out of the hands of the military and turning it over to the scientists, but without very much confidence on anybody's part that they will work as anticipated. Unless we expect that the outcome may be to reconvert most of us into electrons one of these days, it might be supposed that we would be concerned about what these arrangements imply for the future of our economic system and our political institutions—or at least be interested in the matter, even if we felt there was nothing else to do about it.

The most significant thing about this event of the past year is that almost nobody noticed it. The most revolutionary legislation in our history was adopted—for whatever compelling or sufficient reasons—and was not only universally accepted, but hardly anyone among the American people was aware of it. This fact tells us little or nothing about the legislation or the reasons for it, but it should tell us something important about the attitude of the American people toward a free economy and limited government. Even the debates in Congress on the matter were revealing in that respect. Except in a few notable instances they expressed less concern about the economic and political implications of the law than they did resentment or frustration at being bullied by the scientific voodoo to which Congress and its committees were subjected—subjected not deliberately or intentionally, but by the sheer nature and circumstances of the situation. It was painfully plain that if the American people and their parliamentary representatives have any preference or prejudice for a free economy and a government of limited powers, it was not strong enough to stand up against the spell of modern science, which has become the new totalitarian or authoritarian force of our time, competing for power with the politician, as business and labor did before, until both became captives of the State. The concept of economic and political freedom simply collapsed, not so much under the impact of the atomic bomb as under the force of a faith that was stronger than its faith in itself.

The Atomic Energy Act was the most striking and important among the events of the past year, but there were others that have much the same meaning. Foreign developments in this direction by now are sufficiently familiar, since during the year

practically every trace of free economy disappeared from Europe, and absolute government in one form or another—ours and others—reigns supreme over the wreckage it wrought in the war. In England, as always happens, the collectivist movement has already entered its malignant phase, where the destructive consequences of each new extension of collectivization no longer serve to cure or curb the process but only drive government further along the road in a kind of desperate fatalism. Certainly during the past year there has been no evidence that their experience under collectivism since they embraced it has made the British people want to retreat, or has even taught them very much about it, while on the Continent the signs of a slowing up of the march of Communism have not been convincing.

It is doubtful, too, whether the object lesson of British and European experience has made a very wide impression or has been very deeply absorbed among the American people. So far as our foreign lending and relief policy expressed in the Truman Doctrine really rested on resistance to the spread of collectivism abroad, it has had a very mixed reception here; but it is much more an expression of the collectivist trend of thought here than of opposition to it abroad, because it is in such large measure merely a global extension of the basic New Deal program of sustaining prices, employment and consumption at home by public spending.

A more important reason for doubt about the effectiveness of our education in the European school of collectivist experience is that economic and political developments in this country during the past year have pointed so steadily and definitely toward continued drift in the same direction. Without reviewing them in detail, this has been a year in which, on balance, the principle and practice of the free economy and limited government have lost ground more rapidly than for a long time, and most of this loss has been at the hands of its friends, rather than of its enemies.

Before the election last November some of the wartime price and other controls were suspended in a sort of panic, under pressure of what appeared to be a swing of public opinion against them. Beneath the surface of strikes and wage increases a substantial postwar deflation began in 1946, and the process of scaling down the wartime levels of governmentally supported production and consumption to more nearly self-supporting peacetime levels got under way last fall. During the past six months government, labor and business have been trying more and more to prevent this

process, and at the moment it seems to have been stopped, or postponed. In fact the suspension of the war has been treated by all groups as a kind of economic or political catastrophe, and all efforts have been directed in one way or another to maintain or restore wartime levels of production, consumption, prices and wages. Since the election of a Republican majority, Congress has been increasingly unable or unwilling to undertake the demobilization of overgrown wartime government, to shrink its powers and functions affecting the free market to anything resembling normal proportions, to make any material reduction in the expenditures and taxation by which the governmental mammoth is fed, or to curb in any substantial way the lethal powers of governmentally supported labor monopoly over the economy. In fact it is safe to forecast that none of these things will be done. Deflation, readjustment, reconversion from a war boom to an ordinary peace economy have been proved during the past year to be something that neither modern government nor business nor labor is able or willing to endure. The only kind of public policy they can contemplate or tolerate is that of maintaining a one-way boom by continuous inflation, and there is no effective opposition to this drift of policy from any source, present or prospective. The important fact to note is that all measures looking toward further expansion of governmental action, expenditure and power have in one respect or another substantial support from businessmen or organizations, and that the most active and probably the most effective opposition to proposals for budget cuts by the current Congress have come from business groups, some of whom have even been mobilized by government officials to protest reductions in appropriations for bureaus that have burdened them for years.

When you consider the course of events in the past year and the behavior of business, labor and the Republican majority in government in connection with price and wage policy, taxation, spending, labor legislation, foreign lending, it seems obvious that ours has become a governmentally dominated, if not wholly managed economy, in which government control of a large and increasing part of the income, production, expenditure, consumption and saving of the community is now the determining factor in business policy, business thinking and economic conditions. All groups, including business management, have become dependent upon these and other governmental activities designed to underwrite and determine the market for goods and services, and none, in-

cluding business, can contemplate any material curtailment in them. The growth of government and its administration of the market can be blamed on the depression and the war, but the important thing is that the underlying ideas—the ideas that government has the responsibility and the capacity to maintain consumer purchasing power and underwrite the market, at home and abroad, are unconsciously or consciously accepted by almost everybody in America today, and no less by business than by anybody else. This has been true for some time, but what has happened in the past year has made it more unmistakably plain than ever before. There is scarcely anyone in the business community today who cares or dares to question them, and there are now so many proponents and expounders of them among business organizations and in the business press that it is possible to arrange business opinion, individual and organized, in a kind of collectivist color-spectrum ranging from the ultra-violet to infra-red. The London *Economist* lately complained about a similar situation in England, saying in its issue of April 26:

The fact is that British industrialists . . . have become distinguishable from British Socialists only by the fact that they still believe in private profits. Both believe in “organizing” industry; both believe in protecting it, when organized, against any competition, either from foreigners or from native newcomers; both believe in standard prices for what they sell; both unite in condemning competition, the one as “wasteful” the other as “destructive.” If free, competitive, private-enterprise capitalism is to continue to exist, not throughout the national economy, but in any part of it, then it needs rescuing from the capitalists fully as much as from the Socialists.

Acceptance or endorsement of the basic ideas of compulsory collectivism by American business has been a great handicap to it in whatever opposition or protest it has expressed against any of the measures in which these ideas have been implemented by Congress. A still greater handicap has been the apparent prosperity which the pursuance of these policies during and before the war seemed to produce, despite all the warnings of the disaster which business and its prophets of free enterprise forecast as their inescapably ultimate consequence. Because of these policies the country might be blithely going to hell; but meanwhile most of the people in it seemed to be better off, and during the past year it has been particularly hard for business to make a persuasive or appealing case to the public against the labor, taxation, public spending,

wage and price policies or any other error or evil of government action in face of the production and employment records or the corporate profit and loss statements of the period.

Some may suspect that so far as business is concerned a considerable part of this prosperity is an illusion, created by inventory inflation or born of markets still supported or doped up by government spending, and that it conceals a steady and large-scale consumption of the capital of the company or of the community. But whether or not business believes in the reality of profits—and current competition among executives in presenting good earnings statements suggests that it still mostly does—the public certainly takes them at their face value and is not convinced that policies which contemplate continuous dissipation of capital through spending by labor or government at home or abroad can be very unsound or damaging to the national prosperity. It is commonly said—notably these days in support of our foreign loan and relief policy as a means of preventing the spread of collectivism abroad—that it is a product of poverty; but here in America we are witnessing the paradox of collectivism feeding upon prosperity, or on the appearance of it. It does not matter that this prosperity may be an illusion, produced by the most prodigious inflation of the money supply by government ever seen; the important fact is that every group wants to have it sustained, and believes it can be sustained by more of the same medicine. This underlying thought was expressed during the year in every policy of government and labor, and in many policies of business. It will furnish the key to most of the future.

Those who have been fighting for so many years to preserve a free economy and limited government in this country, and who have assumed too much that it was a simple problem of preaching a gospel to the unbeliever or carrying information to the ignorant must need ponder these events of the past year. The case for these inseparable principles is as good as it ever was, and probably even better by reason of the dramatic demonstration of the evils of compulsory collectivism which events abroad have given since the war. Its intellectual basis has been so fully stated again and again, and the lessons of experience have been so amply expounded during the past fifteen years since THE CONFERENCE BOARD started the great debate on the subject that there is almost nothing left to be said on it. Those who have been beating the drums of jeopardy can do little more than repeat the familiar phrases and formulas of exhortation or exposition or compile

monumental explanations of the merits of the free economy that begin to resemble memorial pyramids or statistical tombstones on which we occasionally lay rhetorical wreaths for remembrance of things past. The persistent progress of the practices of compulsory collectivism and the steadily spreading acceptance of its principles during the past decade, despite all of this preaching of the gospel, makes it plain that free enterprise has made few converts, and the evidence of events is that there have been many backsliders among the faithful even in the business community. Some forces more powerful than reason have been at work, and those who feel that the disbelievers and the deserters are following the road not merely to serfdom but to poverty should begin to face this fact and take its full measure. We have assumed that in this country, at least, we have drifted into the practice of collectivism, without accepting its principles, mainly through accident, ignorance or indifference, or perhaps in some degree by design of domestic or foreign conspiracy, and that there is among the American people as a whole a deep-rooted attachment to the idea of limited government which will make them defend a free economy when and if they know it is endangered. In view of what has happened during the past year, we cannot any longer be so sure of that, and must begin to adjust ourselves to the idea that a considerable part, perhaps most, of the people in this country today have accepted or are willing to accept collectivist principle and practice as necessary or preferable, or inevitable.

What counsel of policy such a conclusion would lead to, this is not the time or place to discuss. It is certainly not a counsel of despair; it does not advise surrender where victory is delayed; least of all does it justify in the conduct or ideas of the business community any defections or deviations from the conditions and standards that are indispensable for the preservation of a free economy. Rather it constitutes a renewed challenge to all institutions concerned for its preservation to view the events involving the issue more realistically and to study the problem of dealing with them much more closely than we have been doing in the past.

II

THE CONFERENCE BOARD'S WORK

Before presenting the detailed account of work done by THE CONFERENCE BOARD during the past year and its plans for the year to come, it may be appropriate to review briefly the principles on which the Board has, for thirty-one years, based its conference, research and educational activities.

The essential objective of THE CONFERENCE BOARD is to ascertain the trustworthy and significant facts of economic and management experience, to test their validity, to explain their significance, to make them understood by business management through constant mutual contact and conference, and to publish them, so that the public, government officials, and legislators may likewise understand them. THE CONFERENCE BOARD holds that knowledge of facts and understanding of their significance by business management, investors, workers, legislators, and the public are of supreme importance to economic progress. It believes that honest effort to ascertain facts, explain their meaning, and promote general understanding of them will ultimately lead to sound private and public policy.

PRINCIPLES OF THE BOARD'S WORK

Scrupulous preservation of scientific objectivity, and avoidance of association with partisan organizations or political movements, is the first of the fundamental principles upon which the organization and the work of the Board have been based.

The second basic principle upon which the Board proceeds is that of the supreme importance to the public welfare of protecting, strengthening, and developing the organization of voluntary productive enterprise in the United States.

Its existence and activities are based upon the principle that the advancement, expansion, and effective operation of the productive enterprise of the nation are the primary and indispensable conditions of social welfare and national progress; and that the essential

function of government is to maintain conditions that promote and foster the development of the voluntary enterprise organization and the productive resources of the community.

The third basic principle upon which the Board operates is that of emphasizing and promoting the coordination of American enterprise as a whole for intelligent management and control of its own affairs. The Board believes that in our complex, constantly changing, and rapidly developing industrial society the management of business enterprise on the basis of knowledge, understanding, and coordinated effort is indispensable for stable economic progress. It believes that this task must be performed by the enterprise organization itself and cannot be left to government employees.

The fourth essential principle behind the Board's work is its emphasis on the value and necessity of combining scientific or technical research with practical experience and judgment of industrial and business executives who have spent many years dealing with specific, concrete problems of management in their own enterprises. The Board's work is based upon the belief that neither academic investigation nor practical business experience can stand alone and separate in face of the complex problems arising in the rapid development of our modern economic system. Both for successful practical procedure in dealing with problems of management and for sound public policies affecting business, a combination of these elements is necessary. This combination, which is embodied in the organization and activities of THE CONFERENCE BOARD, makes it a unique institution in American business and professional life.

A. THE BOARD'S RESEARCH PROGRAM

THE CONFERENCE BOARD during the past year has devoted a considerable portion of its income and facilities to basic economic studies of the interrelationships which exist between wages, investment, productivity, prices, and profits. Other important subjects on which research has been undertaken and reports published include national resources, community relations, labor relations, and social and individual security. At the same time, the Board has continued and, in some cases, expanded its research on business conditions, foreign trade, employment, wage payments and consumers' price trends. Studies of practical problems relating to manufacturing and distributing techniques, corporate organi-

zation and administrative policy have been released during the year.

As a part of the program for expanding its work in the field of basic economic research and education, the Board during the past year has organized The Conference Board Economic Forum, a group of outstanding economists who meet from time to time with invited experts on the subject under consideration to discuss a wide diversity of economic problems of high current interest. The proceedings of these sessions, under the title "An Evening with the Economists," are sent to all Associates of the Board, and are made generally available to the public at a nominal cost. During the first year of its existence, The Economic Forum held five meetings on the following subjects: "What If Prices Were Free?" "Will the Guaranteed Annual Wage Work?" "Full Employment and Scarcity," "The Business Outlook for 1947," and "The 'Miracle' of Productivity."

Publication of *American Affairs Pamphlets* has been continued during the year. These pamphlets offer the considered opinions of authors usually not connected in any way with THE CONFERENCE BOARD on important questions of the day and are available not only to Associates of the Board, but to the general public. The four pamphlets published during the past year were: "The Money Torrent and the Fifth Horseman," by W. Homer Turner, "Is an International Society Possible?" by Isaiah Bowman, "The Law of Labor," by Murray T. Quigg, and "One Year After," by Virgil Jordan.

One of the Board's major research projects was brought to a close during the year by the publication of "The Petroleum Almanac," a book of more than four hundred tables providing the most comprehensive collection of data ever made for the petroleum industry, which is so basic to the national economy and so vital to effective mobilization of national resources in any period of emergency. Among other important material, the Almanac provides statistical data showing the economic significance of the petroleum industry and its place in the nation's productive and distributive structure.

The Board has been fortunate during the past year in obtaining special sponsorship for many important projects of great importance and of wide general interest which would not have been possible within the limitations of its regular income from subscriptions and contributions. Most important of these were a study of the "Economics of the Cotton Textile Industry," sponsored by

The American Cotton Manufacturers Association; a report on the "Wage Problems of the Northern Cotton Textile Industry," prepared for The Northern Cotton Textile Research Committee; a chart book on "Profits in the National Economy," underwritten in part by the American Iron and Steel Institute; and a comprehensive study of "Compulsory Sickness Compensation for New York State," prepared for the Associated Industries of New York State, Inc. A series of seven monographs has been prepared on the general subject of Individual and Collective Security, and one of these will be published each month during the remainder of the current calendar year. These studies, described in some detail in the report of work of the Division of Business Economics, were made possible by a research grant made to the Board late in 1945 by the William Volker Charities Fund.

THE DIVISION OF BUSINESS ECONOMICS

The major concern of the Division of Business Economics during the past year has been the analysis of current economic problems. Much of its time and energy was devoted to providing organized, factual information on such involved problems as price control, monopoly and integration, patterns of consumer spending and saving, federal debt and taxes, trends in productivity and the role of the stock market. Its analysis of "Implications of Declining Prices" attracted national attention. Many of its studies, published in full in *The Conference Board Business Record*, were the equivalent in research content to full-scale reports.

Requests for basic information about current conditions have come not only from business but from educational institutions, labor, government, the press and, in increasing number, from individuals. Public interest in economic facts continues to be strong. As a result, the research program of the Division for the coming year provides for an even larger allocation of time and research resources to further exploration of controversial economic issues in *The Conference Board Business Record*.

So vital a role is played by economic facts, figures and theories in policy making that THE CONFERENCE BOARD will undertake in the coming year, to a greater extent than it has recently, the appraisal of economic data submitted in support of proposed policies. Labor, in particular, has devoted an increasing proportion of space in its publications to the education of its membership on economic matters. Under the subject heading, "Economic Fact or Fiction," the Board will regularly examine, for the benefit of its Associates,

statistics and theories presented by the press, by government and in professional journals. Among the subjects already assigned for appraisal are these questions:

How warranted is the thesis cited increasingly by labor and government economists that the depression of the Thirties resulted primarily from the lack of purchasing power?

Are wages only a minor fraction of selling price? Does it follow that, where wages form only a small part of the final price of a given commodity, wage increases can be more readily absorbed?

Does the wage earner exempt from income taxes, or paying only a small amount of income taxes, bear a high or low proportion of the total tax burden?

Is it true that wartime savings were concentrated primarily among relatively few families in the top income brackets?

The bulk of the items to be examined, however, will be drawn primarily from current publications. Associates of the Board who encounter statistics which seem dubious, or who are confronted with economic arguments which appear to be questionable, are invited to bring such material to the attention of THE CONFERENCE BOARD. Reprints of this new Board feature in convenient pocket size can be made available to Board Associates.

Long-range Research

In addition to its analytical treatment of immediate economic problems, the Division of Business Economics has prepared a steady flow of monographs and research reports during 1946-1947. The six "Studies in Business Economics" published during the past year, for example, form permanent additions to the business bookshelf. The topics covered in them ranged from "Deflation or Inflation?," published in April, 1946, to "The Business Outlook for 1947," a widely cited review of factors influencing the course of business this year. A chart study of "Profits in the National Economy" offered a preview of the results of the Board's long-term research in this relatively unexplored field. Noteworthy, too, was one of the most comprehensive studies ever prepared by the Board, dealing with "Compulsory Sickness Compensation for New York State." Other reports of special interest were: "Wage Problems of the Northern Cotton Textile Industry"; a series of studies exploring "Growth Patterns of Industry"; and further additions to the series of detailed industrial studies entitled "Basic Industrial Data for Investment Analysis."

Three other major fields of long-term investigation which will

continue to absorb much of the Division's attention during the coming year are: Social Security; Minimum Wages; and Concepts and Functions of Profits. These are outlined briefly in the following paragraphs.

Studies in Individual and Collective Security

The social security program has expanded in all directions and in all dimensions since it was first introduced about a decade ago as a modest form of protection for the aged, the unprotected young and the infirm. Today it is conceded that social security measures embrace all public programs directed toward the maintenance of adequate income.

The series of "Studies in Individual and Collective Security," to be published in the months immediately ahead, direct attention to the virtually unnoticed growth of voluntary forms of protection during the very years in which social security plans have mushroomed. These studies were made possible by a grant from the William Volker Charities Fund. Nationally known authorities have contributed to the series. Col. H. Ladd Plumley, of the State Mutual Life Assurance Company, discusses, "Budgeting the Costs of Illness." Professor Earl E. Muntz, of New York University, analyzes the growth of social security in the United States. Dr. Walter Sulzbach surveys foreign experience with social security. Dr. Elizabeth Wilson explores national health taxes such as those proposed under the Wagner-Murray-Dingell Bill. Mr. John W. Scoville reviews the economics of savings, particularly the Keynesian doctrines. Mr. Henry W. Steinhaus, of the Equitable Life Assurance Society, and Martin R. Gainsbrugh jointly present a study of "The Problems of an Aging Society."

Minimum Wage

Increases in wage minima have a direct impact not only on the wage structure of the industry in question, but upon all industries. President Truman has again asked for a new national minimum of 65c an hour. In Ohio an hourly minimum of 75c is proposed for all employees twenty years of age or over, working for one employer more than twenty hours a week, except domestic servants. On June 1, California adopted the highest minimum wage in the retail industry.

A study being prepared by the Division will review the shift in the minimum wage from its initial purpose as a weapon against sweating of labor to its present use to accomplish a redistribution

of income and leverage upon wage structures. Various minimum budgets are examined and attention directed to the degree by which they depart from earlier concepts.

Uses and Functions of Profits

Parts of this investigation have already been published in the chart book, "Profits in the National Economy," and in special articles in *The Business Record*. Through these, and the work of others, current profits have been placed in their proper perspective and dimensions. The present research project of the Division of Business Economics is concerned with the purposes of profits and the uses to which they are put. A survey of the treatment of profits in economic theory, ranging from Adam Smith to the most current economic texts, has been completed.

The dynamic function of profits, particularly in the creation of jobs, is being explored. An analysis of profits for 1946, for example, suggests that industry actually had little untapped or idle profits in that year. Surplus had been substantially transformed into inventories, working capital, expansion of plant or into reserves to meet the cost of replacement of machinery and plant at a higher postwar price level.

Work continues also on Basic Industrial Data for Investment Analysis, and it is planned by the year's end to have a skeletonized Almanac for twenty-five of the nation's major industries. This project has the active support of more than twenty-five banks and investment institutions in the New York metropolitan area.

THE DIVISION OF BUSINESS PRACTICES

Publication of a report on "Industrial Standardization," hailed by authorities on standards as an outstanding contribution to the field, marked the close of the Division's research for the past fiscal year. This report is typical of the Division's work in providing industry with practical guidance in a wide area of management activity. At the same time, the broad educational responsibilities of its work have been kept in mind.

The Division's first report of the year, "Organization Standards and Practices," was an analysis of the organization of twenty-four large and fifteen medium-sized corporations. The basic principles of organization were studied and reviewed. As a result of the experience gained in studying corporate organization, the Division was asked to assist an important branch of the Federal Government in reorganizing its operations along established business

lines. Other major reports completed in the year include "Organization for Market Research," an extensive analysis of the organization and operating methods of over fifty marketing research departments in industry and retail trade; "Industry's Community Relations," a study of the methods used by companies to create and maintain the interest and good will of people in their plant towns; "The Small Order—Asset or Liability?", a report on the problems of coping with small and costly orders and a description of the means used by over a hundred companies to control them. As the year closed, work had virtually been completed on a study of "Organization for Exporting," which reviews current-day foreign sales practices. This will be the first of the Division's studies to be published in the new fiscal year.

In addition to these major studies, the Division has continued its regular monthly Surveys of Business Practices, which in the past year have summarized the opinions and outlook of several hundred top executives on twelve timely topics:

Postwar Trends in Corporate Giving
Postwar Model of Transportation
Industry Growth Through Research
Keeping Employees Informed
Executives Look at '47
The Fight for Higher Wages
Inventories Unbalanced by Shortages
Cost-Price Squeeze
Productivity: Conflicting Story
Trends in Advertising
Sales Forces Readied for Buyers' Market
Orders Accumulate As Production Lags

The members of the Division have continued to render information service to Associates on a wide variety of subjects, have prepared special articles for publication in *The Conference Board Business Record*, and have organized and directed a number of conferences on important business problems.

During the past year the Division of Business Practices continued to meet periodically with its two special advisory groups, one concerned with marketing research and the other with corporate donations policies. These regular meetings provide an opportunity for an exchange of views and information on topics of common interest and keep the Staff abreast of current developments in each field.

In the year ahead, the Division plans to continue its studies in the field of marketing by the preparation of reports on "Sales

Forecasting" and on "Measuring Sales Performance." Both studies, like all the work of the Division, will include an analysis of the practices currently used in commerce and industry.

"Keeping Corporate Directors Informed" will be a study of the methods in use by nearly a hundred companies to keep directors abreast of company developments and thus to make them better able to determine matters of corporate policy.

"Functions and Compensation of Sales Executives" will represent an attempt to extend further the Division's work in the field of organization and compensation. Previous Conference Board studies have analyzed the aggregate remuneration of the top management group, but no study has ever been made of the compensation of specific executive positions. If it is found possible to develop useful data on the duties and compensation of the sales executive, the studies will be expanded to cover other major company executives.

A sequel to "Organization for Exporting" will be "Organization for Importing." Since our foreign loans must be repaid in goods, the need for imports has never been greater than it is today. This projected study will describe the organization and operating methods of import departments and will describe their role in utilizing the exchange accumulated from foreign sales.

A topic of vital concern today, private vs. governmental support and control of our educational institutions, will be touched upon when the Division embarks upon its study of "Industry Cooperation with Education." Many of those who are alarmed by the decline of private support of colleges look to corporate support as a possible salvation from governmental control. The Division's study will cover the various methods by which industry is currently cooperating with education, and will touch upon such matters as fellowships and research grants, scholarships, teaching aids, contributions, and active participation of company executives and technicians in school activities.

In the next year it is expected that two new fields will be opened through studies by the Division of Business Practices on "Pricing Policies" and "Industrial Decentralization." Research in pricing arises from repeated demands for greater information about methods actually used by successful companies in pricing products for maximum profits and stability of operation. An effort will be made to learn the basis of industrial pricing and to review examples of sound practice. The second study encompasses an old subject, the interest in which, however, has increased greatly.

What industry is thinking and doing about decentralization will form the basis of the report.

THE MANAGEMENT RESEARCH DIVISION

Sufficient time has now elapsed to be able to make a reasonably accurate appraisal of the numerous predictions made during World War II that personnel activities in American industry would decline sharply at the conclusion of hostilities. Contrary to these predictions, it is safe to say that at no time has there been such widespread and eager interest in methods and techniques for improving relations between the employer and the worker. While it is true that the personnel departments in many companies which expanded rapidly for war production and later contracted drastically for peacetime operation have been forced to limit or, in some cases, eliminate many of their former activities, the general trend appears to be a broadening as well as a greater intensification of personnel functions. One of the most significant indications of this trend is the constant stream of inquiries relating to personnel problems that is directed to the Management Research Division in the form of personal visits, correspondence, telegrams and long distance telephone calls. During the past year, therefore, the Management Research Division, while continuing to concentrate its entire attention on the day-to-day operating problems that center primarily about human relations in business, has been forced to divide its time almost equally between furnishing information in response to individual requests and preparing its research reports.

In addition to the many special articles and continuing studies appearing monthly in *The Conference Board Management Record*, the following major reports were published during the past fiscal year:

- Vacation and Holiday Practices
- Annual Wage and Employment Guarantee Plans
- Survey of Clerical Salary Rates Paid in April, 1946
- Techniques of Conference Leadership
- Music in Factories and Offices
- Analysis of Collective Bargaining Agreements in 17 Industries
- Survey of Clerical Salary Rates Paid in October, 1946
- Written Statements of Personnel Policy

The research program of the Division has been scheduled so that a number of projects will be published early in the new fiscal year. Nearing completion is a comprehensive study of the methods

and media that a large number of companies have found successful in improving communication within the management group. The report will cover these methods in considerable detail and will, in addition, reproduce a number of company forms, outlines and special media.

The rebuilding and reorganization of companies' sales departments have been accompanied by a widespread need for reliable and up-to-date information concerning methods of compensating salesmen. In an effort to meet this need, THE CONFERENCE BOARD has conducted a comprehensive and exhaustive study of the sales compensation practices in approximately 450 companies in the United States and Canada. The data, analyzed by type of business, include the entire area of personnel practices that are related to the complex problem of arriving at a satisfactory sales compensation plan.

Many developments have taken place in the field of psychological testing since the publication during the early stages of the war of the Board's report, "Experiences with Employment Tests." While little change has occurred in the fundamental principles for setting up and administering a sound and effective testing program, new types of tests have emerged and additional experience has been gained in the application of older tests. The Division is accordingly now engaged in preparing a report, based upon the experience of more than 500 companies, that will provide a description and analysis of a number of widely used tests. It will also include detailed accounts of a number of testing programs in specific companies.

"What do employees want?" "What factor has the greatest effect on the employee's attitude toward his job and company?" These questions often trouble the minds of policy-making executives. The answers are not easy. Although the questions are complex and the research techniques more than usually difficult, the Management Research Division is nearing completion of a study of employee morale that will provide at least partial answers. It is based largely on a list, of approximately seventy factors, that was submitted to employees in six companies. The employees were asked to select the factors which they believed to be most important to them. The study will be published during the coming summer.

During the fall, two reports that complement each other will be ready for publication. One is a study of experience with wage incentives for factory workers in more than 300 companies; the

other is a survey of experience with profit-sharing plans, active and discontinued, to determine how effective this incentive has been in accomplishing its objectives. Reasons for the discontinuance of a large number of plans will be analyzed.

Other projects that will be completed during the coming fiscal year include a broad survey of company educational facilities and activities; an analysis of methods used in recruiting, selecting and training college graduates; a report that will show the types of personnel records and forms being used by representative companies, with a commentary indicating the methods and reasons for their use; a comprehensive survey of company medical and health programs; a survey of current personnel practices in approximately 2,000 companies; and numerous minor projects, the results of which will be published in the monthly *Management Record*.

During the coming year, the Management Research Division will continue to concern itself with those problems and techniques of factory and office that center primarily about human relations. Its chief aim, as before, will be to help toward the maximum utilization of America's vast manufacturing potential by making available accurate and timely information about methods for dealing with the practical problems of personnel administration.

THE STATISTICAL DIVISION

The basic work program of this Division is divided into three main categories—internal service, regular statistical research, and special projects.

The service function includes meeting all the regular statistical computing, verification, charting, and clerical requirements for the other Divisions. In addition, when other Divisions undertake extensive research projects which involve the compilation and presentation of large masses of statistics, the Statistical Division acts as a consultant on forms and procedures and performs all tasks relating to the assembly, compilation and charting of the data.

The regular statistical research function covers the preparation, augmentation, verification and interpretation of many continuing series of statistical data. These long-term series measure trends affecting labor and afford not only current measures but also comparisons with the past. Included among these measures are a number of Conference Board "firsts," such as the cost of living index for the United States (now called the consumers' price index), the series for manufacturing industries on hourly earnings

and hours worked, and surveys of clerical salaries in twenty cities. Regular compilations of statistical series from original survey sources are as follows:

- Earnings and Hours in 29 Manufacturing Industries (monthly)
- Earnings and Hours in the Production and Distribution of Gas and Electricity (semiannually)
- Clerical Salary Rates for 13 Jobs in 20 Cities (semiannually)
- Consumers' Price Index for the United States and 66 Individual Cities (monthly)

Additional series derived from published sources are:

- Earnings and Hours on Class I Railroads (monthly)
- Wage Rates of Hired Farm Labor (quarterly)

These data are regularly published in detail in *The Conference Board Management Record*. They also appear in abridged form in *The Conference Board Business Record*, in "The Management Almanac," in "The Economic Almanac," and in many outside publications, such as *The Survey of Current Business* (United States Department of Commerce).

The Division also undertakes occasional special research projects in labor statistics for Subscribing Associates where the field of interest is sufficiently broad and where time and personnel can be made available to conduct them. These cover many aspects of the field, and may be illustrated as follows:

- Consumers' Price Indexes for Cities for which No Indexes Are Currently Published
- Studies of Family Expenditure Habits
- Measurement of Comparative Living Costs Between Localities or Countries
- Compilation of Special-purpose Retail Price Indexes
- Special Analyses of Wage Data to Provide Information by Industries or by Geographical Localities

B. PUBLICATIONS IN THE FISCAL YEAR 1946-1947

During the fiscal year 1946-1947, THE CONFERENCE BOARD issued to its Associates 243 publications, including:

- 6 books
- 2 Chart Books
- 12 research reports
- 24 issues of regular monthly publications
- 4 issues of American Affairs
- 4 American Affairs Pamphlets
- 5 Studies in Business Economics
- 12 Industry Record studies

- 1 Industry Report
- 9 Basic Data for Investment Analysis
- 52 Road Maps of Industry
- 52 Desk Sheets of Current Business Indications
- 4 Lists of Publications and Indexes
- 52 Previews
- 4 Preview Supplements

The above list does not include special services to cooperators and committee members. These number:

- 36 issues of monthly reports for cooperators
- 24 special studies

The Board has endeavored to supply its Associates with information helpful in their operations under postwar conditions, with increasing attention to prices, wage problems, inflation, reemployment, distribution, and the multitude of problems that confront business in the period of readjustment.

BOOKS, PAMPHLETS AND REPORTS

Books

- Compulsory Sickness Compensation for New York State
- The Economic Almanac for 1946-47
- Economics of the Cotton Textile Industry
- The Management Almanac for 1946
- The Petroleum Almanac
- Thirtieth Annual Report of THE CONFERENCE BOARD

Chart Books

- Productivity and Progress
- Profits in the National Economy

Indexes and Lists

- Annual Index to *The Business Record* (in Vol. III, No. 12)
- Annual Index to *The Management Record* (in Vol. VIII, No. 12)
- Annual List of *Road Maps of Industry*
- List of Current Publications, March 1, 1947

Studies in Business Economics

- The Business Outlook for 1947
- Full Employment and Scarcity
- Union Health and Welfare Funds
- What If Prices Were Free?
- Will the Guaranteed Annual Wage Work?

Studies in Business Policy

- Industry's Community Relations
- Organization for Market Research (Part II: Operating Methods and Company Plans)
- Organization Standards and Practices
- Price Protection in Contracts
- The Small Order—Asset or Liability?

Studies in Personnel Policy

- Annual Wage and Employment Guarantee Plans
- Clerical Salary Survey of Rates Paid, October, 1945
- Music in Industry
- Techniques of Conference Leadership
- Vacation and Holiday Practices
- Written Statements of Personnel Policy

American Affairs Pamphlets

- Is an International Society Possible?
- The Law of Labor
- The Money Torrent and The Fifth Horseman
- One Year After

Previews Supplements

- An International Trade Organization
- Farm Price Supports: Facts and Fiction
- The International Bank
- Why Are Food Prices High?

Basic Data for Investment Analysis

- Building Materials
- Containers
- Copper
- Office Machines
- Retail Trade I, Grocery and Variety Stores
- Retail Trade II, Total Retail Trade, Department Stores, Mail Order Houses
- Tires and Rubber
- Tobacco I, Aspects of Tobacco Industry—Cigarettes
- Tobacco II, Tobacco Products Excepting Cigarettes

Miscellaneous

- Analysis of Clauses in 272 Union Contracts in Force During 1946 and 1947, Covering 17 Industries
- Wage Problems of the Northern Cotton Textile Industry

 591 Savings by Individuals, United States, 1940-1946

CHARTS

In addition to the regular weekly *Road Maps of Industry* and the charts in all Conference Board publications, the Chart Department during the past fiscal year provided special-purpose charts at the request of individual subscribers. The following new Wall Charts were issued; many were brought up to date, and a number of the older charts were redesigned.

- 233 Prices and Wages After World Wars I and II
 234 Home Ownership, 1890-1945
 235 Types of Governments in Europe, 1946
 236 Prevailing Organizational Status of Principal Departments in 24 Large Companies
 237 Political Composition of the Congress, 1919-1947
 238 Federal Civilian Employment, 1919-1945
 239 Political Composition of the House of Representatives, 1947
 240 Political Composition of the Senate, 1947
 241 Fees to Nonemployee Directors, 1938 and 1945
 242 Annual Payments to Directors, 1938 and 1945
 243 Percentage of Net Sales Paid to Officers, Average 1931-1941 and 1941, by Industries
 244 Percentage of Net Sales Paid to Officers, 1941, by Size of Assets
 245 The House of Representatives and Industrial Production, 1913-1947
 246 Economic Experience of the American Population
 247 Private Residential Building, Excluding Farm—1939, 1941, 1946
 248 Consumer Expenditures and Savings, 1929-1946
 249 Union Contract Clauses, 1946-1947

C. CONFERENCE ACTIVITIES

During the fiscal year 1946-1947, the Board followed its custom of many years by devoting five of its regular meetings to open sessions for Members, Associates and their guests and arranging four closed sessions attended mainly by Members of the Governing Body. For the first time since before the war, one of the general sessions was held in Chicago for the convenience of the Board's Associates in the Middle West.

Because of the serious economic and financial dislocations and the ideological complications that have arisen in Europe and Asia as a result of World War II, considerable emphasis was placed on

discussions of foreign trade, foreign lending and America's position among the nations of the world. This portion of the Board's conference program culminated in a general session on "Mobilizing for World Leadership" at the 288th Regular, or 31st Annual Meeting of THE CONFERENCE BOARD, on May 28, 1947. For distribution at this Meeting, the Board prepared a special chart book on "America's Resources for World Leadership."

In addition to the nine regular sessions of the Board, an all-day conference on "Union Health and Welfare Funds" was held at the Waldorf-Astoria Hotel on January 23, 1947. The proceedings of this conference were published as Number Eight of the Board's "Studies in Business Economics." The program of the session was as follows:

Morning Session: "OPERATION AND EXPERIENCE"

Discussed by Herman A. Gray, Chairman, New York State Unemployment Insurance Advisory Council; M. F. Lipton, Director, Group Annuities, Equitable Life Assurance Society of the United States; Raymond H. Reiss, Vice-President, International Tailoring Company; and Edmund B. Whittaker, Vice-President, Prudential Insurance Company of America.

Afternoon Session: "EVOLUTION AND PROBLEMS"

Discussed by Leo Wolman, Professor of Economics, Columbia University; Iago Galdston, Executive Secretary, Medical Information Bureau, New York Academy of Medicine; Theodore R. Iserman, Partner, Rathbone, Perry, Kelley & Drye; Arthur J. Altmeyer, Chairman, Social Security Board; and R. A. Hohaus, Actuary, Metropolitan Life Insurance Company.

During the year, nineteen round-table conferences were held in conjunction with the open Board meetings on various aspects of business conditions, industrial capacity, savings and income, administrative practices and personnel policy.

All the general sessions were open to the press, but the established policy of conducting the round-table conferences on an informal and off-the-record basis was continued. In some cases the Board was able, with the cooperation and authorization of the participants, to reproduce in its own publications the proceedings of these round-table conferences either in whole or in part.

The subjects discussed, and the speakers who participated in the general sessions and in the round-table conferences of the Board follow:

CONFERENCE BOARD MEETINGS

September, 1946-May, 1947

September 26, 1946

General Session: FOREIGN TRADE UNDER GLOBAL PLANNING

Discussed by Neal Dow Becker, Vice Chairman, THE CONFERENCE BOARD; Clair Wilcox, Director, Office of International Trade Policy, Department of State; Philip D. Reed, Chairman of the Board, General Electric Company; O. Glenn Saxon, Professor of Economics, Yale University.

Round-Table Conferences:

"Organizing for Foreign Sales."

Chairman: Clinton C. Johnson, Vice President, Chemical Bank & Trust Company. Speakers: Arthur J. Wieland, Vice President, Willys-Overland Motors, Inc.; C. Arthur Richards, Director, Export Division, Interchemical Corporation; Robert D. McManigal, Vice President, Westinghouse Electric International Company.

"War Savings: Who Owns Them?"

Chairman: Murray Shields, Vice President, Bank of the Manhattan Company. Panel: George Katona, Bureau of Agricultural Economics, Department of Agriculture; Henry H. Villard, Chairman, Department of Economics, Hofstra College; Vergil D. Reed, Associate Director of Research, J. Walter Thompson Company; Irvin Bussing, Manager, Research Department, Savings Banks Trust Company; William A. Berridge, Economist, Metropolitan Life Insurance Company.

"Reliability of Government Statistics."

Chairman: Frederick C. Mills, Professor of Economics, Columbia University. Speakers: Geoffrey H. Moore, National Bureau of Economic Research, Inc.; Andrew T. Court, Labor Economist, General Motors Corporation; A. F. Hinrichs, Economist, Kiplinger Magazine.

"Employment Stabilization."

Chairman: Thomas R. Reid, Director of Human Relations, McCormick & Company, Inc. Speakers: Herman Feldman, Professor of Industrial Relations, Amos Tuck School of Business Administration, Dartmouth College; A. H. Robinson, Assistant Treasurer, Eastman Kodak Company; Lazare Teper, Research Director, International Ladies' Garment Workers' Union (AFL); Murray W. Latimer, Research Director, Guaranteed Wage Study, Office of War Mobilization and Reconversion.

October 24, 1946

Closed Session of Members of the Governing Body and guests addressed by Mr. Kenneth C. Royall, the Under Secretary of War, with discussion by Lieutenant General LeRoy Lutes, Director of Service, Supply and Procurement, War Department General Staff; Major General Sidney P. Spalding, Deputy Executive Chairman, Army and Navy Munitions Board; Brigadier General Edward B. McKinley, Commandant, Industrial College of the Armed Forces; and Rear Admiral Clinton E. Braine, Deputy Chief for Production Policy, Material Division, Navy Department.

November 19, 1946

General Session: THE OUTLOOK FOR BUSINESS

Discussed by Virgil Jordan, President, THE CONFERENCE BOARD; John Davis Small, Civilian Production Administrator; Marvin E. Coyle, Executive Vice President, General Motors Corporation; Harvey S. Firestone, Jr., President, Firestone Tire and Rubber Company.

Round-Table Conferences:

"The Inventory Situation."

Chairman: Alan H. Temple, Vice President, National City Bank of New York. Speakers: L. J. Paradiso, Acting Chief, Business Structure Division, United States Department of Commerce; G. A. Renard, Executive Secretary and Treasurer, National Association of Purchasing Agents; Elliott Boardman, Statistician, Federal Reserve Bank of Boston; Myron Silbert, Vice President, Federated Department Stores.

"The Outlook for Construction."

Chairman: William J. Levitt, President, Levitt and Sons, Inc. Speakers: Thomas S. Holden, President, F. W. Dodge Corporation; Wm. Joshua Barney, President, W. J. Barney Corporation, Chairman, Apprenticeship Committee, Associated General Contractors of America; Tyler S. Rogers, President, Producers Council, Inc.; Robinson Newcomb, Director of Economic Research, Federal Works Agency.

"The Future of Wage Incentives."

Chairman: John W. Nickerson, Bigelow, Kent, Willard and Company, formerly Director of WPB's Management Consultant Division. Speakers: Z. C. Dickinson, Professor of Economics, University of Michigan; L. Clayton Hill, Works Manager, Eagle Pencil Company; Joseph Scanlon, Director of Research and Engineering, United Steelworkers of America (CIO); Ralph Presgrave, General Superintendent, York Knitting Mills; Philip Arnow, Chief of Wage Problems, Bureau of Labor Statistics.

"Prevailing Practices in Organization and Executive Compensation."

Chairman: Henry E. Hansen, Director, Division of Business Practices, THE CONFERENCE BOARD. Speakers: Thomas A. Fitzgerald, Paul W. Dickson, G. Clark Thompson of THE CONFERENCE BOARD Staff.

December 19, 1946

Closed Session of Members of the Governing Body and guests addressed by Mr. Charles R. Hook, President, American Rolling Mill Company; Mr. Paul Garrett, Vice President in Charge of Public Relations, General Motors Corporation; and Dr. Everett Case, President, Colgate University.

February 20, 1947

Closed Session of Members of the Governing Body and guests addressed by Honorable Eugene Meyer, *The Washington Post*, formerly President of International Bank for Reconstruction and Development; and Mr. S. Avery Raube, Director of the Board's Management Research Division.

March 20, 1947

General Session: AMERICA'S FOREIGN LENDING POLICY

Discussed by Colonel J. F. Drake, Chairman, THE CONFERENCE BOARD; John Abbink, Chairman, National Foreign Trade Council; Shepard A. Morgan, Vice President, The Chase National Bank of the City of New York; Honorable Fred L. Crawford, United States Representative, Michigan.

Round-Table Conferences:

"Company Policies in Employee Education."

Chairman: A. V. MacCullough, Executive Assistant, Vick Chemical Company. Speakers: H. Frederick Willkie, Vice President, Joseph E. Seagram & Sons, Inc.; Roy A. Dingman, Vice President, Commonwealth Edison Company; T. G. Newton, Director of Training, Armstrong Cork Company; John D. Connors, Director, Workers Education Bureau, American Federation of Labor.

"Agricultural Income, Prices and Surpluses."

Chairman: W. I. Myers, Dean, New York State College of Agriculture, Cornell University. Speakers: O. C. Stine, Assistant Chief, Prices and Marketing, Bureau of Agricultural Economics; O. V. Wells, Chief, Bureau of Agricultural Economics; R. I. Nowell, Second Vice President, Equitable Life Assurance Society of the United States; Mordecai Ezekiel, Economist, Food and Agriculture Organization of the United Nations.

"How Should Industry Price Its Products?"

Chairman: F. C. Crawford, President, Thompson Products, Inc.
Speakers: Albert J. Browning, Vice President, Ford Motor Company;
Solomon Barkin, Director of Research, Textile Workers Union of
America (CIO); Edwin G. Nourse, Chairman, Council of Economic
Advisers, Executive Office of the President; E. R. Hawkins, Dean,
School of Business, The Johns Hopkins University.

"Workers' Family Budgets and Their Significance."

Chairman: S. M. DuBrul, General Motors Corporation. Speakers:
Kate Papert, Director, Division of Industrial Relations, Women in
Industry, and Minimum Wage, N. Y. State Department of Labor;
Emily H. Huntington, Chairman, Heller Committee for Research in
Social Economics, University of California; Arynness Joy Wickens,
Assistant Commissioner for Program Operations, United States
Bureau of Labor Statistics; Lazare Teper, Director of Research,
International Ladies' Garment Workers' Union (AFL).

April 17, 1947

Closed Session of Members of the Governing Body to consider the
Board's research program.

April 24, 1947 (Chicago)

General Session: WHAT'S AHEAD FOR AMERICAN AGRICULTURE?

Discussed by Virgil Jordan, President, THE CONFERENCE BOARD;
Theodore W. Schultz, Professor of Agricultural Economics, University
of Chicago; Wheeler McMillen, Editor-in-Chief, *Farm Journal and
Farmer's Wife*; Honorable Clifford R. Hope, United States Represent-
ative, Kansas, Chairman, House Committee on Agriculture.

Round-Table Conferences:

"Getting Information To and From Employees."

Chairman: Harold F. North, Manager of Industrial Relations, Swift
& Company. Speakers: S. Avery Raube, Director, Management Re-
search Division, THE CONFERENCE BOARD; William W. Mussmann and
Abraham A. Desser of THE CONFERENCE BOARD Staff.

"Prevailing Practices in Organization and Executive Compensation."

Chairman: Fowler McCormick, Chairman of the Board, International
Harvester Company. Speakers: Henry E. Hansen, Director, Division
of Business Practices, THE CONFERENCE BOARD; Thomas A. Fitz-
gerald and Paul W. Dickson of THE CONFERENCE BOARD Staff.

"Voluntary Protection or Compulsory Social Insurance?"

Chairman: Martin R. Gainsbrugh, Chief Economist, THE CONFER-
ENCE BOARD. Speakers: Walter Sulzbach, Economist; Earl E. Muntz,

Professor of Economics, School of Commerce, Accounts and Finance, New York University; John W. Scoville, Consulting Economist; H. Ladd Plumley, Vice President and Secretary, Group Department, State Mutual Life Assurance Company, Inc.

Thirty-first Annual Meeting, May 28, 1947

General Session: MOBILIZING FOR WORLD LEADERSHIP—Domestic Problems and Implications

Discussed by Virgil Jordan, President, THE CONFERENCE BOARD; General Brehon B. Somervell, President, Koppers Company, Inc., formerly Commanding General, Army Service Forces; Major General Leslie R. Groves, United States Army; Honorable John W. Bricker, United States Senator, Ohio.

Round-Table Conferences:

"Is Labor Peace Possible?"

Chairman: Merlyn S. Pitzele, Labor Editor, *Business Week*, and Member, New York State Board of Mediation. Speakers: Clinton S. Golden, Lecturer, Graduate School of Business Administration, Harvard University, former Vice President, United Steelworkers of America (CIO); E. H. van Delden, Director of Industrial Relations, Libbey-Owens-Ford Glass Company; Honorable Ralph Waldo Gwinn, United States Representative, New York, and Member, House Committee on Education and Labor; Louis Sherman, Special Assistant to the Secretary, United States Department of Labor.

"Company Practices Affecting Salesmen."

Chairman: Larry E. Gubb, Chairman of the Board, Philco Corporation. Speakers: R. B. Weidinger, Sales Manager, Colgate-Palmolive-Peet Company; Charles E. Hallenborg, Vice President, Dictaphone Corporation; Herbert M. Schiffer, Assistant Dean, School of Commerce, Accounts and Finance, New York University; Elmer W. Earl, Jr., THE CONFERENCE BOARD.

"The Need for Additional Industrial Capacity."

Chairman: Lemuel R. Boulware, Vice President, General Electric Company. Speakers: J. Frederic Dewhurst, Economist, The Twentieth Century Fund; W. Duane Evans, Bureau of Labor Statistics, United States Department of Labor; Charles M. White, President, Republic Steel Corporation; Frank A. Willard, Partner, Reynolds & Company.

"Dividend Policy and Problems under Section 102, IRC."

Chairman: J. K. Lasser, J. K. Lasser & Company. Speakers: Maurice Austin, C.P.A., Klein, Hinds & Finke; Thomas N. Tarleau, Attorney,

Willkie, Owen, Otis, Farr & Gallagher; Edwin B. George, Economist, Dun & Bradstreet, Inc.; Harry J. Rudick, Attorney, Lord, Day and Lord.

D. PUBLIC EDUCATION AND INFORMATION ACTIVITIES

During the fiscal year 1946-1947, THE CONFERENCE BOARD considerably intensified its education and public service activities, bringing its material to teachers and students to a greater extent than ever before and increasing its news service to magazines, radio and the press so that more people in all walks of life might have a better understanding of basic economic and business facts. The number of library subscriptions, which come largely from colleges and universities, increased twenty per cent. The sale of Board publications reached an all-time high, partly as a result of adoption on the part of several educational institutions of Conference Board material for classroom textbook purposes.

This program for increasing the dissemination of the Board's findings to educators, students and the general public is to be continued during the coming year. Special provision for the purchase and use of the results of Conference Board research will also remain in effect for local, state and federal governmental agencies. In these ways, it is hoped that THE CONFERENCE BOARD will come to be utilized extensively and will contribute more and more toward clarifying basic economic problems as they arise.

Complementing the wide distribution of Conference Board findings through the sale of publications and issuance of press releases, the Board maintains a Division of Information Service which, although operated primarily for the benefit of Staff Associates, is also widely used by government officials, educators and students who do not necessarily contribute toward the maintenance of the Board's work. In connection with the Board's Information Service Division, an extensive library is maintained which comprises one of the largest private collections of books, governmental reports, periodicals and other material covering the broad field of business economics, business policy and personnel practices.

In addition to other methods of disseminating public information, members of the Board's Staff are frequently called upon to make addresses before business organizations, professional societies and similar groups.

INFORMATION SERVICE

Subscribers seeking facts that might have appeared in Conference Board publications or elsewhere are encouraged to call upon the Information Service Division for assistance. Since that Division was created in 1938, there has been a continuous increase in the number of inquiries received. The monthly average, which was formerly about 550, now approximates 1,300.

Inquiries and requests for publications received by THE CONFERENCE BOARD during the past fiscal year totaled 30,640, as compared with 25,833 in the previous fiscal year. Of this total, Subscribing Associates accounted for 26,121 inquiries.

The Information Service Division, as the chief medium for answering the questions of Associates, handled directly 15,559 inquiries and requests for publications during the past fiscal year, an increase of 5,856 or 60% over the previous year. These inquiries consisted of 7,550 letters, 7,049 telephone calls, 876 interviews, and 84 telegrams.

The Library, as part of the Information Service Division, contributes to the prompt answering of inquiries through the maintenance of an extensive collection of books, pamphlets, documents, periodicals, and other information relating to the broad field of industrial economics. This material is available for the use of Associates at the Library or on a loan basis. During the past fiscal year, 501 Associates used the Library and 914 Associates borrowed material.

The Library also assists Staff Associates in their research work by supplying pertinent material, securing copies of new publications, and circulating current periodical literature. Subscriptions are maintained to more than one hundred and fifty periodicals, services, and annual publications.

PUBLIC INFORMATION

THE CONFERENCE BOARD's News Department has four principal functions or objectives: preparation of news releases based on the Board's current studies; publicity and press coverage for the open meetings of the Board; cooperation with feature writers and editors of the press and radio; and maintenance, for the Board, of friendly working relations with all channels of communication.

As a result of these efforts, Conference Board material is used hundreds of times each month by newspapers, magazines, and the radio. In fact, the Board's releases sometimes serve as the basis

“Ask The Conference Board”

TOTAL NUMBER OF INQUIRIES ANSWERED
MAY 1, 1946 - APRIL 30, 1947
TOTAL: 30,640

INQUIRIES ANSWERED BY INFORMATION SERVICE
MAY 1, 1946 - APRIL 30, 1947
TOTAL: 15,559

TELEGRAMS - 84

Number of Inquiries Handled Monthly by the Information Service Division

for more than one story in the same publication; first, as news, and later as editorial or feature material.

The flow of information to specialized as well as mass audiences is of considerable value in popularizing the Board's research findings and in offsetting unsound economic information released by suspect sources.

During the past fiscal year, seventy-three general and special news stories based on the Board's research were released to a list of important daily newspapers throughout the country; to leading business, financial and trade publications; as well as to the press wire-services and the radio networks.

In addition, special "local" releases were prepared on elections of Members to THE CONFERENCE BOARD, announcements of Board meetings, city-by-city reports on changes in the Conference Board Consumers' Price Index, and information on earnings and hours in various manufacturing industries. Nation-wide publicity for the General Sessions of the Board is obtained by the advance preparation and distribution of the speeches to major news outlets.

Editorial writers, financial editors, authors, and business columnists seeking trustworthy background material frequently call upon the Board for checking material they are preparing for publication. Sometimes the Board itself is the subject of a magazine or newspaper story. Earlier this year, for example, the News Department worked with the *Christian Science Monitor* in the preparation of a full-page story, with pictures, about the Board's work. More recently, an article on the growth and work of THE CONFERENCE BOARD was prepared for *Industrial Marketing* magazine. In addition, special "biographies" of THE CONFERENCE BOARD were prepared for source books such as the "World Almanac" and the "Encyclopedia Britannica."

The following is a list of the principal releases issued by the News Department during the past fiscal year:

PRESS RELEASES IN FISCAL YEAR, 1946-1947

1498 Living Costs Down in First Quarter

Special—Col. J. F. Drake Re-elected Chairman of National Industrial Conference Board

1499 Living Costs Down in 37 Cities, Up in 22 in First Quarter

1500 Reconversion Decline in Hours Worked and Weekly Earnings Reversed in March

1501 Many Commodities Eligible for Release from Controls under House OPA Bill

- Special—Conference Board to Celebrate 30th Anniversary
- 1502 60% of Profit-sharing Plans Abandoned

- 1546 Price Imbalance Held "Cancer" in Postwar Price Structure
- Special—What's Ahead for American Agriculture, an Address by Congressman Clifford R. Hope
- Special—The Outlook for Agriculture, an Address by Wheeler McMillen
- Special—What's Ahead for American Agriculture, an Address by Theodore W. Schultz
- 1547 Cotton Consumption Almost Six Times That of Rayon

ADDRESSES MADE BY STAFF ASSOCIATES

While the pressure of work does not allow acceptance of all invitations to address outside groups, it is the policy of the Board to oblige in lending the services of its Staff Associates in this way whenever possible. The following list covers the principal instances of this type of public service during the fiscal year 1946-1947.

"A Fair Day's Work"

R. A. Hedden. Chapter Meeting of the Society for the Advancement of Management, Hartford, Connecticut, May 10, 1946.

"Organizing a Marketing Research Department"

G. Clark Thompson. American Marketing Association, Spring Conference, Boston, Massachusetts, May 16, 1946.

"The Road Ahead for America"

Dr. Jordan. Associated Industries of New York State, Inc., Spring Membership Dinner, Buffalo, New York, May 28, 1946.

"The Business Outlook for Retailers"

Martin R. Gainsbrugh. The Mutual Buying Syndicate, Asbury Park, New Jersey, June 11, 1946.

"Trends in Collective Bargaining and Labor Legislation"

Abraham A. Desser. Silver Bay Conference on Human Relations in Industry, Silver Bay on Lake George, New York, July 26, 1946.

"Labor-Management Problems"

Abraham A. Desser. The Exchange Club of New York, New York City, August 1, 1946.

"The Labor Press"

Abraham A. Desser. Radio Broadcast, Station WBAF, New York City, August 26, 1946.

"The Opportunities of Labor and Management for Higher Productivity"

Abraham A. Desser. The Society for the Advancement of Management and the American Society of Mechanical Engineers (Connecticut Chapters), New Haven, Connecticut, September 17, 1946.

"Effective Marketing Research"

G. Clark Thompson. American Marketing Association, Northern New Jersey Chapter, Newark, New Jersey, September 30, 1946.

"Retail Volume at the Crossroads—The Economic Outlook"

Martin R. Gainsbrugh. Distribution-Credit Conference of the National Retail Furniture Association, Atlantic City, New Jersey, October 1, 1946.

"The Future of the Free Economy in America"

Dr. Jordan. Union League Club of Chicago, Chicago, Illinois, October 15, 1946.

"Trends in Collective Bargaining and Labor Legislation"

Abraham A. Desser. Toledo Research Bureau, Incorporated, Toledo, Ohio, October 15, 1946.

"The Economic Outlook"

Martin R. Gainsbrugh. Waterbury Association of Credit Men, Waterbury, Connecticut, October 17, 1946.

"Communication with Employees"

William W. Mussmann. Hudson County Employment Managers' Association, Jersey City, New Jersey, October 17, 1946.

"Process Engineering—What It Is and How It Works"

R. A. Hedden. Metal Trades Association, Paterson, New Jersey, October 18, 1946.

"Consumers' Price Indexes—Uses and Abuses"

Robert A. Sayre. Eli Lilly & Company, Indianapolis, Indiana, October 25, 1946.

"Concepts and Measures of Productivity at the Job Level"

Martin R. Gainsbrugh. Productivity Conference, Washington, D. C., October 28, 1946.

"Major Economic Forces Affecting Bank Lending Policies"

Dr. Jordan. Robert Morris Associates, Philadelphia Chapter, Union League Club, Philadelphia, Pennsylvania, October 31, 1946.

"Opportunities of Labor and Management for Closer Cooperation"

Abraham A. Dessser. Annual Conference on Human Relations of the Society for the Advancement of Management, Pittsburgh, Pennsylvania, October 31, 1946.

"Trends in Job Evaluation"

R. A. Hedden. Special Class in Industrial Engineering of Paterson Normal School, Paterson, New Jersey, November 1, 1946.

"Responsibilities of a Personnel Director"

S. Avery Raube. National Distillers Products Corporation, New York City, November 6, 1946.

"The Need for National Wealth Estimates"

Martin R. Gainsbrugh. Conference on Research in Income and Wealth, National Bureau of Economic Research, New York City, November 15, 1946.

"Patterns of Employer-Employee Relationships"

Abraham A. Dessser. The Industrial Executives Club of Newark and West Hudson, Newark, New Jersey, November 19, 1946.

"The Collective Bargaining Scene"

Abraham A. Dessser. Hartford County Industrial Relations Society, Hartford, Connecticut, November 26, 1946.

"Methods Used in Establishing Consumers' Price Indexes"

Robert A. Sayre. Charleston Chamber of Commerce, Charleston, West Virginia, December 6, 1946.

"Consumption Cycle and Its Effect on Capital Requirements of Consumers"

Martin R. Gainsbrugh. Northern New Jersey Chapter of the American Marketing Association, Newark, New Jersey, December 10, 1946.

"Evaluating the Effectiveness of Training"

S. Avery Raube. Associated Merchandise Corporation, New York City, January 15, 1947.

"Problems in Providing Adequate Statistics on Employment and Earnings"

Martin R. Gainsbrugh. 106th Annual Meeting of the American Statistical Association, Atlantic City, New Jersey, January 24, 1947.

"What Can We Learn from Sweden?"

Abraham A. Desser. Radio Broadcast, Station WEVD, Labor Relations Forum, New York City, February 12, 1947.

"The Annual Wage—Fact and Fallacy"

F. Beatrice Brower. Personnel Club of New York, New York City, February 25, 1947.

"The Business Outlook"

Dr. Jordan. The Economic Club of Pittsburgh, Pittsburgh, Pennsylvania, March 5, 1947.

"The Future of the Free Economy in America"

Dr. Jordan. The University of Pittsburgh—Institute on Business and Economic Problems—Pittsburgh, Pennsylvania, March 5, 1947.

"The Labor Relations Scene"

Abraham A. Desser. Pawtucket Business Men's Association and Chamber of Commerce, Pawtucket, Rhode Island, March 18, 1947.

"The Survival of a Free Economy"

Dr. Jordan. The American Institute of Mining and Metallurgical Engineers, 75th Anniversary Celebration, The Waldorf-Astoria, New York City, March 19, 1947.

"The Role of Profits in the Free Enterprise System"

Martin R. Gainsbrugh. Graduate School of Business Administration of New York University in cooperation with Mortgage Bankers Association of America, New York City, March 20, 1947.

"Arbitration in Industrial Relations"

Abraham A. Desser. Eastern States Association Educational Conference, Annual Conference, Hotel Commodore, New York City, March 20, 1947.

"Employee Attitudes"

S. Avery Raube. Personnel Club of Rhode Island, Providence, Rhode Island, April 16, 1947.

III

THE ORGANIZATION AND OPERATION OF THE CONFERENCE BOARD

In performing its functions as a research, educational, and service institution, the present organization of the Board consists of its Subscribing and Cooperating Associates, Affiliated Organizations, and Foreign Correspondents; its Members, Councillors, Officers, Trustees, and official committees; its advisory groups; and its Research and Administrative Staff. All these parts of the organization participate in various ways in the research and educational activities of the Board.

ASSOCIATES OF THE BOARD

Subscribing Associates

Individuals, business concerns, associations, educational institutions and governmental departments, bureaus or agencies subscribing annually for the services, facilities, and publications of the Board, or contributing toward their maintenance, constitute its Subscribing Associates, and are the basis of its support. They receive the publications of the Board, and have the privilege of using its information and library facilities, discussing problems with its Staff, and attending its general meetings and special conferences. A list of Subscribing Associates of the Board is published in Part II of this Report.

At the close of the fiscal year 1946-1947 the Associates of the Board included 59 individuals who subscribed personally for its services and publications; 2,323 business concerns, representing every field of business activity, in all parts of the country, who formed the bulk of the Subscribing Associates of the Board; 215 business and labor organizations; and 220 libraries, educational and other public institutions. The total number of Associates increased from 2,617 to 2,817 during the fiscal year ended April 30, 1947.

Cooperating Associates

Individuals, business concerns and others who participate in the research work of the Board by regularly furnishing information for use in its studies of consumers' prices, wages, employment, working hours, management practices, business conditions and other subjects of systematic investigation by the Board constitute its Cooperating Associates. Whether or not they contribute or subscribe toward the financial support of the Board's work, its Cooperating Associates obviously play a vitally important part in the maintenance and expansion of its services as a cooperative institution, in which information and experience are pooled for the benefit of business enterprise and the public. The Board is deeply indebted to them for their interest and participation, which have enabled it to develop its studies and render its services on a more economical and practical basis than would otherwise have been possible within the limits of its financial resources.

The scope of this cooperation is constantly being expanded as its mutual benefits are appreciated. Currently the number of Cooperating Associates of the Board in all the fields of its work totals approximately 12,000.

AFFILIATED ORGANIZATIONS

Under the By-Laws of the Board certain organizations and institutions are accepted by the Board as Affiliated Organizations. These now include, first, a number of divisions of the War and Navy Departments directly concerned with manufacturing operations and with industrial development from the point of view of national defense; and, second, a number of national trade associations and state or regional industrial associations which subscribe stipulated minimum amounts for the maintenance of the services and facilities of the Board. These Affiliated Organizations, listed in Part II, designate representatives who, upon election by the Board, serve as Members of the Board with the same privileges and responsibilities as other Members.

The first group of Affiliated Organizations, in view of the great value of their cooperation in the work of the Board, are not required to contribute financially to its support. Among the Affiliated Organizations of the Board and their designates, those of the bureaus of the War and Navy Departments have been at all times especially helpful in its work, and the Board makes grateful acknowledgment to them for their constructive cooperation. It

hopes that in the course of time other departments of government and other public agencies may similarly be brought into closer association with its work.

FOREIGN CORRESPONDENTS

Foreign Correspondents of the Board have been appointed from time to time from among leaders in industry, commerce, finance, as well as statesmen and economists in the principal foreign countries. These have supplied to the Board information regarding economic conditions in their respective countries, as a basis for the Board's reports on international affairs, and have received from the Board similar information regarding developments in the United States. Because of recent world conditions, this interchange of information and close collaboration in the study of international problems has necessarily been interrupted in the case of several nations, but the Board is now engaged in reestablishing contact with business leaders in the various foreign countries.¹

COUNCILLORS

From time to time outstanding personalities in the fields of science, education, public affairs, and business are elected to membership in the Board as Councillors. These elections are essentially honorary in character and are made on the basis of the distinction of the individuals chosen, irrespective of their association with the Board as subscribers or otherwise, or of their direct connection with industry. The Board avails itself of their advice as may be needed in connection with broader questions of policy in the conduct of its work.

As of June 1, 1947, the Councillors, listed in Part II, numbered twenty.

MEMBERS OF THE BOARD

Members of the Board consist of the designates of Affiliated Organizations, the Councillors, and a number of individuals connected in important capacities with some of the Subscribing Associates of the Board. Membership in the Board is personal, and by election, and the number of regular Members is limited to two hundred and fifty. Some of the Members of the Board do not con-

¹Two correspondents in England have already been appointed: Lord Riverdale of Sheffield, KBE, Managing Director of Arthur Balfour & Company, Ltd., and B. Seeborn Rowntree, Chairman of Rowntree & Company, Ltd.

tribute financially to the maintenance of its work, and many of the Subscribing Associates of the Board are not represented in its membership. Qualified persons are elected or reelected from year to year by the existing membership of the Board to serve as Members on the basis of their intrinsic interest in its work and their disposition and capacity to participate personally in its activities. They constitute a relatively small but distinguished group of men active in business, public, or educational affairs and earnestly devoted to the work in which the Board is engaged. As of June 1, 1947, the Members of the Board, including Councillors and representatives of Affiliated Organizations, numbered 247.

OFFICERS AND TRUSTEES

The Members, constituted as described above, elect annually in the usual procedure a group of Trustees. The Trustees are divided into three classes of ten members each, so arranged that the membership of respective classes shall expire in succeeding years.

These Trustees, in addition to selecting their own chairman, elect annually a Chairman of the Board, one or more Vice-Chairmen, a President, a Treasurer and a Secretary. The Trustees are the executive agency of the Members in the conduct of the Board's affairs. They nominate, for election or reelection by the Board, the Members of the Board, and appoint its Foreign Correspondents and the various committees and advisory councils required in the conduct of the Board's work.

STANDING AND SPECIAL COMMITTEES

The following standing and special committees of the Board were in operation during the fiscal year 1946-1947, for the purposes indicated:

Standing Committee on Invitations, to consider and officially to issue any invitations extended to eligible persons to accept election by the Board as Members or Councillors, or appointment as Foreign Correspondents. The Committee also advises with Affiliated Organizations regarding representatives of such organizations to serve as Members of the Board, except in the case of the designates of governmental bureaus, who are nominated directly by the Secretary of War and the Secretary of the Navy;

Standing Finance Committee, to advise with the President and the Trustees regarding the financial administration of the Board;

Standing Committee on Reelections and Admissions, to advise with the President regarding his recommendations for elections and reelections of Members and Councillors and appointment of Foreign Correspondents of the Board;

Committee on Educational Extension, to consider ways of furthering the distribution of the Board's studies to other educational institutions and to the general public, and to advise with the President on all phases of the Board's educational work.

In addition to these, several special committees were created, and either completed or continued consideration of various questions arising in the course of the Board's work.

At the year-end, an *Administrative Committee* was appointed to collaborate and advise with the President on problems of administration as they arise.

The Board makes earnest acknowledgment of the fine service rendered to it by these committees. The time and energy given to their work by the Members of the Board and others, in the midst of their own pressing responsibilities, bear high testimony to their public-spirited devotion to the purposes of the Board.

CONFERENCES

Meetings of the Board

Meetings of THE CONFERENCE BOARD are held regularly each month, except during the summer, for intimate and informal discussion of current developments and problems relating to business. These conferences are not mere meetings for the usual transaction of formal organization business. The discussion at these conferences is based upon and guided by the research work and the information currently developed by the Research Staff of the Board, and in turn the investigations of the Research Staff and the publications prepared by it are aided and guided by these discussions.

Five of these monthly conferences, on alternate months beginning in September, are usually general meetings to which executives of all concerns and organizations associated with the Board are invited. The other four meetings of the Board are sessions of the Members, their guests, and others invited to confer with them.

The general meetings of the Board on alternate months are preceded by a number of round-table conferences devoted to specific subjects, in the discussion of which the consulting groups and Staff of the Board take part.

Special Conferences

In addition to its regular monthly Meetings, THE CONFERENCE BOARD endeavors to meet the needs of its Subscribing Associates for specialized types of information by organizing discussion groups to consider particular problems that arise as a result of economic developments or government policy. Among the more important conferences held during the past year, some of which were discussed in detail in the preceding section of this Report, were:

All-day conference on "Union Health and Welfare Funds" at the Waldorf-Astoria Hotel, January 23, 1947.

Conference on "Communication Within the Management Group" at the Board's offices.

Conference on "Industry's Public Relations Problems" at the Waldorf-Astoria Hotel.

Two conferences on "Corporate Donations Policies" at the Waldorf-Astoria Hotel.

Five meetings of THE CONFERENCE BOARD Economic Forum at the Waldorf-Astoria Hotel.

Advisory Councils

In order to bring to bear in the conduct of the Board's research and conference work the knowledge and experience of specialists and technicians in the various fields covered, the Board has had the benefit of the assistance of important advisory groups. One such group that was organized over 20 years ago is the *Advisory Council on Management Research*, composed of men distinguished for their special knowledge and experience in the field of personnel and labor relations administration. A second group, more recently organized, is *The Advisory Council of Marketing Research Directors*, which is composed of outstanding market research specialists in private industry. This committee assists the Board in its studies in the fields of marketing and distribution.

STAFF ORGANIZATION

The Board's Research and Administrative Staff must serve in a twofold capacity. It must continue and constantly improve the quantity and quality of the Board's research as problems vitally affecting industry and business multiply and become more complex. It must also be available at all times to Subscribing Asso-

ciates and others who seek available material or special information on their particular problems. All these demands on its time have kept the Staff under considerable pressure, but it welcomes the opportunity to be of public service and of increasing usefulness to the progressive companies that make up the Board's roster of Subscribing Associates.

Staff departments work systematically with the consulting groups of the Board in carrying out the research, publication and conference activities of the Board. Close contact of specialists of the Staff with its Associates is maintained through correspondence, group discussions, personal conferences, and field visits to offices and plants of Associates. In this way the Board's Staff organization serves as a unique instrument for investigation, contact, exchange of experience, and cooperative education in economics and management.

This effort will be continued and intensified, as the resources of the Board permit, and it is hoped that in the course of time the Board's organization can be developed into a systematic mechanism of public and management education, nationwide in its scope and continuous in its influence.

The regular operating Staff of THE CONFERENCE BOARD consisted of 137 Staff Associates on June 1, 1947, organized under the following Divisions:¹

The Division of Business Economics is responsible for the analysis and interpretation of economic trends affecting business and industrial operation and for special economic investigations.

The Division of Business Practices is responsible for the analysis and interpretation of business experience in dealing with current problems of administration outside the field of personnel and labor relations.

The Division of Management Research is responsible for the analysis and interpretation of experience in dealing with practical problems of personnel and industrial relations administration and other matters of plant and office operating technique.

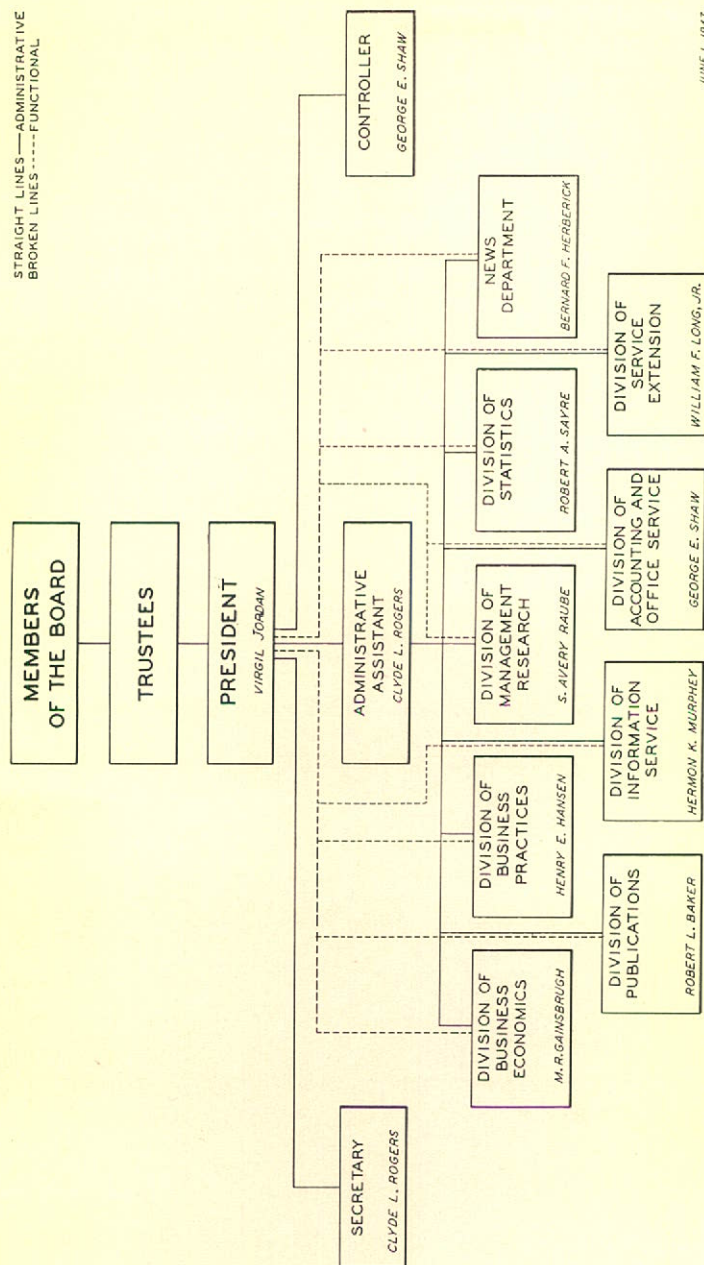

The Division of Statistics is responsible for maintaining and analyzing statistical records and data and for the Board's investigations in the fields of wages, employment and unemployment, and consumers' prices, as well as for special statistical investigations.

¹ Their description, shown in detail of personnel in Part II, represents the Staff organization in operation as of June 1, 1947.

ORGANIZATION CHART

Conference Board Staff

STRAIGHT LINES—ADMINISTRATIVE
BROKEN LINES-----FUNCTIONAL

JUNE 1, 1947

Number of Associates Served by The Conference Board at End of Fiscal Year (April 30)

The Information Service Division, which includes the Reference Library, is responsible for replying to the constant stream of inquiries by mail, telephone and visits from Associates and the general public.

The Publications Division is responsible for editing and printing the numerous periodical and other publications of the Board.

The Service Extension Division is responsible for increasing the number of the Board's Subscribing Associates, thus extending the usefulness of its work and enabling it to expand the scope of its services.

The Division of Accounting and Office Service has responsibility for the maintenance of the Board's accounting records and its general files, for maintaining an inventory of and distributing its publications, and for supplying stenographic and other office service adequate to meet the demands of the Board's research, publication and conference schedules.

The Administrative Division is responsible for planning, general supervision, and coordination of the work of the Staff, for the maintenance of the Board's relations to Associates and the public, for providing information regarding studies to newspapers, magazines, radio and other channels of communication, and for planning and conducting the regular meetings and conference activities of the Board.

THE BOARD'S SUPPORT

The Board is not an endowed institution, and it is not usually assisted by any of the established foundations. It has had to earn its living and pay its way by its work from year to year. As a non-profit institution, the Board does not provide its services and distribute its publications on a commercial basis, nor can it afford to employ a large sales or promotion organization to bring its services and publications to the favorable consideration of possible subscribers. Its resources must be devoted to its research, information and conference activities.

The regular research work of THE CONFERENCE BOARD and the ordinary expenses incident to conduct of its conference activities are financed mainly by voluntary subscriptions and contributions by individuals, corporations and organizations associated with the Board. These subscriptions vary widely in amount, cover no uniform period, are renewable irregularly throughout the year, and

are based partly on the direct usefulness of the services rendered by the Board's Staff and partly on public-spirited interest in its support as an institution. Continuous correspondence and contact are necessary to maintain and add to subscriptions. This work occupies a considerable part of the time and energy of the Staff, but the absence of any assurance of stable financial support by endowment or otherwise is a constant and sharp stimulus to the Board to make its research effective and useful.

In addition to subscriptions of Associates, the work of the Board is supported by income from the sale of publications and from occasional special investigations made on behalf of and at the expense of individual corporations and organizations. Special investigations are undertaken, however, only where it is clear that they involve material that will be of substantial interest or value in the development of the Board's basic scientific and educational program, and with the understanding that the results of such investigations will be available for this purpose. Since the Board is chartered as a nonprofit institution, revenue from special service of any kind can cover only the direct expense involved plus a strictly allocated proportion of the overhead costs of operating the organization.

Under these conditions the income of the Board fluctuates widely and irregularly throughout each year, while its ordinary expenses are relatively stable because of the sustained nature of its research and conference work and the highly qualified personnel necessary to carry it on. So far as possible, expenditures are carefully budgeted in relation to estimated income at the outset of each fiscal year, while both income and expenses are accounted for on an accrual basis, and closely controlled by a cost system covering all its operations.

For thirty-one years, through periods of widely varying business prosperity and vast changes in economic and political conditions, the work of THE CONFERENCE BOARD has gone forward steadily. Its books, reports, studies, and periodicals, which it has published during this period, are merely the physical monument or record of its work, far less important than the constant service of current information and education which it has rendered to American enterprise.

American enterprise urgently needs and is abundantly able to provide for itself a central instrument of tested information, common understanding, effective education, and unified action such as THE CONFERENCE BOARD in principle implies. For the perfection

of this instrument it can afford to enlist the services of the ablest minds in practical business experience, in economic, statistical, and management science, in public and professional education, in public relations, and in government. To make this instrument effective it can afford to construct a comprehensive and systematic mechanism for the continuous information, education, and coordination of management and the public so that the facts of our economic and industrial life may be fully and widely known and be acted upon by management, the public, and government with intelligence, understanding, integrity, and unity of purpose.

This is the purpose for which THE CONFERENCE BOARD was founded thirty-one years ago, and which it has steadfastly pursued ever since. Present and prospective economic conditions at home and abroad make such an effort more urgent than ever before, but the objective is still far from realization. As was noted last year, the difficulties in the way of attaining the objective have been increased in recent years, not merely by governmental and labor policies, but in a much more important sense by the confusion and conflict of ideas and ideals within the business community itself. This disintegration and demoralization in business thought and purpose itself has probably been more definitely responsible for the rapid drift from a free toward a directed economy than any conscious change in public attitudes or convictions, and clearly indicates that the task of education, leadership and inspiration in this field is greater and more vitally important than it has ever been during the generation that has passed since the Board was founded.

IV

TREASURER'S REPORT

For the Fiscal Year Ended April 30, 1947

To the Members and Associates of THE CONFERENCE BOARD:

The financial statements of THE CONFERENCE BOARD as of April 30, 1947, show a sound position with a healthy growth in income, and with expenses well within income.

As of April 30, 1947, Operating Fund assets were \$615,512, of which \$528,797 consisted of cash and U. S. Government securities. Operating Fund liabilities consisted of accounts payable and reserves, \$145,135, revenue applicable to subsequent period operations, \$406,501, and Operating Fund balance, \$63,876. The reserve for long-range research and development programs has been maintained at \$50,000 and other reserves are predicated on anticipated needs. The item of revenue applicable to subsequent period operations represents income received but which on a prorated basis has not yet been earned.

Reserve Fund assets totaled \$507,230 in cash and government securities, with no liabilities. This compares with Reserve Fund balance at April 30, 1946, of \$474,925. This Fund, although substantial, is not increasing proportionately to the Board's income and expenditures and represents considerably less than one year's operating costs. It is very desirable that the Fund be increased as time goes on. The Board has no capital and its resources are limited to those on hand plus the support of its Members and Associates.

Approximately 92% of the total assets of the Board are in cash and U. S. Government securities, the greater portion of the latter maturing in less than one year.

The Statement of Operations for the fiscal year showed in the Operating Fund total income of \$871,091 compared with \$805,183 in the preceding year. Of this total income \$116,630 was reimbursement of separately financed research as compared with \$131,938

in the preceding year. Income from subscriptions and contributions were \$731,156 compared with \$651,282 in the preceding year. Expenses were \$850,452 compared with \$803,385. Operating Fund balance for the year was \$20,639 compared with \$1,797 for the preceding year. With carry-over from the preceding year the total Operating Fund balance on April 30, 1947, was \$63,876, compared with \$43,237 for the same date of the preceding year.

Operations of the Reserve Fund for the year just closed showed contributions and interest earned of \$32,305 compared with \$25,452 for the same period of the preceding year. Total balance in Reserve Fund April 30, 1947, as heretofore stated, was \$507,230 as against \$474,925 on the same date of the preceding year.

The finances, investments, accounting, office practices and other phases of the Board's operations have been the subject of continuing attention by the Trustees, Officers and Staff of the Board and by its public accountants. Your Treasurer is very appreciative of the hearty cooperation received in connection with his modest part in these activities.

Respectfully submitted,

ROLLAND J. HAMILTON, *Treasurer*

AUDITORS' CERTIFICATE

NATIONAL INDUSTRIAL CONFERENCE BOARD, INC.

We have examined the statement of financial position of NATIONAL INDUSTRIAL CONFERENCE BOARD, INC., as of April 30, 1947, and the statement of income and expenses for the fiscal year then ended, have reviewed the system of internal control and the accounting procedures of the Board and, without making a detailed audit of the transactions, have examined or tested accounting records of the Board and other supporting evidence, by methods and to the extent we deemed appropriate. Our examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which we considered necessary.

In our opinion, the accompanying financial statements present fairly the position of NATIONAL INDUSTRIAL CONFERENCE BOARD, INC., at April 30, 1947, and the results of its operations for the fiscal year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

CERTIFICATE OF INCORPORATION

OF

NATIONAL INDUSTRIAL CONFERENCE BOARD, INC.

(as amended by Certificate filed in the office of the Secretary of State,
State of New York, April 6, 1943)*

WHEREAS, the NATIONAL INDUSTRIAL CONFERENCE BOARD, an unincorporated association, organized for purposes for which a corporation may be created under Article III of the Membership Corporations Law of the State of New York, has, by unanimous vote of all its members present and voting at a regular meeting thereof, held on the 20th day of November, 1924, authorized its Executive Committee, or a majority thereof, (such Executive Committee being the sole governing board of said association and possessing the powers and attributes of directors thereof) to incorporate said association for the same purposes, under Article III of the Membership Corporations Law of the State of New York, and such meeting having adopted the name NATIONAL INDUSTRIAL CONFERENCE BOARD, INC., as the corporate name of said corporation; and notice of the intention so to incorporate having been duly given at least thirty days before such meeting, by mail, to each member of said association, whose residence or post-office address is known; and

WHEREAS, the fundamental purpose of the National Industrial Conference Board is to promote public welfare by bringing together the collective experience of those engaged in industry, by studying industrial and economic conditions, and by disseminating well-considered views thereon, as its contribution to the solution of the problems of industry; and

WHEREAS, the National Industrial Conference Board has pledged its energy and resources to this work, to be carried on in the open-minded and straightforward spirit which should characterize all efforts of a scientific nature, fully utilizing the views and experiences of those familiar with industrial problems and always seeking to learn and promulgate the truth; and

WHEREAS, the Board will refrain from all political activity and will in all respects comply with the requirements of the laws relating thereto;

NOW, THEREFORE, the undersigned, being a majority of such Executive Committee, and all being persons of full age and citizens of the United States, and at least one thereof being a resident of the State of New York, desiring to form a corporation for the purposes hereinafter set forth, pursuant to the provisions of Chapter 40 of the Membership Corporations Law of 1909, and as since from time

* The original Certificate of Incorporation was filed in the same office December 23, 1924.

to time amended, do hereby make, sign and acknowledge and file this Certificate, as follows:

FIRST: The name of the proposed corporation is NATIONAL INDUSTRIAL CONFERENCE BOARD, INC.

SECOND: The purposes of said corporation are exclusively scientific, educational and charitable and are

1. To organize, conduct and maintain scientific research and investigation in the fields of business economics and business management, and to make available the results of such activities to persons, firms, corporations, associations, educational and other institutions, governmental agencies, and others concerned with the subject matters under investigation;

2. To assemble, analyze and disseminate information in regard to economic conditions and management experience in the United States and other countries;

3. To conduct conferences of business executives, professional specialists and others for discussion of economic, business and management problems;

4. To carry on any one or more of the foregoing activities in cooperation with other persons, firms, corporations, associations, educational and other institutions or governmental agencies;

5. To prepare, print, publish, distribute and circulate periodical and other publications making available the results of its research, conference and other activities;

6. To integrate the foregoing activities, or any of them, in such manner as will contribute to the professional equipment, training and education of business executives; and

7. In general to encourage and promote the sound development of American industry by all proper and legitimate means, and to do all things necessary to carry out the aforesaid purposes.

THIRD: The corporation shall not be operated for profit. No part of the net income of the corporation shall be credited to surplus or shall inure to the benefit of any member or individual, and no member, officer, trustee or employee of the corporation shall receive or be lawfully entitled to receive any pecuniary profit of any kind therefrom, except reasonable compensation for services in effecting one or more of its purposes.

FOURTH: The corporation shall not carry on propaganda, or otherwise attempt, to influence legislation.

FIFTH: In furtherance of its said objects and purposes, said corporation shall have power to purchase and acquire in the State of New York and elsewhere, such real and personal estate and property as may be necessary or proper, and to mortgage the same to secure the payment of any bonds which may be issued by the corporation, and generally to do any and all things which may be necessary or proper in connection with its business and purposes, which may not be contrary to law.

SIXTH: The office of the corporation is to be located in the City and County of New York.

SEVENTH: The number of directors of the corporation, who shall be known and styled as Trustees, shall be not less than twenty and not more than forty.

EIGHTH: The territory within which its operations shall be conducted shall be the United States and foreign countries.

NINTH: Its duration shall be perpetual.

*TENTH: The names and places of residence of the persons to be its directors, until the first annual meeting, are as follows:

<i>Name</i>	<i>Place of Residence</i>
Frederick P. Fish	84 State Street, Boston, Mass.
Loyall A. Osborne	150 Broadway, New York City
John W. O'Leary	79 West Monroe Street, Chicago, Ill.
Magnus W. Alexander	247 Park Avenue, New York City
Charles Cheney	Cheney Brothers, South Manchester, Conn.
Robert Amory	48 Franklin Street, Boston, Mass.
John A. Penton	1213 West Third Street, Cleveland, Ohio
Fayette R. Plumb	4837 James Street, Philadelphia, Pa.
Fred I. Kent	16 Wall Street, New York City

ELEVENTH: The annual meeting of the corporation shall be held on such date as shall be prescribed by the by-laws.

[Signatures, etc.
omitted]

* The original Certificate of Incorporation, in which this paragraph appears, provided for nine directors.

REVISED BY-LAWS¹

OF NATIONAL INDUSTRIAL CONFERENCE BOARD, INC.

ARTICLE I

Members

The members of the corporation shall consist of the persons who are members at the date of adoption of these by-laws, and such other persons as may be duly elected from time to time in accordance with these by-laws. Membership shall be restricted to natural persons.

The members shall be divided into three classes, as follows:

(1) *Regular Members*, who shall not exceed two hundred fifty in number, and shall be elected by the members of the corporation at any meeting of the corporation, upon the nomination of the Trustees, for terms of one year, expiring at the corresponding monthly meeting of the corporation in the year following such election. Any person distinguished in business, public affairs, education or science, who is an officer, director, chief executive or partner of a Sustaining Associate (as defined in Article III of these by-laws) shall be eligible for election as a regular member.

(2) *Representatives of Affiliated Organizations* (as defined in Article II of these by-laws), who shall be elected by the members of the corporation at any meeting of the corporation, upon the nomination of the Trustees, for terms of one year, expiring at the corresponding monthly meeting of the corporation in the year following such election. Two such representatives may be elected for each Affiliated Organization which is a national or interstate organization. One such representative may be elected for each Affiliated Organization which is a state or local organization, or which is a department, bureau or agency of the United States Government.

(3) *Councillors*, who shall be elected by the members of the corporation at any meeting of the corporation, upon the nomination of the Trustees, for terms of five years, expiring at the corresponding monthly meeting of the corporation in the fifth year following such election. Any person eminent in business, public affairs, education or science shall be eligible for election as a Councillor.

The election of members shall be by vote of a majority of the members of the corporation who are present in person or by proxy at a meeting duly called and held, at which a quorum is so present.

Any member may resign from the corporation by notice in writing to the President.

¹ Adopted at the 251st Regular Meeting of NATIONAL INDUSTRIAL CONFERENCE BOARD, INC., held April 15, 1943. Subsequently amended in accordance with Article XV at the Trustees Meetings held on December 20, 1945, December 19, 1946, and April 17, 1947.

ARTICLE II

Affiliated Organizations

Any association composed of persons, firms or corporations engaged in business enterprise, or any department, bureau or agency of the United States Government, may apply for affiliation with NATIONAL INDUSTRIAL CONFERENCE BOARD, Inc., and upon acceptance of the application by the Trustees shall be designated as an "Affiliated Organization." Any association so designated which shall not contribute annually toward the maintenance of the services and facilities of the corporation \$1,000 or more, if the association is a national or interstate organization, or \$500 or more, if the association is a state or local organization, shall be deemed to have relinquished the rights and privileges of an Affiliated Organization. No financial contribution is expected from any department, bureau or agency of the United States Government which has been so designated as an Affiliated Organization. Subject to the foregoing, the designation of an Affiliated Organization shall continue in effect from year to year, unless revoked by the Trustees, or unless the affiliation is terminated by notice in writing from the Affiliated Organization to the President.

Affiliated Organizations shall have the right to representation in the membership of the corporation as provided in Article I.

ARTICLE III

Associates

Any person, firm, corporation, association, educational institution or governmental department, bureau or agency, which is concerned with the operation and development of business enterprise and which desires to cooperate with or to contribute toward the maintenance of the services and facilities of NATIONAL INDUSTRIAL CONFERENCE BOARD, Inc. may apply for recognition as an Associate thereof and upon compliance with such conditions (not inconsistent with these by-laws) as the Trustees may determine, may be accepted by the Trustees as an Associate, for the term of one year from the date of such acceptance, subject to renewal from year to year at the option of the Trustees.

The Associates shall be divided into three classes as follows:

- (1) Sustaining Associates, who make annual contributions of \$500 or more.
- (2) Subscribing Associates, who make annual contributions of amounts less than \$500.
- (3) Cooperating Associates, who make no financial contribution, but who cooperate, participate or assist in the research and conference activities of the corporation.

Associates shall have no voting rights or rights to representation in the membership of the corporation, but they shall have made available to them at all times, for their own exclusive and confidential use, such publications, services and facilities as in the judgment of its Trustees NATIONAL INDUSTRIAL CONFERENCE BOARD, Inc. can properly provide, having due regard for the contribution made by each Associate.

ARTICLE IV

Foreign Correspondents

Subject to the approval of the Trustees, the Chairman may from time to time appoint as Foreign Correspondents of NATIONAL INDUSTRIAL CONFERENCE BOARD, INC. persons notable in the economic and business life of foreign countries with which the United States is maintaining friendly relations. Foreign Correspondents shall be appointed for terms of three years and shall be eligible for reappointment. They shall have made available to them at all times, for their own exclusive and confidential use, the publications of NATIONAL INDUSTRIAL CONFERENCE BOARD, INC. and shall be expected to cooperate in its research and conference activities by transmitting information from time to time in regard to economic conditions and developments in their respective countries. They shall have no voting right or rights to nominate candidates for membership in the corporation.

ARTICLE V

Trustees

The business and affairs of the corporation shall be managed by thirty-one Trustees, including the President, ex officio. Only members of the corporation shall be eligible for election as Trustees. From and after the annual meeting of the corporation in 1943, the Trustees (not including the President) shall be at all times divided into three classes of ten members each, which shall be so arranged that the membership of respective classes shall expire in succeeding years. At each annual meeting of the corporation, or in default of election at such meeting, then at an adjournment thereof or at any subsequent meeting duly called and held, the successors to those Trustees whose terms end at such annual meeting shall be elected by vote of the members of the corporation, to serve for a term of three years and until their successors shall have been chosen and shall have qualified. In case any Trustee shall by death, resignation, incapacity to act, or otherwise, cease to be a Trustee during his term, his successor shall be chosen by the Trustees to serve for the remainder of his term and until his successor shall have been chosen and shall have qualified.

At a meeting of the Trustees held prior to the annual meeting of the corporation in each year, a Nominating Committee shall be appointed by the Trustees, in such number as the Trustees may determine. The Nominating Committee shall present at the annual meeting the names of candidates whom they recommend for election as Trustees to fill the places of the class whose terms then expire. At the meeting any member of the corporation present either in person or by proxy may also present nominations of candidates to fill one or more of such places.

The Trustees may by resolution provide for such other committees and may delegate to such committees such power as shall be deemed wise.

ARTICLE VI

Officers

At the first meeting of the Trustees held following the annual meeting of the corporation in each year, or in default of election at such meeting, then at an

adjournment thereof, or at any subsequent meeting duly called and held, the Trustees shall elect the following officers, viz.: A Chairman and one or more Vice-Chairmen of the corporation, a Chairman of the Trustees, and a Treasurer (each of whom shall be chosen from among the Trustees), a President (who shall become a member of the corporation and a Trustee, ex officio), and a Secretary, who shall not necessarily be a member of the corporation or a Trustee. The officers so elected shall serve for terms expiring at the first meeting of the Trustees following the annual meeting of the corporation after their election, or until their successors shall have been chosen and shall have qualified. The Trustees may at any meeting duly called and held by resolution appoint one or more Assistant Secretaries, one or more Assistant Treasurers, and such other officers as they may from time to time determine, to serve at the pleasure of the Trustees. A vacancy in any office may be filled by the Trustees at any meeting.

ARTICLE VII

Chairman and Vice-Chairmen of the Corporation

The Chairman of the corporation shall preside at all meetings of the corporation at which he shall be present. In his absence one of the Vice-Chairmen of the corporation shall preside at such meeting. He shall appoint the membership of all committees except as may otherwise be determined by the Trustees. He shall be ex officio a member of all committees, but shall be under no obligation to attend their meetings.

ARTICLE VIII

Chairman of the Trustees

The Chairman of the Trustees shall have a relation to the work and policies of the corporation similar to that of the chairman of the board of directors of business corporations. He shall preside at all meetings of the Trustees at which he shall be present. In his absence the Trustees present shall appoint one of their own number to preside.

ARTICLE IX

President

The President (who shall be ex officio a member of the corporation and of the Trustees) shall be the chief executive officer of the corporation, responsible for the administration of its affairs. He shall sign for the corporation all agreements and other formal instruments except as otherwise ordered by the Trustees. He shall be ex officio a member of all committees. In the absence or disability of the President, the Trustees may by resolution appoint another person to discharge the functions of the President.

ARTICLE X

Secretary

The Secretary shall record the minutes of meetings of the corporation and of the Trustees. Immediately upon the election of members he shall give notice in writing to them of their election. He shall have the custody of the corporate seal. He shall perform such other duties as may be assigned to him by the Trustees, the Chairman of the Trustees, or the President.

ARTICLE XI

Treasurer

The Treasurer, subject to such regulations as may from time to time be prescribed by the Trustees, shall be the custodian of the funds and securities of the corporation. He shall deposit the funds of the corporation in such banks or trust companies as may from time to time be designated by the Trustees. Such deposits shall be made subject to withdrawal on the signature of such person or persons as may be determined from time to time by resolution of the Trustees.

The securities of the corporation shall be deposited in such deposit vault or vaults or with such banks or trust companies as may from time to time be designated by the Trustees. Access to the securities may be had by such person or persons as may be determined from time to time by resolution of the Trustees.

At each annual meeting of the corporation the Treasurer shall make a report to it of the accounts for the preceding fiscal year. He shall keep proper books of account, showing at all times the character, value and amount of the property and funds of the corporation and such books shall be at all times open to the inspection of the members of the Trustees. At each meeting of the Trustees, when called upon to do so, he shall present a current financial statement of the corporation in such form as the Trustees shall direct.

His accounts shall be audited annually by an independent auditor or auditors who shall be named by the Trustees.

The Treasurer shall file with the corporation a bond for the faithful performance of his duties in such amount as may be fixed by the Trustees. The expense of such bond shall be paid by the corporation.

ARTICLE XII

Meetings of the Corporation

The annual meeting of the corporation shall be held on the fourth Wednesday in May in 1947 and succeeding years.

At the annual meeting the Trustees shall present a report, verified by the President and Treasurer, or by a majority of the Trustees, showing the whole amount of real and personal property owned by it, where located and where and how invested, the amount and nature of the property acquired during the year immediately preceding the date of the report and the manner of acquisition thereof; the amount applied, appropriated or expended during the year immediately preceding such date, and the purposes, objects or persons to or for which such applications, appropriations or expenditures have been made; and the names and places of residence of the persons who have been admitted to membership in the corporation during such year, which report shall be filed with the records of the corporation and an abstract thereof entered in the minutes of the proceedings of the annual meeting.

Unless otherwise determined by the Trustees, regular meetings of the members of the corporation shall be held on the third or fourth Thursday (as the Trustees may determine) of each month, except during June, July and August. All meetings of the corporation shall be held in the State of New York at such place as may be determined from time to time by the Trustees. Associates of NATIONAL INDUSTRIAL CONFERENCE BOARD, INC. may be invited to attend meetings of the corporation.

The Chairman of the corporation, the Chairman of the Trustees, the President, or any three members of the Trustees may call a special meeting of the corporation by not less than five days' written notice to the members, given by the Secretary or by the officer or the members calling such meeting.

Any member of the corporation may by writing or telegram appoint any other member of the corporation to act as his proxy at any meeting of the corporation.

Twenty members, present in person or by proxy, shall constitute a quorum for the transaction of business at meetings of the corporation, but in the absence of a quorum those present at the time and place set for a meeting of the corporation may take an adjournment from time to time until a quorum shall be present.

ARTICLE XIII

Meetings of the Trustees

Unless otherwise determined by the Trustees in advance of any meeting, regular meetings of the Trustees shall be held each month except during June, July and August. The meetings shall be held at such time and place in the State of New York as the Trustees shall determine.

The Chairman of the Trustees, the President, or any three members of the Trustees may call a special meeting thereof by not less than five days' written notice given by the Secretary, or by the officer or the members calling such meeting.

Eleven members present in person shall constitute a quorum for the transaction of business at meetings of the Trustees, but in the absence of a quorum those present at the time and place set for a meeting of the Trustees may take an adjournment from time to time until a quorum shall be present.

ARTICLE XIV

General Fiscal Provisions

The fiscal year of the corporation shall begin on the first day of May and end on the thirtieth day of April in each year.

Any two of the following persons, viz.: Chairman, Vice-Chairmen, Chairman of the Trustees, President and Treasurer, or any two persons designated by the Board of Trustees, shall have authority to execute such form of transfer and assignment as may be necessary to constitute a transfer of stocks, bonds or other securities standing in the name of or belonging to the corporation. A corporation or person transferring any such stocks, bonds or other securities pursuant to a form of transfer or assignment so executed shall be fully protected and shall be under no duty to inquire whether or not the Trustees have taken action in respect thereof.

ARTICLE XV

Amendments

Either the members of the corporation or the Trustees may amend these by-laws at any meeting the notice of which includes notice of the proposed amendment.
