## Chairman's Report 1991

*To the members of the  
Municipal Finance Authority  
of British Columbia*

It certainly is a pleasure to file the twenty-first annual report of the Municipal Finance Authority of British Columbia.

1991 has been an interesting year! Much that has happened in the past year has potential to build solid foundations for the future. Although it is accurate to observe that we in B.C. had a brush with a recession, it was much less severe than in Eastern Canada. Approximately 80% of Canada's job loss occurred in one Province alone—Ontario. Here in B.C., we have two factors working in our favour. Firstly, we have seen a dramatic change in our export patterns. In years gone by, we were heavily dependent upon the U.S. for our earnings, whereas today 50% of our exports go to Pacific Rim

countries. The second factor is a change in what we do. B.C. has traditionally been a resource-based economy, and while this is still largely true, by far the majority of new jobs are in the information and service industries. This new diversity has undoubtedly cushioned us in 1991.

Canada now has the lowest inflation rate of all the G7 countries. As a result of good economic fundamentals, the Canadian dollar remained a currency of choice world wide throughout most of the year. This tells us something about the country as it is viewed from afar. As Canadians, when we get down on Canada, we should look around the world at the alternatives. The Canadian dollar will continue to be an important stabilizing factor in an

Figure 1

unstable world provided we, as Canadians, are large enough to encompass the various views in our vast country.

Canada now has the lowest interest rates in 20 years and a strong currency to go with it! This combination will continue to provide a strong base for economic recovery.

Perhaps 1991 will be remembered by the man in the street as the year mortgages became affordable again.

At the Municipal Finance Authority, 1991 was a positive year. We almost doubled the size of the Bond Fund and the Money Market Fund. (Figure 1)

1991 was a year when the Bond Fund returned 19% to its investors, after all costs, the Money Market Fund returned 10% also after cost. We experienced almost 100% growth in both Funds. In addition, management revenue flowed through to our operating statement decreasing our dependence on tax levies and generating potential dividends. (Figure 2)

Your Board of Trustees policy is to remain on the tax roll for at least 10% of our overall costs of operation. As a result of the growth of our financial products, this policy will produce a dividend from time to time which will flow back to investment pool users. Both pools have exceeded growth expectations and this is likely to continue. This year we are seeking new legislation to satisfy other requests to use the pools from public institutions in B.C. like hospitals, schools, universities and colleges. We have sponsorship for this legislation from both the Ministries of Municipal Affairs and Finance.

Figure 2

In 1991 we initiated proceedings to take advantage of a strong Canadian dollar and low Canadian interest rates to call \$66 million of U.S. Pay bonds. (Figure 3)

We intend to continue the conversion of U.S. to Canadian currency policy as long as this window of opportunity remains with us. In the past we have agonized over the high cost of hedging U.S. dollar borrowings. This very successful refinancing operation will enable us to lock in substantial savings. (Figure 4)

Success to us as a body never means growth for growth's sake. We exist to cause innovative pressure in the market place resulting in a decline in your cost of money. Our growth in products has been achieved with no increase in staff largely because the products are contracted out to the private sector. Our staff component remains at five people (plus a student worker). Staff size may need to change in future if continued growth of the type experienced the last three years were to persist but with our present practice of contracting out perhaps continued growth can be our experience with no staff increases. We are on new ground and will have to monitor this closely. We have several studies underway to once more upgrade our systems. These will guide us in this period of growth, change and innovation.

This substantial increase in services and in range of products could not be achieved without the active and cheerful acceptance of new responsibilities by your small and immensely competent staff.

Figure 3

Another product offered to local government is our Interim Borrowing Pool. As of January 1, 1992, we cut our lending rate by  $\frac{1}{16}\%$  on the Pool to prime minus  $\frac{9}{16}\%$ . Still, many municipalities are borrowing at prime rate, but we note a continued use of the Borrowing Pool. As this facility grows, we will also keep the concept of a commercial paper program current in our planning. At this point we do not have the required volume. This could change more quickly than anticipated as our new partners are permitted to access our facilities.

New long term capital borrowing requirements were met in the spring and fall. In March we raised \$46 million in the Canadian market by way of a  $9\frac{7}{8}\%/10\frac{1}{4}\%$  series of 15-year debentures. The 15-year debentures are retractable at the holder's option in 1996. In September we borrowed \$41,000,000 five year  $9\frac{1}{2}\%$  debentures due October 31, 1996. Both issues were well received by the public as the MFA continues to enjoy excellent credit ratings. (Figure 5)

At the end of 1991 the MFA debt comprised 83.9% in Canadian funds; 16% in U.S. funds and 0.08% in Swiss francs and 0.02% in Deutschmarks. If we look at the standings at the close of the last issue, February 20, 1992, our debt comprised 89% in Canadian funds and 10.9% in U.S. funds.

At December 31, 1991, long-term debt outstanding of the Authority was \$1.28 billion. During 1991, payments of principal and interest in excess of \$210 million were received from the regional districts and municipalities. At December 31, 1991, investments

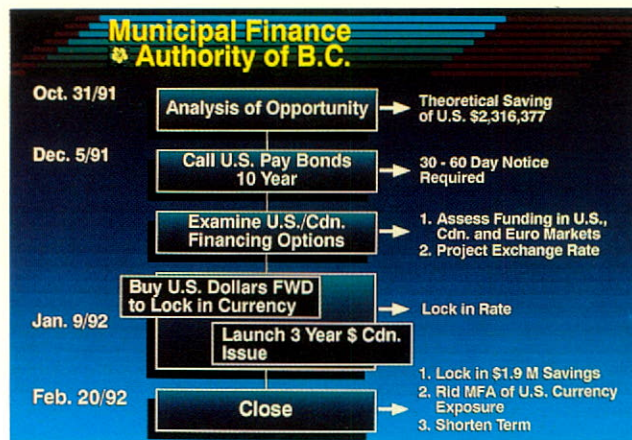

Figure 4

managed by our own staff totalled \$458 million, broken down as follows:

Debt Reserve Fund	\$62 million
Sinking and other Debt Servicing Funds	\$396 million
Interest earnings in 1991 were	\$44.658 million

The types of investment securities which may be held by MFA are regulated by the Act. At December 31, 1991, the Authority's portfolio consisted of \$74.2 million of securities of or guaranteed by the Government of Canada, \$240.7 million of securities of or guaranteed by provincial governments, \$18.0 million of securities of or guaranteed by Canadian chartered banks, \$2.4 million of securities of or guaranteed by British Columbia credit unions, \$33.9 million of securities of municipal governments in Canada and \$88.8 million of obligations of the Authority.

Also, at December 31, 1991, investments managed by our Fund Manager, Phillips, Hager & North Ltd., totalled \$335 million broken down as follows:

Money Market Fund	\$273 million
Bond Fund	\$62 million

Another interesting figure in 1991 is the \$4.925 million of the Debt Reserve Fund contributions and earnings returned to our constituents. In the early years of the Authority, the legislation called for regional districts and municipalities to make their contribution to the Debt Reserve Fund wholly in cash. After the first five bond issues, the legislation was changed to set the cash contribution at 1% of the principal amount borrowed with the balance

secured by a non-interest bearing demand note. The high 1991 figure includes the refunds to the 20-year borrowers in MFABC Issue #1.

At this time I would like to thank my Board of Trustees whose input has been positive throughout the whole year. Also, I would like to thank the Ministry of Municipal Affairs, Recreation and Housing and the Ministry of Finance and Corporate Relations for their cooperation.

I would like to finish on a very personal note and make some comments on our present constitutional impasse. We in this room have watched the massive indifference with which the world markets have viewed our internal wranglings. Taken in the context of other balkanizations in the world, our polite posturings are not nearly as significant as we view them. However, I think that there are enough studies now published to let us know that there will be a significant penalty to pay if we do not reach a constitutional accord. I think that the time has come to let our federal, and provincial, leaders know that Canada is worth saving. Let them know that we will not go gently into the insignificance or annexation that awaits a series of regional groupings. Let our French and Native Canadians know that we care, and we believe that the great Canadian skill of compromise can keep our country together that we, together, can continue our role of world leaders in decency. As municipal leaders in British Columbia, we *can* make a difference.

R. Dan Cumming, *Chairman*

The Staff of Municipal Finance Authority of British Columbia

# How the Municipal Finance Authority Functions

## CAPITAL FINANCING

### RESPONSIBILITY

The Municipal Finance Authority of British Columbia was established in 1970 by the Municipal Finance Authority of British Columbia Act, Chapter 292, Revised Statutes of British Columbia, 1979.

Regional districts and municipalities in British Columbia finance through the Authority all long-term capital requirements except those met by senior levels of government.

The City of Vancouver is the only municipality in the Province which retains the right to issue its own securities to finance capital projects. Taxable land and improvements within the City of Vancouver are, nevertheless, subject to rates levied by the Municipal Finance Authority.

### REPRESENTATION

The Province of British Columbia is divided into twenty-nine regional districts, each of which is governed by a Regional Board consisting of representatives of its member municipalities and unincorporated areas.

The members of the Municipal Finance Authority are appointed by the Regional Boards; the number of members to which a regional district is entitled is based upon its population.

The executive and administrative powers and duties of the Authority are exercised and performed by a Board of Trustees consisting of the Chairman of the Authority and six other members, elected annually. The Capital Regional District and the Greater Vancouver Regional District must be represented on the Board of Trustees.

### FUNDING

When the municipalities, through the regional districts, and the regional districts on their own behalf, wish to finance their capital projects, they present their approved requests to the Municipal Finance Authority.

Taking into account market and economic conditions pertaining, the members of the Authority may authorize the issue and sale of securities in an amount sufficient to meet the requests.

Securities of the Authority, not exceeding the amount authorized, may then be issued at such rates and pursuant to such terms and conditions and in such markets and currencies as the board of trustees may determine. Under the Act, the Authority has power to provide for the creation, management and application of sinking funds or other means of securing the repayment of securities issued by the

Authority, including the redemption by call of securities issued subject to redemption in advance of maturity.

A separate account is maintained for each sinking fund securities issue and moneys at the credit of a sinking fund which cannot be immediately applied toward paying the debt or discharging the obligation may be invested in:

- (a) securities of the government of Canada or a province of Canada, or
- (b) securities, the principal and interest of which are guaranteed by the government of Canada or a province of Canada, or
- (c) securities of a municipality or regional district in British Columbia, or of a local, municipal or regional government in another province of Canada, maturing not later than the securities for which the sinking fund was created, or
- (d) investments guaranteed by a Canadian chartered bank, or
- (e) deposits in, or shares or other evidences of indebtedness of, a credit union incorporated under the British Columbia Credit Union Act, or
- (f) securities of the Municipal Finance Authority of British Columbia maturing not later than the securities for which the sinking fund was created.

### PROTECTION FOR INVESTORS

In British Columbia, the combined credit of all the regional districts and their member municipalities—which together have essentially all the taxable land and improvements in the Province—stands behind the Authority's obligations.

In addition, the Authority has established a debt reserve fund into which each regional district sharing in the proceeds of a securities issue having a term to maturity of over two years must contribute an amount equal to one-half the average annual instalment of principal and interest for repayment of the issue; such amount is payable to the Authority at the time of issue either in full or in an amount equal to one percent of the principal amount borrowed with the balance secured by a non-interest bearing demand note of the regional district issued to the Authority. Moneys paid into the debt reserve fund, and interest earned thereon, are obligations of the Authority to the regional districts and must be refunded to them when the final instalments of their loans have been repaid. However, where a municipality has discharged its obligation to a regional district with respect to a securities issue, the Authority may, during the term of the issue, subject to approval by the Inspector of Municipalities, repay to the regional district for the credit of the municipality a portion of the money which is an obligation to the regional district and the money so paid shall be applied to reduce that obligation.

If, at any time, the Authority lacks sufficient funds to meet principal, interest or sinking fund payments due on its obligations, it must utilize the debt reserve fund, all or any part of which is available to satisfy the Authority's obligations, regardless of the sources of the moneys in the fund. In the event that payments are made from the debt reserve fund, the Authority will recover such payments from the regional districts involved in order to restore the debt reserve fund. If the Trustees are of the opinion that payments made from the debt reserve fund will not be recovered within a reasonable period, they may levy upon all taxable land and improvements in the Province a tax sufficient to restore the fund to its required amount. It is mandatory for the Trustees to levy such a tax when the balance in the debt reserve fund is less than fifty percent of the required amount. The Trustees' power to impose taxes does not require the permission or approval of any other governmental authority. Pending the receipt of such taxes, the Authority may borrow an equivalent amount to meet its obligations.

The provincial government has undertaken to assure that the debt reserve fund will be maintained in accordance with the Municipal Finance Authority Act and the Inspector of Municipalities may inspect the fund from time to time and issue a certificate that it has been maintained at the proper level.

Moneys in the debt reserve fund may be invested in:

- (a) securities of the government of Canada or a province of Canada, or
- (b) securities, the principal and interest of which are guaranteed by the government of Canada or a province of Canada, or
- (c) deposits in, or investments guaranteed by a Canadian chartered bank, or
- (d) deposits in, or shares or other evidences of indebtedness of, a credit union incorporated under the British Columbia Credit Union Act.

Such investments must mature or be callable within five years and at least twenty-five percent of the fund must be callable within ninety days.

#### **ADDITIONAL PROTECTION FOR INVESTORS**

Regional districts and their member municipalities financing through the Municipal Finance Authority must obtain the same provincial approvals as would be required if they were issuing their own securities. In this way, all the safeguards imposed by the Provincial Legislature on the incurring of indebtedness by regional and municipal governments are retained. Such safeguards include the requirement that the Inspector of Municipalities approve the debt and user charges, if any, and other taxes to service the debt. In addition, sewer and water projects require the issuance of a certificate of self-liquidation by the Inspector of Municipalities.

Limitations on the borrowing power of a regional district for each function may be specified in its letters patent. The total indebtedness which a municipality may contract is limited to a percentage of the assessed value for general municipal purposes of the taxable land and improvements within the municipality and the value of the utility systems and other municipal enterprises for which the municipality has a subsisting certificate of self-liquidation granted by the Inspector of Municipalities.

## **POOLED INVESTMENTS**

### **ORGANIZATION**

The Municipal Finance Authority Act was amended in 1988 to extend the objects of the Authority to provide short term investment opportunity for regional districts and municipalities in British Columbia by the establishment and operation of pooled investment funds.

Two funds have been established and operations commenced in May 1989.

### **PARTICIPATION**

Participation in the funds by the regional districts and municipalities is voluntary.

### **INVESTMENT ACTIVITIES**

The investment activities of the funds are governed by the Municipal Finance Authority Act and a charter of investment policies, objectives and guidelines.

## **INTERIM FINANCING**

### **ORGANIZATION**

In 1990, the Municipal Finance Authority Act was further amended to add interim financing for regional districts and municipalities to the objects of the Authority.

The Short Term Debt Fund was established and commenced operations on December 31, 1990.

### **PARTICIPATION**

Participation in the interim financing program by the regional districts and municipalities is voluntary.

### **PURPOSES FOR WHICH INTERIM FINANCING MAY BE PROVIDED**

The Authority may provide financing for one or more of the following purposes:

- (a) temporary financing of capital projects under section 342 or 815 of the Municipal Act,
- (b) financing of short term debts of a capital nature under section 344 or 813 of the Municipal Act, and
- (c) borrowing in anticipation of tax revenues under section 346 or 812.1 of the Municipal Act.

Kyuquot, Comox-Strathcona Regional District

# CAPITAL FINANCING

## Auditors' Report 1991

TO THE MEMBERS OF THE MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

We have audited the balance sheets of the Operating Fund, Debt Fund, Capital Repayment Equalization Fund, Debt Reserve Fund and Market Development Fund of the Municipal Finance Authority of British Columbia and the combined balance sheet of these funds as at December 31, 1991, the statements of revenue, expenditure and surplus and changes in financial position of each of these funds and the combined statements of revenue, expenditure and surplus and changes in financial position of these funds for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of those funds of the Municipal Finance Authority of British Columbia as at December 31, 1991, and the results of their operations and the changes in their financial position for the year then ended in accordance with accounting principles described in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

## Notes to Financial Statements–All Funds

DECEMBER 31, 1991

### 1

#### Organization

The Municipal Finance Authority of British Columbia (the "Authority"), created in 1970 by the Municipal Finance Authority Act (the "Act"), is the central borrowing agency for financing of capital requirements (other than for schools and hospitals) for regional districts and their member municipalities in the Province of British Columbia (the "Province"). The Authority issues its own securities and lends the proceeds to the regional districts on whose request the financing is undertaken. Obligations of the Authority are not obligations of the Province and are not directly or indirectly guaranteed by the Province.

In 1988, the Act was amended to provide short term investment opportunity for regional districts and municipalities by the establishment and operation of pooled investment funds. Such pooled investment funds commenced operations in May 1989 and are reported as a separate and distinct division of the Authority.

In 1990, the Act was further amended to provide interim financing for regional districts and municipalities. The Short Term Debt Fund was established and commenced operations on December 31, 1990 and is reported, also, as another division of the Authority.

The Authority follows the normal local government accounting practice of maintaining its accounts according to the principles of fund accounting, a technique by which its financial resources are segregated for specific activities or to attain certain objectives. Five funds are maintained within the Capital Financing division. A brief description of each fund and its purpose is as follows:

#### OPERATING FUND

The Act provides for the establishment of an operating fund to meet the annual operating budget. For this purpose, the Authority may impose, annually, rates not exceeding the prescribed rates on all taxable land and improvements in the Province.

The Operating Fund receives management fees from the Pooled Investment Funds and the Short Term Debt Fund and pays the costs of their operation.

#### DEBT FUND

The Authority's capital financing activities on behalf of the regional districts in the Province are recorded in the Debt Fund.

#### CAPITAL REPAYMENT EQUALIZATION FUND

The Capital Repayment Equalization Fund is a repository for repayments from the regional districts under their loan agreements in advance of the Authority's requirements on its related indebtedness. Transfers, not exceeding the amount available in respect of each issue, are made to the Debt Fund to meet the Authority's obligations when due.

#### DEBT RESERVE FUND

Under the Act, the Authority is required to establish a Debt Reserve Fund. Each regional district sharing in the proceeds of a securities issue is required to pay into the Debt Reserve Fund an amount equal to one-half the average annual instalment of principal and interest in respect of its own borrowing together with one-half the average annual instalment of principal and interest as set out in the agreements entered into with the regional district by member municipalities in respect of their borrowings; such amount is payable either in full or in an amount equal to 1% of the principal amount borrowed with the balance secured by a non-interest bearing demand note.

If, at any time, the Authority does not have sufficient funds to meet payments or sinking fund contributions due on its obligations, the payments or sinking fund contributions shall be made from the Debt Reserve Fund.

#### MARKET DEVELOPMENT FUND

The development of markets for the Authority's securities issues is segregated in the Market Development Fund. It is funded by transfers from the Operating Fund.

### 2

#### Significant accounting policies

A summary of significant accounting policies is as follows:

#### PRIOR YEAR'S SURPLUS

The Authority appropriates the prior year's surpluses to current revenue except the Debt Fund surplus which relates to the sinking funds.

#### INCOME RECOGNITION

The annual operating levy is recognized as revenue in the Operating Fund when the rates have been set by the Authority in March of each year. It is collected on behalf of the Authority by the municipalities in the Province and the Provincial Surveyor of Taxes and is payable to the Authority on August 1 each year.

#### OFFICE FURNITURE, FIXTURES AND EQUIPMENT

Office furniture, fixtures and equipment are written off in the year of acquisition.

#### INTEREST ACCRUALS

Interest is accrued only on investments. Accrued interest receivable from the regional districts under the loan agreements and accrued interest payable on the long-term debt are not recorded, except for unpaid matured interest coupons on coupon debentures which are recognized as accounts payable in the Debt Fund.

**AMORTIZATION OF ISSUE  
AND REFUNDING COSTS**

The issue and refunding costs are being amortized on a straight-line basis over the average lives of the securities issues to which they relate.

**FOREIGN CURRENCY  
TRANSACTIONS**

The long-term debt payable in foreign currencies is recorded in equivalent Canadian dollars at the exchange rates prevailing when the debt was incurred except the debt payable in U.S. dollars which is stated at the rate of U.S. \$1 equals Canadian \$1.

The Authority does not adjust its assets and liabilities denominated in foreign currencies to reflect the exchange rates at the balance sheet date since, in the opinion of the Authority, its foreign exchange exposure is fully hedged by virtue of its contractual arrangements with the regional districts on whose behalf the financing is undertaken and/or by the application of certain sections of the Act which, essentially, provide that all monetary risks, including foreign currency risks, are obligations of the regional districts.

**INVESTMENTS**

Investments are carried at cost, adjusted for amortization of premiums and accretion of discounts on a yield basis, including the investments in its own securities.

**SINKING FUNDS**

Under the Act, obligations of the Authority purchased for a sinking fund account together with interest, premium, or exchange derived from them shall be held to the credit of that sinking fund account but may be resold, subject to approval by the Inspector of Municipalities. However, securities purchased in anticipation of mandatory annual redemptions for sinking fund purposes are cancelled immediately in accordance with the terms of such issues.

**3  
Investments**

	1991		1990
	Par value	Book value	Book value

The Authority	47,491	47,309	12,348
	<u>\$ 276,278</u>	<u>256,061</u>	<u>197,557</u>
<b>DEBT RESERVE FUND</b>			
Securities of:			
Government of Canada, direct or guaranteed	\$ 11,551	11,031	12,844
Provincial governments, direct or guaranteed	47,946	46,597	37,477
Chartered banks, direct or guaranteed	4,300	4,295	8,817
	<u>\$ 63,797</u>	<u>61,923</u>	<u>59,138</u>

**4  
Loans to  
regional districts**

Loans to regional districts include \$197,079,857 (1990—\$216,200,914) denominated in U.S. dollars.

Under the Act, each regional district sharing in the proceeds of a securities issue must pay over to the Authority such sums as are required to discharge its obligations to the Authority in respect of such securities issue, but if the scheduled payments provided for under the loan agreement are not sufficient to meet the Authority's obligations in respect of that securities issue, the deficiency is a liability of the regional district to the Authority.

At the exchange rates prevailing at December 31, 1991, the scheduled payments under the agreements with the regional districts in respect of the securities payable in Swiss francs and Deutschmarks will not provide sufficient funds to meet the Authority's related obligations when due. Such deficiencies may be met from the Debt Reserve Fund (see Note 6).

When the Authority, under Section 12(1) of the Act and with the approval of the Inspector of Municipalities, has determined that the amount of the assets in the sinking fund and/or the Capital Repayment Equalization Fund together with the anticipated earnings for that fund is greater than the amount which will be required to repay the debt or discharge the obligation and has declared that there is an anticipated surplus in the fund of a specified amount, the scheduled future payments of both principal and interest from the regional districts under the related loan agreements are suspended.

The aggregate principal payments recoverable from the regional districts in each of the next five years (excluding principal payments suspended as outlined above) are as follows:

	1991	1990
THOUSANDS OF DOLLARS		
1991	\$	58,690
1992	<b>62,325</b>	59,225
1993	<b>63,609</b>	60,447
1994	<b>63,883</b>	60,721
1995	<b>65,982</b>	62,820
1996	<b>61,251</b>	

## 5 Due to sinking and other funds

The Authority may invest sinking fund and Capital Repayment Equalization Fund monies in its own securities maturing not later than the securities for which the sinking or Capital Repayment Equalization Fund account was created.

In addition to its own securities purchased under this provision, loans to the Debt Fund and the Short Term Debt Fund totalling \$565,027 (1990-\$433,481) together with accrued interest of \$8,370 (1990-\$684) were outstanding at December 31, 1991. Like the securities, the loans are included in the sinking fund assets and in investments and receivables in the Capital Repayment Equalization Fund and they have not been eliminated in the combined statements.

## 6 Debt Reserve Fund

The amounts due to the regional districts will be repaid to them when they have made the final payment under their respective loan agreements. However, where a municipality has discharged its obligation to a regional district with respect to a securities issue, the Authority may, subject to approval by the Inspector of Municipalities, repay to the regional district for the credit of the municipality a portion of the money which is an obligation to the regional district and the money so paid shall be applied to reduce that obligation.

If, at any time, the Authority does not have sufficient funds to meet payments or sinking fund contributions due on its obligations, the payments or sinking fund contributions must be made from the Debt Reserve Fund. During 1991, a deficiency of \$135,720 (1990-\$235,630) in the amount of funds available to meet the principal and interest payments on the Deutschmark loan has been met by a transfer from the Debt Reserve Fund. Such deficiency is recovered in the following year from the participating regional districts under the terms of their loan agreements.

If the Trustees of the Authority are of the opinion that the payments made from the Debt Reserve Fund may not be recovered under the terms of the loan agreements within a reasonable time, they may levy or impose upon substantially all taxable land and improvements in the Province rates sufficient to maintain the Debt Reserve Fund at a level not exceeding the amount which would have been in the fund had no such payments been made. Further, the Board of Trustees must impose such rates when the balance in the fund is less than fifty percent of the amount that would have been in the fund had no such payments been made.

## 7 Long-term debt

The aggregate long-term debt maturities and sinking fund requirements in each of the next five years are as follows (including the debt payable in European currencies at the exchange rates prevailing at December 31, 1991 and provision for early redemptions at the option of the bondholder):

	1991	1990
THOUSANDS OF DOLLARS		
1991	\$	44,060
1992	<b>130,609</b>	74,738
1993	<b>121,378</b>	134,277
1994	<b>53,967</b>	65,589
1995	<b>44,768</b>	60,027
1996	<b>110,810</b>	

Certain securities issues are subject to specific annual redemptions for sinking fund purposes. By purchasing the securities at discount in the open market in anticipation of the sinking fund requirements, the Authority has, to December 31, 1991, retired \$2,154,000 (1990-\$6,584,000) of such debt in advance of the scheduled redemptions for sinking fund purposes.

Since the maturities of certain of the Authority's securities issues and the related loans to the regional districts do not coincide, refunding of a portion of such securities issues will be required in future years.

## 8

## Foreign currencies

The long-term debt payable includes the following amounts payable in foreign currencies:

		1991	1990
United States dollars	US\$	205,342,000	218,419,000
Swiss francs	SFr	1,063,423	2,072,500
Deutschemarks	DM	825,000	1,650,000

No exchange gains or losses accrue to the Authority in respect of the debt payable in U.S. dollars since the related loans to the regional districts are denominated in U.S. dollars and the loan agreements provide for repayment to the Authority in U.S. dollars. In the case of other long-term debt denominated in European currencies, the Authority is not at exchange risk (see Note 2).

## 9

## Sinking funds

The annual deposits to the sinking funds for securities issues payable in Canadian dollars are based on an interest rate of 5% per annum, capitalized yearly.

The assets and the surpluses of the sinking funds are as follows:

	1991		1990
	Par value	Book value	Book value
THOUSANDS OF DOLLARS			
Securities of:			
Government of Canada, direct or guaranteed	\$ 35,361	26,318	33,154
Provincial governments, direct or guaranteed	64,558	59,822	37,119
Chartered banks, direct or guaranteed	3,128	2,945	4,063
Credit Unions in the Province	625	625	—
Regional Districts and Municipalities in Canada	8,952	8,818	7,523
The Authority	46,230	41,450	39,573
	<u>\$ 158,854</u>	<u>139,978</u>	<u>121,432</u>
Cash		632	677
Accrued interest and other		1,475	1,025
Total assets		142,085	123,134
Less: Assets in excess of the related debt		6,081	3,018
		<u>136,004</u>	<u>120,116</u>
Accumulated actuarial requirements for retirement of the related debt		88,329	78,509
Excess of assets over accumulated actuarial requirements		<u>\$ 47,675</u>	<u>41,607</u>

## 10

Capital Repayment  
Equalization Fund—  
surplus

The surplus relates directly to specific securities issues and, if not otherwise appropriated for payment of principal and/or interest during the term of such issues, will be paid over to the regional districts for which the financing was undertaken.

## 11

## Commitments

The minimum future rental commitments for premises and equipment are as follows:

	Premises	Equipment	Total
1992	\$ 46,371	7,722	54,093
1993	46,371	7,722	54,093
1994	46,371	7,722	54,093
1995	46,371	5,370	51,741
1996	30,914	—	30,914

## Debt Fund—References to Schedule of Long-Term Debt

DECEMBER 31, 1991

- 1 Non-callable prior to maturity.
- 2 The sinking fund has been calculated to provide for retirement of the issue at maturity.
- 3 Redeemable at holder's option on June 1, 1994. Callable upon the imposition of withholding taxes at 101.50% reducing to 100% at maturity.
- 4 Non-callable prior to December 6, 1994 except for sinking fund purposes. Callable on December 6, 1994 and thereafter at any time at 100%.
- 5 Callable on December 6, 1997 and thereafter at any time at 100%.
- 6 Non-callable except for sinking fund purposes.
- 7 Callable upon the imposition of withholding taxes at any time at 100%.
- 8 Non-callable prior to maturity unless lender so agrees.
- 9 Callable on December 5, 1999 and thereafter at any time at 100%.
- 10 Callable on June 12, 2000 and thereafter at any time at 100%.
- 11 Callable on December 12, 2000 and thereafter at any time at 100%.
- 12 Callable on October 23, 2003 and thereafter at any time at 100%.
- 13 Redeemable at holder's option on May 11, 1993.
- 14 Redeemable at holder's option on May 9, 1994.
- 15 Redeemable at holder's option on October 24, 1995.
- 16 Redeemable at holder's option on May 8, 1996.
- 17 Called for redemption on February 20, 1992 at 103.50%.
- 18 Called for redemption on February 20, 1992 at 103.25%.
- 19 Called for redemption on February 20, 1992 at 102.75%.
- 20 Non-callable prior to December 1, 1995 except for sinking fund purposes. Callable on December 1, 1995 and thereafter at any time at 105.02% reducing to 100% on or after December 1, 2004.
- 21 Redeemable at holder's option on October 28, 2000. Callable on October 28, 1993 and thereafter at 103% reducing to 100% from October 28, 1999 to October 28, 2000. The interest rate is effective until October 28, 2000; it will be reset by the Authority from October 29, 2000.

## Auditors' Report 1991

TO THE MEMBERS OF THE MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

We have audited the balance sheets of the Money Market Fund and Bond Fund of the Municipal Finance Authority of British Columbia and the combined balance sheet of these funds as at December 31, 1991, and the statements of operations and changes in net assets and changes in investments and the combined statements of operations and changes in net assets and change in investments for these funds for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Money Market Fund and Bond Fund of the Municipal Finance Authority of British Columbia as at December 31, 1991 and the results of their operations and the changes in their net assets for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

*Peat Marwick Thorne*

## Notes to Financial Statements

DECEMBER 31, 1991

### 1

#### Organization

The Pooled Investment Funds are established and operate under Section 13.1 of the Municipal Finance Authority Act. Two funds are maintained:

- (a) Money Market Fund which commenced operations on May 1, 1989; and
- (b) Bond Fund which commenced operations on May 10, 1989.

Both funds are authorized to issue an unlimited number of units, each of which represents an equal undivided interest in the net assets of the respective funds, pro rata, with all other units from time to time issued and outstanding. Units are issued or redeemed at \$1,000 per unit.

### 2

#### Significant accounting policies

A summary of significant accounting policies for each fund is as follows:

##### MONEY MARKET FUND

- (a) Investments are carried at amortized cost which approximates market value.
- (b) Interest income is recognized as earned.
- (c) Management fees are accrued daily at the rate of  $\frac{3}{20}$  of 1 percent per annum of the net assets of the fund and are paid monthly to the Operating Fund of the Municipal Finance Authority of British Columbia.
- (d) Net change in net assets from operations is distributed to unitholders daily as additional units of the fund.

##### BOND FUND

- (a) Investments are carried at market values which are determined as follows:  
Bonds and debentures—at the quoted mid-market value; and  
Treasury bills, short-term notes, etc.—at amortized cost which approximates market value.
- (b) Investment transactions are accounted for on the trade date and gains/losses from such transactions are calculated on an average cost basis.
- (c) Interest income is recognized as earned.
- (d) Management fees are accrued weekly, and at month-end, at the rate of  $\frac{1}{5}$  of 1 percent per annum of the net assets of the fund and are paid monthly to the Operating Fund of the Municipal Finance Authority of British Columbia.
- (e) Net change in net assets from operations is distributed to unitholders weekly, and at month-end, as additional units of the fund.

# INTERIM FINANCING

## Auditors' Report 1991

TO THE MEMBERS OF THE MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

We have audited the balance sheets of the Short Term Debt Fund of the Municipal Finance Authority of British Columbia as at December 31, 1991, and the statements of revenue, expenditure and surplus and changes in financial position for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Short Term Debt Fund of the Municipal Finance Authority of British Columbia as at December 31, 1991 and the results of their operations and the changes in their net assets for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## Notes to Financial Statements

DECEMBER 31, 1991

- 1 **Organization**  
The interim financing program was established on December 31, 1990 and operates under Section 9.1 of the Municipal Finance Authority Act.
- 2 **Significant accounting policies**  
A summary of significant accounting policies is as follows:  
(a) Interest income is recognized as earned, and  
(b) Interest payable is accrued on a daily basis.
- 3 **Notes receivable**  
The notes receivable relate to loans for the following purposes:

	1991	1990
THOUSANDS OF DOLLARS		
Temporary financing of capital projects	\$ 2,520	—
Short-term capital borrowing up to five years	1,163	400
	<u>\$ 3,683</u>	<u>400</u>
- 4 **Bank loan**  
The Authority has entered into an agreement under which the bank provides a revolving credit facility for the interim financing requirements until December 31, 1992 (extendable semi-annually at the option of the bank for successive 6-month periods provided that availability shall not extend past December 31, 1994).
- 5 **Management fees**  
The management fees are paid to the Operating Fund of the Municipal Finance Authority of British Columbia.
