# Chairman's Report—1986

TO THE MEMBERS OF THE MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

---

*James H. Stuart*

CHAIRMAN

It is my pleasure and privilege to submit the sixteenth annual report of the Municipal Finance Authority of British Columbia.

We experienced a year of changing economic circumstances which worked together to produce a generally favourable climate for borrowing.

Several factors were noteworthy, particularly the sharp drop in oil prices. This was a key factor in keeping inflation numbers down. Low inflation numbers helped keep interest rates trending down. We broke through the double digit barrier in the spring of 1986 with a 15-year issue at 9.375% annual which translates into a semi-annual interest rate of 9.125%; a rate lower than any we have seen since 1977.

The low oil prices did not trigger the increase in world growth that some economists had predicted and oil prices had a very different economic effect depending on whether the country was an oil exporter or an oil importer. The Third World suffered

revenue losses which in turn impacted on their ability to service debt adding to the concerns for the world wide economy.

In Canada, oil revenues dipped impacting negatively on the economies of the western provinces and, in turn, on the size of the provincial and federal deficits. The price of oil, linked to inflation as it is, will be an important factor in the coming year's financing.

The United States dollar has declined against other world currencies since early 1985. The Canadian dollar has largely tracked this decline. As a result, the United States is now in a better position to tackle the large trade imbalances presently in effect between themselves and other countries like Germany and Japan—that will be comforting as trade imbalances bring protectionist threats to the forefront. We will be watching with interest what effect the softwood settlement will have on the B.C. economy. The recent rise in the stock prices of British

Columbia based timber companies would seem to indicate that the market is relieved that the issue seems to be finally settled and that is encouraging.

The ongoing free trade talks between the United States and Canada will certainly affect our economic fortunes. Also this year, changes in regulations set by the Ontario Securities Commission will dramatically change the way that Canadian investment dealers do business.

In 1986, as has been the pattern for the last four years, the MFA's borrowing requests were moderate. We took advantage of this year's low rates to lengthen term on a \$50 million rollover during the spring of 1986 and combined it with our spring requirements. This increased liquidity and decreased the cost of the borrowing. This spring issue raised \$65.5 million Canadian over a 15-year term in Europe relending at rates of 9.375% semi-annual. The fall issue raised \$31.6 million in Canada, relending at rates of 9.375% for the five-year term increasing by  $\frac{1}{8}$  of 1% to 9.875% for the 25-year borrowers.

The fall issue was noteworthy on two accounts. The issue was split into \$5.6 million serial debentures (1 to 5 years) and \$26 million debentures (all maturing in 20 years), and it was the first issue we have launched with only fully registered bonds. In the past, bearer bonds have always been made available to investors as an option; they are much more costly to handle in our inventory over the life of the issue and they materially add to printing costs.

Since 1985, long-term issues of the authority sold in Canada have been designed so that further debentures of the same series can be sold in a subsequent financing in order to provide increased marketability. Happily, each successive series has borne a lower interest rate, so none has been re-opened.

At the close of 1986, long-term debt outstanding was one billion, two hundred and twenty million; during 1986 payments of principal and interest in excess of \$188 million were received from our regional

districts and municipalities. At December 31, 1986, investments managed totalled \$205 million, broken down as follows:

Debt Reserve Fund \$31.8 million.

Sinking and related debt servicing funds \$173.6 million.

Interest earnings in 1986 totalled \$19.6 million.

The types of investments which may be held by the Municipal Finance Authority are regulated by our Act. At December 31, 1986 our portfolio consisted of \$60.2 million of securities of or guaranteed by the Government of Canada, \$48.9 million of securities of or guaranteed by Provincial Governments, \$54 million of securities of or guaranteed by Canadian chartered banks, \$1 million of securities of B.C. credit unions, \$4.4 million of securities of municipal governments in Canada and \$36.9 million of obligations of the Municipal Finance Authority.

During 1986 we again moved our office quarters, this time from the 1st floor to the 2nd floor of International House. This move lowers our accommodation costs by a considerable amount over the next 10 years while providing us with a more functional setting.

We continued to devote much time to working with rating agencies. In addition to the well-known firms of Moody's and Standard and Poor's, we have been visited by the Canadian Bond Rating Service, the Dominion Bond Rating Service and the Japan Credit Rating Agency this year. The unique Municipal Finance Authority concept always requires some explanation, but is well received once understood. An important part of our job is to be available to answer the many questions that naturally arise in the course of these lengthy examinations.

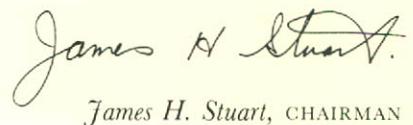

After consultation with the larger participants in the Swiss franc issue, the board of trustees agreed to refinance the Swiss franc loan in Canadian dollars when it matures on November 15, 1987.

---

We have a final report on the short-term investment pool account which would allow municipalities to pool their investments through the MFA if they choose so to do. This concept would be at arms length from our regular long-term financing activities. It will be contracted out periodically and will require special legislation. If the Authority adopts the principle of pooling short-term investments, we will apply for the necessary legislation.

The Municipal Finance Authority does not work in isolation, and I would like to record our thanks to the Ministry of Municipal Affairs and the Ministry of Finance who are to be commended for their continuing co-operation and support. Dealing with these Ministries is always a pleasure; formally and informally, the doors are always open. This exchange of information is an important component of our operation.

I would like to draw your attention to the fact that three members of the Board of Trustees will not be returning this year. Ross Marks has been a member of the Authority since 1975 and a Trustee since 1980; Alan Emmott came on the Board in 1982 and was elected a Trustee in 1983; Pat Wallace was a member of the Authority Board since 1983 and a Trustee since 1984. They have given unstintingly of their time and abilities and they will be missed by all of us. I would like to thank them and the other members of the Board and the staff of the Municipal Finance Authority for their energy and enthusiasm. It has been a real pleasure working with them throughout this year.

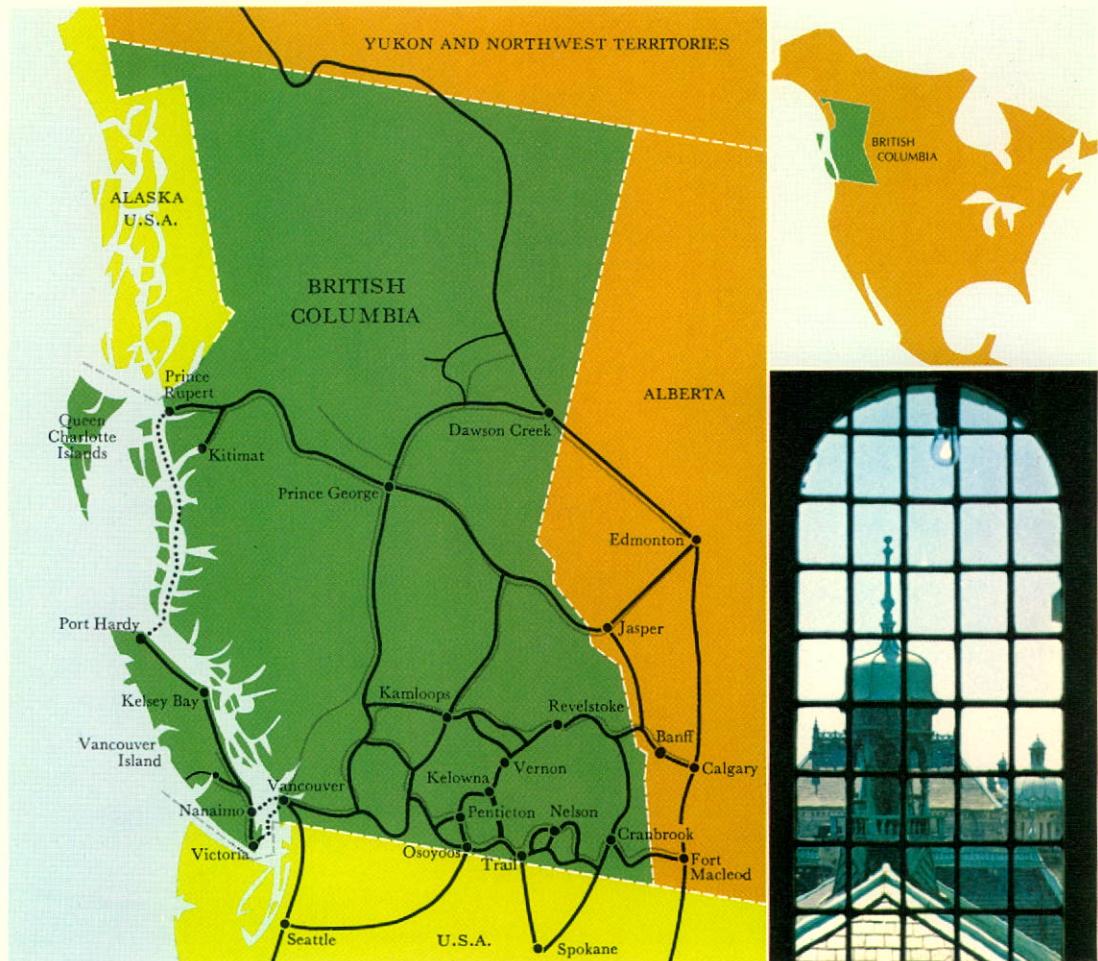

James H. Stuart

James H. Stuart, CHAIRMAN

Mount Currie, Squamish-Lillooet Regional District *Courtesy Tourism B.C.*

“The object of the authority is to provide financing of capital requirements for regional districts and for their member municipalities by the issue of its securities and lending the proceeds from them to the regional district on whose request the financing is undertaken.”

*Municipal Finance Authority Act,  
Revised Statutes of British Columbia, 1979.*

## How the Municipal Finance Authority of British Columbia Functions

---

### Responsibility

The Municipal Finance Authority of British Columbia was established in 1970 by the Municipal Finance Authority of British Columbia Act, Chapter 292, Revised Statutes of British Columbia, 1979.

Regional districts and municipalities in British Columbia finance through the Authority all long-term capital requirements except those met by senior levels of government.

The City of Vancouver is the only municipality in the Province which retains the right to issue its own securities to finance capital projects. Taxable land and improvements within the City of Vancouver are, nevertheless, subject to rates levied by the Municipal Finance Authority.

### Representation

The Province of British Columbia is divided into twenty-eight regional districts, each of which is governed by a Regional Board consisting of representatives of its member municipalities and unincorporated areas.

The members of the Municipal Finance Authority are appointed by the Regional Boards; the number of members to which a regional district is entitled is based upon its population.

The executive and administrative powers and duties of the Authority are exercised and performed by a Board of Trustees consisting of the Chairman of the Authority and six other members, elected annually. The Capital Regional District and the Greater Vancouver Regional District must be represented on the Board of Trustees.

### Funding

When the municipalities, through the regional districts, and the regional districts on their own behalf, wish to finance their capital projects, they present their approved requests to the Municipal Finance Authority.

Taking into account market and economic conditions pertaining, the members of the Authority may authorize the issue and sale of securities in an amount sufficient to meet the requests.

Securities of the Authority, not exceeding the amount authorized, may then be issued at such rates and pursuant to such terms and conditions and in such markets and currencies as the Board of Trustees may determine. Under the Act, the Authority has power to provide for the creation, management and application of sinking funds or other means of securing the repayment of securities issued by the Authority, including the redemption by call of securities issued subject to redemption in advance of maturity.

A separate account is maintained for each sinking fund security issue and moneys at the credit of a sinking fund which cannot be immediately applied toward paying the debt or discharging the obligation may be invested in:

- (a) securities of the government of Canada or a province of Canada, or
- (b) securities, the principal and interest of which are guaranteed by the government of Canada or a province of Canada, or
- (c) securities of a municipality or regional district in British Columbia, or of a local, municipal or regional government in another province of Canada, maturing not later than the securities for which the sinking fund was created, or

---

- (d) investments guaranteed by a Canadian chartered bank, or
- (e) deposits in, or shares or other evidences of indebtedness of, a credit union incorporated under the British Columbia Credit Union Act, or
- (f) securities of the Municipal Finance Authority of British Columbia maturing not later than the securities for which the sinking fund was created; however, securities so purchased shall be held to the credit of the sinking fund account and shall not be resold.

#### **Protection for Investors**

In British Columbia, the combined credit of all the regional districts and their member municipalities—which together have essentially all the taxable land and improvements in the Province—stands behind the Authority's obligations.

In addition, the Authority has established a debt reserve fund into which each regional district sharing in the proceeds of a security issue having a term to maturity of over two years must contribute an amount equal to one-half the average annual instalment of principal and interest for repayment of the issue; such amount is payable to the Authority at the time of issue either in full or in an amount equal to one percent of the principal amount borrowed with the balance secured by a non-interest bearing demand note of the regional district issued to the Authority. Moneys paid into the debt reserve fund, and interest earned thereon, are obligations of the Authority to the regional districts and must be refunded to them when the final instalments of their loans have been repaid.

If, at any time, the Authority lacks sufficient funds to meet principal, interest or sinking fund payments due on its obligations, it must utilize the debt reserve fund, all or any part of which is available to satisfy the Authority's obligations, regardless of the sources of the moneys in the fund. In the event that payments are made from the debt reserve fund, the Authority will recover such payments from the regional districts involved in order to restore the debt reserve fund. If the Trustees are of the opinion that payments made from the debt reserve fund will not be recovered within a reasonable period, they may levy upon all taxable land and improvements in the Province a tax sufficient to restore the fund to its required amount. It is mandatory for the Trustees to levy such a tax when the balance in the debt reserve fund is less than fifty percent of the required amount. The Trustees' power to impose taxes does not require the permission or approval of any other governmental authority. Pending the receipt of such taxes, the Authority may borrow an equivalent amount to meet its obligations.

The provincial government has undertaken to assure that the debt reserve fund will be maintained in accordance with the Municipal Finance Authority Act and the Inspector of Municipalities may inspect the fund from time to time and issue a certificate that it has been maintained at the proper level.

Moneys in the debt reserve fund may be invested in:

- (a) securities of the government of Canada or a province of Canada, or
- (b) securities, the principal and interest of which are guaranteed by the government of Canada or a province of Canada, or
- (c) deposits in, or investments guaranteed by a Canadian chartered bank, or
- (d) deposits in, or shares or other evidences of indebtedness of, a credit union incorporated under the British Columbia Credit Union Act.

---

---

Such investments must mature or be callable within five years and at least twenty-five percent of the fund must be callable within ninety days.

**Additional  
Protection for Investors**

Regional districts and their member municipalities financing through the Municipal Finance Authority must obtain the same provincial approvals as would be required if they were issuing their own securities. In this way, all the safeguards imposed by the Provincial Legislature on the incurring of indebtedness by regional and municipal governments are retained. Such safeguards include the requirement that the Inspector of Municipalities approve the debt and user charges, if any, and other taxes to service the debt. In addition, sewer and water projects require the issuance of a certificate of self-liquidation by the Inspector of Municipalities.

Limitations on the borrowing power of a regional district for each function may be specified in its letters patent. The total indebtedness which a municipality may contract is limited to a percentage of the assessed value for general municipal purposes of the taxable land and improvements within the municipality and the value of the utility systems and other municipal enterprises for which the municipality has a subsisting certificate of self-liquidation granted by the Inspector of Municipalities.

## The Growth and Stability of British Columbia's Regional Districts and Municipalities therein

### ASSESSMENT

The British Columbia Assessment Authority, a provincially-appointed body, is responsible for assessment throughout the Province.

The fundamental principle underlying the Assessment Act is that land and improvements must be valued at their actual value (i.e., fair market value).

The actual value totals for the Province in the years 1981 to 1986 were as follows:

1981	\$ 123.1 billion	1984	\$ 140.8 billion
1982	\$ 157.1 billion	1985	\$ 145.7 billion
1983	\$ 138.3 billion	1986	\$ 147.7 billion

Property is segregated by type or use into property classes prescribed by the Lieutenant Governor in Council.

The value subject to taxation after applicable exemptions is referred to as the net taxable value.

A variable tax rate system was introduced in 1984 which transferred the variability factor from the assessed value to the taxation process controlled by each taxing authority. Municipal and other taxing authorities now set tax rates for each class of property to produce the level of taxation desired.

SOURCE: BRITISH COLUMBIA ASSESSMENT AUTHORITY

### TAX LEVIES AND COLLECTIONS

The following table sets forth the tax levies and the collection experience of the regional districts and municipalities in British Columbia for the years 1981 through 1985:

### Tax Levies and Collections by the Regional Districts and Municipalities therein

## Auditors' Report—1986

TO THE MEMBERS OF THE MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

---

Peat, Marwick, Mitchell & Co.  
Chartered Accountants  
2400-1055 West Georgia Street  
P.O. Box 11150, Royal Centre  
Vancouver, B.C. V6E 3P3  
Telephone: (604) 662-5500  
Telecopier: (604) 662-5576  
Telex: 0454218

We have examined the balance sheets of the Operating Fund, Debt Fund, Capital Repayment Equalization Fund, Debt Reserve Fund and Market Development Fund of Municipal Finance Authority of British Columbia and the combined balance sheet of these funds as at December 31, 1986, the statements of revenue, expenditure and surplus and changes in financial position of each of these funds, the combined statements of revenue, expenditure and surplus and changes in financial position of these funds for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Authority as at December 31, 1986, and the results of its operations and the changes in its financial position for the year then ended in accordance with accounting principles described in Note 1 to the financial statements applied on a basis consistent with that of the preceding year.

Vancouver, British Columbia, Canada

## MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

**Notes to Financial Statements — All Funds**

DECEMBER 31, 1986

**1****Organization of Municipal Finance Authority of British Columbia and significant accounting policies**

The Municipal Finance Authority of British Columbia (the "Authority"), created in 1970 by the Municipal Finance Authority of British Columbia Act (the "Act"), is the central borrowing agency for financing of capital requirements (other than for schools and hospitals) for regional districts and their member municipalities in the Province of British Columbia (the "Province"). The Authority issues its own securities and lends the proceeds to the regional districts on whose request the financing is undertaken. Obligations of the Authority are not obligations of the Province and are not directly or indirectly guaranteed by the Province.

The Authority follows the normal practice in local government accounting and maintains its accounts according to the principles of fund accounting, a technique by which its financial resources are segregated for specific activities or to attain certain objectives. Five funds are maintained. A brief description of each fund and its purpose is as follows:

**OPERATING FUND**

The Act provides for the establishment of an operating fund to meet the annual operating budget. For this purpose, the Authority may impose, annually, rates not exceeding the prescribed rates on all taxable land and improvements in the Province.

**DEBT FUND**

The Authority's financing activities on behalf of the regional districts in the Province are recorded in the Debt Fund.

**CAPITAL REPAYMENT EQUALIZATION FUND**

The Capital Repayment Equalization Fund is a repository for repayments from the regional districts under their loan agreements in advance of the Authority's requirements on its related indebtedness. Transfers, not exceeding the amount available in respect of each issue, are made to the Debt Fund to meet the Authority's obligations when due.

**DEBT RESERVE FUND**

Under the Act, the Authority is required to establish a Debt Reserve Fund. Each regional district sharing in the proceeds of a securities issue is required to pay into the Debt Reserve Fund an amount equal to one-half the average annual instalment of principal and interest in respect of its own borrowing together with one-half the average annual instalment of principal and interest as set out in the agreements entered into with the regional district by member municipalities in respect of their borrowings; such amount is payable either in full or in an amount equal to 1% of the principal amount borrowed with the balance secured by a non-interest bearing demand note.

If, at any time, the Authority does not have sufficient funds to meet payments or sinking fund contributions due on its obligations, the payments or sinking fund contributions shall be made from the Debt Reserve Fund.

## MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

**Notes to Financial Statements — All Funds / continued**

DECEMBER 31, 1986

**MARKET DEVELOPMENT FUND**

The development of markets for the Authority's securities issues is segregated in the Market Development Fund. It is funded by transfers from the Operating Fund.

A summary of significant accounting policies is as follows:

**PRIOR YEAR'S SURPLUS**

The Authority appropriates the prior year's surpluses to current revenue except the Debt Fund surplus which relates to the sinking funds.

**INCOME RECOGNITION**

The annual operating levy is recognized as revenue in the Operating Fund when the rates have been set by the Authority in March of each year. It is collected on behalf of the Authority by the municipalities in the Province and the Provincial Surveyor of Taxes and is payable to the Authority on August 1 each year.

**OFFICE FURNITURE, FIXTURES AND EQUIPMENT**

Office furniture, fixtures and equipment are written off in the year of acquisition.

**INTEREST ACCRUALS**

Interest is accrued only on investments. Accrued interest receivable from the regional districts under the loan agreements and accrued interest payable on the long-term debt are not recorded, except for unpaid matured interest coupons on coupon debentures which are recognized as accounts payable in the Debt Fund.

**AMORTIZATION OF ISSUE AND REFUNDING COSTS**

The issue and refunding costs are being amortized on a straight-line basis over the average lives of the securities issues to which they relate.

**FOREIGN CURRENCY TRANSACTIONS**

The long-term debt payable in foreign currencies is recorded in equivalent Canadian dollars at the exchange rates prevailing when the debt was incurred except the debt payable in U.S. dollars which is stated at the rate of U.S. \$1 equals Canadian \$1.

The Authority does not adjust its assets and liabilities denominated in foreign currencies to reflect the exchange rates at the balance sheet date since, in the opinion of the Authority, its foreign exchange exposure is fully hedged by virtue of its contractual arrangements with the regional districts on whose behalf the financing is undertaken and/or by the application of certain sections of the Act which, essentially, provide that all monetary risks, including foreign currency risks, are obligations of the regional districts.

## MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

## Notes to Financial Statements — All Funds / continued

DECEMBER 31, 1986

## INVESTMENTS

Investments are carried at cost, adjusted for amortization of premiums and accretion of discounts on a yield basis, except the investments in its own securities which are carried at par value.

## SINKING FUNDS

Under the Act, obligations of the Authority purchased for a sinking fund account together with interest, premium, or exchange derived from them shall be held to the credit of that sinking fund account and shall not be resold. However, securities purchased in anticipation of mandatory annual redemptions for sinking fund purposes are cancelled immediately in accordance with the terms of such issues.

2

## Investments

Investments consist of securities of:

	1986		1985
	Par value	Book value	Book value
(THOUSANDS OF DOLLARS)			
<b>CAPITAL REPAYMENT EQUALIZATION FUND</b>			
Government of Canada, direct or guaranteed	\$ 51,459	41,562	27,549

DECEMBER 31, 1986

3

Loans to  
Regional Districts

Loans to regional districts include \$280,168,364 (1985 - \$294,320,381) denominated in U.S. dollars.

Under the Act, each regional district sharing in the proceeds of a securities issue must pay over to the Authority such sums as are required to discharge its obligations to the Authority in respect of such securities issue, but if the scheduled payments provided for under the loan agreement are not sufficient to meet the Authority's obligations in respect of that securities issue, the deficiency is a liability of the regional district to the Authority.

At the exchange rates prevailing at December 31, 1986, the scheduled payments under the agreements with the regional districts in respect of the securities payable in Swiss francs and Deutschemarks will not provide sufficient funds to meet the Authority's related obligations when due. Such deficiencies may be met from the Debt Reserve Fund (see Note 6).

The aggregate principal payments recoverable from the regional districts in each of the next five years are as follows:

	<u>1986</u>	<u>1985</u>
	(THOUSANDS OF DOLLARS)	
1986	\$	43,225
1987	45,528	43,587
1988	46,926	44,986
1989	48,479	46,538
1990	49,933	47,992
1991	51,389	

4

Deferred receivables  
from Regional Districts

In 1978, the Authority redeemed the 6% bond issue of Swiss francs 50,000,000 from the proceeds of a bank loan in the amount of Swiss francs 51,600,000. As a result, the Authority incurred an exchange loss of \$23,055,505, being the difference between the Canadian dollar equivalent of Swiss francs 50,000,000 at the date of borrowing in 1972 and the Canadian dollar equivalent of Swiss francs 50,000,000 used from the proceeds of the bank loan to finance the redemption.

Under the terms of the loan agreements with the regional districts which participated in the original issue, the exchange loss is a liability of the regional districts to the Authority. Accordingly, it has been recorded in the accounts as deferred receivables from regional districts.

For the remainder of the term of the loan agreements, the Authority will recover additional amounts, on a sinking fund basis, from the regional districts so that, at the end of the term of such loan agreements, a fund, the contributions to which will have been adjusted for exchange rate variations on a cumulative basis, will be available to retire the related foreign currency debt. The additional payments from the regional districts are credited to the deferred receivables from regional districts account.

## MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

**Notes to Financial Statements — All Funds / continued**

DECEMBER 31, 1986

---

**5****Due to sinking  
and other funds**

The Authority may invest sinking fund and Capital Repayment Equalization Fund monies in its own securities maturing not later than the securities for which the sinking or Capital Repayment Equalization Fund account was created.

In addition to its own securities purchased under this provision, loans to the Debt Fund totalling \$3,957,337 (1985 - \$6,306,088) together with accrued interest of \$35,850 (1985 - \$56,727) were outstanding at December 31, 1986. Like the securities, the loans are included in the sinking fund assets and in investments and receivables in the Capital Repayment Equalization Fund and they have not been eliminated in the combined statements.

---

**6****Debt Reserve Fund**

The amounts due to the regional districts will be repaid to them when they have made the final payment under their respective loan agreements. If, at any time, the Authority does not have sufficient funds to meet payments or sinking fund contributions due on its obligations, the payments or sinking fund contributions must be made from the Debt Reserve Fund. During 1986, deficiencies of \$7,130,294 (1985 - \$3,237,045) in the amounts of funds available to meet the principal and interest payments on the Deutschemark loan and the interest and sinking fund payments on the Swiss franc loan have been met by transfers from the Debt Reserve Fund. Such deficiencies are recovered in the following year from the participating regional districts under the terms of their loan agreements.

The Board of Trustees of the Authority may levy or impose upon substantially all taxable land and improvements in the Province rates sufficient to maintain the Debt Reserve Fund at a level not exceeding the amount which would have been in the fund had no such payments been made. Further, the Board of Trustees must impose such rates when the balance in the fund is less than fifty percent of the amount that would have been in the fund had no such payments been made.

---

1989	53,319	52,078
1990	30,976	29,735
1991	32,621	

Since the maturities of certain of the Authority's securities issues and the related loans to the regional districts do not coincide, refunding of all, or a portion, of such securities issues will be required in future years.

8

## Foreign currencies

The long-term debt payable includes the following amounts payable in foreign currencies:

	<u>1986</u>	<u>1985</u>
United States dollars	US\$ 276,186,000	284,349,000
Swiss francs	SFr 51,600,000	51,600,000
Deutschmarks	DM 4,950,000	5,775,000

No exchange gains or losses accrue to the Authority in respect of the debt payable in U.S. dollars since the related loans to the regional districts are denominated in U.S. dollars and the loan agreements provide for repayment to the Authority in U.S. dollars. In the case of other long-term debt denominated in European currencies, the Authority is not at exchange risk (see Note 1).

9

## Sinking funds

The annual deposits to the sinking funds for issues payable in Canadian dollars are based on an interest rate of 5% per annum, capitalized yearly.

Certain securities issues are subject to specific annual redemptions for sinking fund purposes. By purchasing the securities at discount in the open market in anticipation of the sinking fund requirements, the Authority has, to December 31, 1986, retired \$8,456,000 (1985 - \$13,113,000) of such debt in advance of the scheduled redemptions for sinking fund purposes.

The assets and the surpluses of the sinking funds are as follows:

	1986		1985
	Par value	Book value	Book value
(THOUSANDS OF DOLLARS)			
Securities of:			
Government of Canada, direct or guaranteed	\$ 27,664	12,535	9,489
Provincial governments, direct or guaranteed	16,080	10,756	7,278
Chartered banks, direct or guaranteed	6,733	6,388	6,417
Regional Districts and Municipalities in Canada	1,925	1,783	1,536
The Authority	34,831	34,831	32,685
	<u>\$ 87,233</u>	<u>66,293</u>	<u>57,405</u>
Cash		273	104
Accrued interest and other		<u>711</u>	<u>648</u>
Total assets		67,277	58,157
Accumulated actuarial requirements for retirement of the related debt		<u>43,687</u>	<u>35,993</u>
Excess of assets over accumulated actuarial requirements	\$ 23,590		22,164

DECEMBER 31, 1986

10

**Capital Repayment  
Equalization Fund  
— surplus**

The surplus relates directly to specific securities issues and, if not otherwise appropriated for payment of principal and/or interest during the term of such issues, will be paid over to the regional districts for which the financing was undertaken.

11

**Commitments**

The minimum future rental commitments for premises and equipment are as follows:

	Premises	Equipment	Total
1987	39,237	19,933	59,170
1988	39,237	19,933	59,170
1989	39,237	19,799	59,036
1990	39,237	8,816	48,053
1991	41,615	—	41,615
1992 - 1996	216,398	—	216,398

12

**Transfers**

The assets and surpluses in respect of certain securities issues subject to specific annual redemptions for sinking fund purposes, which had previously been recorded as sinking funds, were transferred to the Capital Repayment Equalization Fund on January 1, 1986 so that only invested-style sinking funds remain in the Debt Fund.

**Debt Fund — References to Schedule of Long-Term Debt**

DECEMBER 31, 1986

---

- 1 Non-callable prior to maturity.
- 2 The sinking fund has been calculated to provide for retirement of the issue at maturity.
- 3 Redeemable at holder's option on June 1, 1988, 1991 or 1994. Callable upon the imposition of withholding taxes at 101.50% reducing to 100.25% over the remainder of the term to maturity.
- 4 Redeemable at holder's option on May 15, 1989 or 1994. Callable on May 15, 1987 and annually thereafter at 101% if called on or before May 15, 1994 and at 100.50% thereafter. Callable also, at any time, upon the imposition of withholding taxes, at 101% if called on or before May 15, 1994 and at 100.50% thereafter.
- 5 Non-callable prior to December 6, 1994 except for sinking fund purposes. Callable on December 6, 1994 and thereafter at any time at 100%.
- 6 Callable on December 6, 1997 and thereafter at any time at 100%.
- 7 Non-callable except for sinking fund purposes.
- 8 Callable at any time upon the imposition of withholding taxes at 100%.
- 9 Non-callable prior to maturity unless lender so agrees.
- 10 Redeemable at holder's option on May 15, 1987.
- 11 Callable on December 5, 1999 and thereafter at any time at 100%.
- 12 Callable on June 12, 2000 and thereafter at any time at 100%.
- 13 Callable on December 12, 2000 and thereafter at any time at 100%.
- 14 Callable on October 23, 2003 and thereafter at any time at 100%.
- 15 Non-callable prior to January 15, 1990 except for sinking fund purposes. Callable on January 15, 1990 and thereafter at any time at 103.50% reducing to 100% on or after January 16, 1999.
- 16 Non-callable prior to November 1, 1990 except for sinking fund purposes. Callable on November 1, 1990 and thereafter at any time at 103.25% reducing to 100% on or after November 2, 1998.

## MUNICIPAL FINANCE AUTHORITY OF BRITISH COLUMBIA

**Debt Fund — References to Schedule of Long-Term Debt / continued**

DECEMBER 31, 1986

---

- 17 Non-callable prior to May 1, 1991 except for sinking fund purposes. Callable on May 1, 1991 and thereafter at any time at 102.75% reducing to 100% on or after May 2, 1999.
- 18 Non-callable prior to October 15, 1991 except for sinking fund purposes. Callable on October 15, 1991 and thereafter at any time at 102.75% reducing to 100% on or after October 16, 1999.
- 19 Non-callable prior to December 1, 1995 except for sinking fund purposes. Callable on December 1, 1995 and thereafter at any time at 105.02% reducing to 100% on or after December 1, 2004.
- 20 Redeemable at holder's option on October 28, 2000. Callable on October 28, 1993 and thereafter at 103% reducing to 100% from October 28, 1999 to October 28, 2000. Callable also, at any time, upon the imposition of withholding taxes, at 100%. The interest rate is effective until October 28, 2000; it will be reset by the Authority from October 29, 2000.
- 21 Callable on October 1, 1987 and annually thereafter at 101.25% reducing to 100.25% in 1991. Callable annually, also, at 100.50% in 1987 reducing to 100% in 1991, upon the imposition of withholding taxes.
- 22 The comparative figures for 1985 are net of amounts, previously recorded as sinking fund assets, which were transferred to the Capital Repayment Equalization Fund on January 1, 1986.
