Earnings Before Extraordinary Item			
Class A	\$0.885	\$0.825	+ 7.3
Common	\$0.810	\$0.750	+ 8.0
Cash Flow			
Class A	\$1.605	\$1.375	+ 16.7
Common	\$1.530	\$1.300	+ 17.7
SHARES OUTSTANDING			
Class A	2,830,056	2,172,689	+ 30.3
Common	2,015,336	2,172,689	- 7.2
Total	4,845,392	4,345,378	+ 11.5

Shareholders are invited to attend the Company's Annual Meeting at 10 a.m., March 24, 1980 in the Quebec Room of the Royal York Hotel, Toronto.

## Chairman's Message

### To Our Shareholders:

With the fiscal year ending August 1979, Extencicare is now in its second decade of providing effective, quality health care services. It is interesting to note by contrast that at the end of its first fiscal year - August 1969 - Extencicare owned one nursing centre, had four more under construction, and had total assets of some \$7.3 million. As of August 31, 1979, the Company owned and leased 49 facilities and had total assets of \$77.6 million. We should all be proud of such progress.

This dramatic growth has elevated Extencicare to a highly prominent position in the health care delivery system. It reflects the increasing demand for our ability to provide a professionally managed, comprehensive range of quality health care services at reasonable costs. We intend to become even more visible to our various publics through a general upgrading of our communications programs.

For the fiscal year under review, Extencicare had consolidated revenue of \$85,706,208, compared with \$87,320,853 for the same period in the previous year. The reduction in revenue was attributable to our divestiture of the Hartz Standard Division which, because of concern for a possible emerging conflict of interest, and following an assessment of its potential, was, with your Board of Directors' approval, sold in March, 1979.

Revenue from nursing centres increased from \$52,398,838 in fiscal 1978 to \$61,086,031 in 1979, and revenue from diagnostic centres and other operations increased from \$8,121,228 in 1978 to \$11,975,596 in 1979.

Net earnings in the year under review were \$1,431,391. Earnings per Class A share before extraordinary item were 88.5 cents, an increase of 7.3% over the previous year. Earnings per common share before extraordinary item were 81 cents, an increase of 8% over the previous year.

Taking into account the extraordinary item, the earnings per Class A share were 34.5 cents, and for common shares 27 cents.

Revenue from nursing centres continues to be your Company's main source of income, and it is expected that this strong base will continue for the foreseeable future. As of March 1, 1979, four new nursing homes in Mississippi were acquired, adding 480 licensed beds to our operations. In addition, your Company exercised its option to acquire a nursing centre in Ontario which was previously leased.

Over the next five years, the number of Company-owned and/or managed facilities is expected to increase considerably through the development of new sites, the acquisition of existing homes and rapid expansion of management services for others. As governments and health care institutions strive to find a solution to the problem of providing an acceptable standard of care with fewer available incremental dollars, we are confident that Extencicare's proven record in this area will result in positive results from our continuing efforts in North America and internationally.

The Company's diagnostic services are performed in Canada by medical laboratories in the Toronto area, and in the United States by Professional Clinical Laboratories, Inc.

In Toronto, more than two million tests in 13 labs were conducted in fiscal 1979. This network of facilities, with its reputation for rapid, reliable testing and reporting, will be expanded as selective acquisition and expansion opportunities arise through the development of new and needed services for the community.

Professional Clinical Laboratories offers a comprehensive range of services to hospitals, doctors and individuals. It is the largest diagnostic laboratory in the State of Delaware.

United Health Maintenance, Inc., headquartered in Maryland, operates a fleet of mobile multiphasic screening and testing units in many States. These vehicles, staffed by qualified personnel and equipped with an extensive range of medical equipment, conduct a wide range of on-site tests for employees at plants, stores, office buildings and other work locations.

Because of the benefits derived from early detection of health disorders, this preventive health care service is encouraged by medical professionals and others, for it supports a reduction in the number of patient days in health care institutions.

Para-Med Health Services employs registered nurses, registered nursing aides, male nursing attendants, health care aides and other professional and skilled personnel to provide nursing and special-care services to people in private homes and in health care institutions.

---

Established in 1974, Para-Med now has offices in Toronto, Ottawa, London, Hamilton and Kingston. The large field staff of full-time and part-time personnel provide care for numerous needs, including family crisis situations, industrial nursing, specialized staff relief for health care institutions, convalescent care and supportive services for senior citizens.

Extendicare Development & Management, established to provide complete administrative programs for any health care institutions, was successful in bringing to fruition in fiscal 1979 negotiations for managing a new 215-bed hospital in Abidjan, in the Ivory Coast of West Africa. The hospital will be the third largest in the city, which is the capital of that country.

This will be your Company's first major overseas venture. The contract follows prolonged discussions to resolve the complex relationships between governments, private enterprise, medical disciplines and hospital management. In addition, the transfer of technology from one country to another, together with the meshing of two different health care systems, is quite complicated.

During fiscal 1979, the Company entered into discussions for the management of facilities in North America, Europe, the Middle East, South America and in Africa. The Company remains confident that important growth potential exists in these areas.

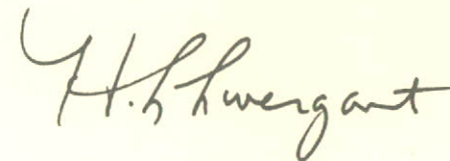

Fiscal 1979 can be described as a year of consolidation and continued growth. The development of Extendicare, and our subsequent prominence in the health services field, is a direct result of our unique ability to provide a wide range of effective services, wherever they are needed. This success would not be possible without the confidence of governments, our shareholders and our employees. The support of these people, in our people-oriented business, is most gratefully acknowledged.

Our second decade holds the promise of even greater opportunities for the Company in its main spheres of operations - ownership or management of nursing centres in Canada and the United States; diagnostic services, providing nursing and other trained health care personnel for private employment; undertaking management services to a variety of health-related organizations; and providing consulting services for governments and private bodies at home and abroad.

However, immediate action is required by governments and the providers of health care in Canada to alleviate the continued pressures on the health care delivery system. Extendicare believes that the health care system is in need of a new style of management more than it needs additional funds. The concept of multi-unit management addresses this issue. This practical concept assigns functional expertise to specific areas, allows all facilities to achieve the highest level of operation by free flow of ideas, and permits the most efficient and effective means of resource planning and utilization.

As one of the largest professional managers of health care facilities in North America, Extendicare is in a strong position to offer to various institutions and organizations the resources of a multi-unit management team with sophisticated systems and the depth of experience and expertise necessary to solve health care administration problems.

Extendicare is proud of its reputation and its record of achievements in the health care field. I have no doubt that our second decade will prove to be as rewarding as our first.

Harold L. Livergant  
February 5th, 1980.

# Notes to Consolidated Financial Statements

Year Ended August 31, 1979

## 1. SUMMARY OF ACCOUNTING POLICIES

The significant accounting policies of Extencicare Ltd. and subsidiary companies are set out below. These policies are in accordance with generally accepted accounting principles and have been consistently applied.

### (a) PRINCIPLES OF CONSOLIDATION

The financial statements include the accounts of the Company and all its subsidiary companies. The principal operating subsidiaries and the Company's ownership therein are as follows:

	OWNERSHIP
United Health Maintenance, Inc.	90%
Medco Centers, Inc. (Mississippi), Inc.	95%
Professional Clinical Laboratories, Inc.	100%
	100%

### (b) FOREIGN CURRENCY TRANSLATION

Revenues and expenses are translated at rates of exchange prevailing during the year. Assets and liabilities are translated at the exchange rate in effect at the balance sheet date.

There were no significant translation gains or losses during the year.

### (c) PROPERTY AND EQUIPMENT

Property and equipment is stated at historical cost. Provisions for depreciation are computed by either the straight line method or declining balance method at rates based on the following estimated life expectancies:

- Buildings - 20 to 40 years;
- Furniture and equipment - varying periods not exceeding 20 years;
- Leasehold improvements - the term of the applicable leases.

The related leasehold interest included in other assets is stated at cost and is amortized on a straight line basis over the term of the lease.

### (d) DEFERRED CHARGES

It is the policy of the Company to defer revenues and operating expenses of new nursing centres and new division operations until such time as they are deemed operational. They are deemed to be operational in the month during which revenues equal or exceed expenses or one year from the date revenue is first earned, whichever first occurs. Net amounts deferred are then charged to earnings over three to five years on a straight line basis.

Direct loan costs are amortized over the life of the related debt.

Certain market development costs are being amortized on a straight line basis over five years.

### (e) GOODWILL

Goodwill arises from the excess of purchase price for businesses over the fair

value of assets acquired at the dates of acquisition.

Goodwill acquired subsequent to April 1, 1974 is amortized to earnings on a straight line basis over 40 years. Goodwill acquired prior to that date is carried in the accounts at cost without amortization.

### (f) INCOME TAXES

The Company follows the deferral method of income tax allocation.

Deferred income taxes result from claiming depreciation and other items for tax purposes in amounts which differ from those recorded in the accounts and from filing certain U.S. federal income tax returns on a cash basis while the financial statements recognize revenues and expenses on an accrual basis.

### (g) REVENUE

The fees charged by the Company for its nursing home facilities and diagnostic services in Canada are regulated by provincial authorities which establish maximum fees chargeable by the industry.

The fees charged by the Company for its nursing home facilities in the United States include revenues resulting from residents participating in federal and state funded cost reimbursement programmes. These revenues are based on the approved prospective rates which were in effect from time to time during the period. Final cost settlement adjustments, if any, are recorded when objectively determinable.

(h) **COMPARATIVE FIGURES**

Certain 1978 figures provided for comparative purposes have been reclassified to conform with the presentation used in the current year.

**2. ACCOUNTING CHANGE**

In 1979, the Company changed its method of foreign currency translation to that described in note 1. This change resulted in an increase in consolidated net earnings of \$230,000 in the year ended August 31, 1979. The effect on consolidated net earnings as reported in prior years is a \$169,000 increase of which \$95,000 is applicable to the year 1978. Prior period data have been restated to reflect this accounting change.

**3. ACQUISITIONS**

On September 1, 1978 the Company exercised its option to acquire a nursing centre in Ontario which was previously leased.

Effective March 1, 1979 the Company acquired four nursing centres in the state of Mississippi.

These transactions have been accounted for by the purchase method.

The net assets obtained in these acquisitions are as follows:

Property and equipment	\$ 9,721,000
Non-current liabilities assumed	<u>6,238,000</u>
Cash consideration given	<u>\$ 3,483,000</u>

**4. PROPERTY AND EQUIPMENT**

<b>EXTENDICARE LTD. AND CANADIAN SUBSIDIARIES:</b>		
Mortgages, 7-3/8% to 11-3/4% maturing through to 2007	\$20,930,047	\$19,254,907
8-1/2% Sinking Fund Debentures, due 1984	1,451,000	1,768,000
Bank loans at interest rates varying with New York bank prime (U.S. \$1,621,000)	1,896,570	2,096,000
Promissory notes, various rates to 8% maturing through to 1981	91,153	251,805
<b>UNITED STATES SUBSIDIARIES:</b>		
Mortgages payable, 6% to 11% maturing through to 1999 (U.S. \$8,330,706)	9,746,926	5,029,433
Notes payable, 6% to 11% maturing through to 1983 (U.S. \$992,597)	1,161,338	2,416,015
Lease purchase and sales contracts payable, various rates to 11% maturing through to 1993 (U.S. \$1,891,273)	2,212,788	2,457,284
Bank loans at interest rates varying with New York bank prime, maturing through to 1986 (U.S. \$7,785,704)	9,109,273	3,876,000
	<u>46,599,095</u>	<u>37,149,444</u>
Less principal due within one year and included in current liabilities	3,116,134	3,099,328
	<u>\$43,482,961</u>	<u>\$34,050,116</u>

The weighted average annual interest rate of all non-current liabilities is approximately 10.8%.

Substantially all assets of the companies are mortgaged or pledged as security on bank indebtedness or non-current liabilities.

Principal payments on non-current liabilities due within the next five fiscal years after giving effect to renewal privileges are as follows:

1980	\$3,116,134
1981	8,044,925
1982	2,503,382
1983	2,867,417
1984	1,633,754

## 7. SHAREHOLDERS' EQUITY

On January 15, 1979 the Company was continued under the Canada Business Corporations Act and its Charter was amended. As a result the authorized capital of the Company consists of:

- (i) an unlimited number of preferred shares without nominal or par value, issuable in series;
- (ii) an unlimited number of non-voting Class A shares without nominal or par value; and

- (iii) an unlimited number of convertible common shares without nominal or par value.

The previously authorized but unissued preferred shares of the par value of ten dollars (\$10) each and the previously authorized but unissued common shares without nominal or par value were cancelled and each of the previously issued and outstanding common shares without nominal or par value was subdivided into one Class A share and one common share.

The Class A shares and the common shares are similar to each other in all respects except that:

- (i) the Class A shares are non-voting while the common shares are voting;
- (ii) the Class A shares entitle the holders thereof to non-cumulative dividends totalling 10¢ per share in each financial year of the Company in priority to any dividends on the common shares;
- (iii) after the preferential dividends on the Class A shares referred to in (ii) have been declared in each financial year of the Company and their payment authorized within such financial year, the Class A shares and common shares participate equally share for share in all further dividends during such financial year; and
- (iv) the common shares are convertible into Class A shares on a one for one basis but the Class A shares are not convertible into common shares.

A summary of transactions involving share capital is as follows:

	Before Continuance		After Continuance			
	Common		Class A		Common	
	Number	Amount	Number	Amount	Number	Amount
Issued and fully paid September 1, 1978	2,172,689	\$6,773,307				
Issued in connection with acquisition, effective July 1, 1978, of Professional Clinical Laboratories, Inc.	68,800	825,600				
Exercise of warrants and options to January 15, 1979	8,350	56,449				
	2,249,839	7,655,356				
Cancellation and subdivision on continuance	(2,249,839)	(7,655,356)	2,249,839	\$3,827,678	2,249,839	\$3,827,678
Exercise of warrants and options			166,353	614,906	165,753	613,557
Conversions of common shares			407,060	753,468	(407,060)	(753,468)
Additional consideration issued in connection with acquisition of Professional Clinical Laboratories, Inc.			6,804	41,675	6,804	41,675
Issued and fully paid August 31, 1979			2,830,056	\$5,237,727	2,015,336	\$3,729,442

Under a bank debenture the Company has agreed, unless otherwise consented to by the bank, to restrict dividends to 50% of the Company's earnings before extraordinary items.

The Company has at the present time reserved 103,829 Class A and 104,429 common shares for issuance to officers and key employees under the Company's Employee Stock Option Plans. To August 31, 1979, 55,855 Class A shares and 55,255 common shares have been exercised, 23,600 Class A shares and 24,200 common shares were optioned to officers and 10,729 of each of Class A and common shares to other employees at prices ranging from \$2.13 to \$6.25 per share with varying expiry dates to January, 1989.

## 8. EXTRAORDINARY ITEM

Effective March 1, 1979 the Company sold the assets and business of its Hartz Standard Division. The provision for loss of \$2,473,000 is net of income tax reductions of \$1,090,000.

## 9. EARNINGS PER SHARE

Earnings per share for the year ended August 31, 1978 have been restated to reflect:

- (i) the subdivision of each of the previously issued and outstanding common shares into one Class A share and one common share on the same basis as the current year; and
- (ii) the allocation of preferential dividends amounting to 7.5 cents per Class A share.

## 10. LONG TERM LEASES

The Company has lease commitments with terms expiring up to 2005, exclusive of renewals. Maximum rentals to be charged to earnings are as follows:

For the year:

1980	\$1,095,000
1981	1,040,000
1982	979,000
1983	883,000
1984	694,000
1985 and thereafter	<u>4,190,000</u>
	<u>\$8,881,000</u>

During the year ended August 31, 1979 rent expense of \$1,324,000 has been charged to operations.

## 11. CONTINGENT LIABILITIES

- (a) The Company is liable as a guarantor in respect of a first mortgage on a nursing home sold by a subsidiary during 1976. The principal balance outstanding under this mortgage at August 31, 1979 was approximately \$1,520,000.
- (b) The Company, under certain circumstances, may be required to acquire, at a price based upon a multiple of earnings, the remaining 10% minority interest in United Health Maintenance, Inc.
- (c) The Company and its subsidiaries are defendants in actions for damages and costs allegedly sustained by the plaintiffs. Management and counsel are of the opinion that the Company and its subsidiaries have defenses against all significant claims and accordingly, no provision has been made in the financial statements in respect of these claims.

## Auditors' Report

To the Shareholders of Extendicare Ltd.

We have examined the consolidated balance sheet of Extendicare Ltd. as at August 31, 1979 and the consolidated statements of earnings, retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at August 31, 1979 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the change in the method of foreign currency translation as described in note 2, on a basis consistent with that of the preceding year.
