Seaway Multi-Corp Limited

The Shareholders

Seaway Multi-Corp Limited

I am pleased to report that your company earned a net profit of \$1,269,000 in the fiscal year 1979. This amount includes \$773,000 from discontinued operations which income will be replaced by savings in interest due to the amount received from the sale of Premium Forest Products Limited and Lloyd-Truax Limited. The sale of these two subsidiaries and the cash provided from operations contributed to the company's marked increase in working capital as is reflected in Statement of Changes in Financial Position.

The company was unable to maintain payment of preferred dividends in 1979, however improved cash flow in 1980 has permitted the resumption of the dividends on the Series "A" preference shares; two dividends have been declared to date.

The Cold Storage Division and the Auto Parts Division both continue to show increases in sales and net profit. This trend has continued into 1980. The company's first quarter sales in 1980 amounted to \$7,250,000, which is an increase of \$2,250,000 over the same period in 1979 and an increase of \$3,900,000 over the same period in 1978. Management anticipates this trend to continue in view of the large backorder position and successful negotiations of new orders.

The company's Cold Storage Division has been expanded and is negotiating for new sites in Western Canada.

Earnings from operation in 1980 is expected to surpass those achieved in 1979.

Yours truly

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 1979

1. ACCOUNTING POLICIES

Consolidation policy

The consolidated financial statements include the accounts of the company and all its subsidiaries. Premium Forest Products Limited and Lloyd-Truax Limited were sold in the latter part of 1979. For accounting purposes the effective date was deemed to be September 30, 1979 and accordingly the 1979 results of operations of these subsidiaries to that date are shown separately in the statement of income. The 1978 comparative figures have been restated to show the investment in these subsidiaries at their equity value in the balance sheet. The loss on the sale of these subsidiaries is shown under extraordinary items (Note 11).

Translation of foreign currencies

Amounts in foreign currencies have been translated into Canadian dollars at the rates of exchange in effect at the balance sheet date for current items and at the rates in effect at acquisition dates for noncurrent items. Operating income and expenses are translated at average rates during the year except for depreciation which is on the same basis as fixed assets.

Inventories

Certain types of inventories approximating \$8.8 million, for which costs cannot be determined, have been valued on the basis of a percentage of historical selling prices. The other inventories have been valued at the lower of cost and net realizable value. This valuation is consistent with that used in preceding years.

Property, plant and equipment

Certain land and buildings are recorded at appraised values as of December 31, 1977, based on appraisals by General Appraisal of Canada Limited, dated March 8, 1978 and July 1, 1978, and E. Karl Farstad & Associates dated July 20, 1978. The excess of the appraised value over the book value is shown in the Statement of Shareholders' Equity. A portion of the appraisal excess applicable to buildings is being transferred annually to retained earnings in amounts equal to the annual depreciation provided on such appraisal excess. The current year's transfer amounts to \$192,958. Land purchased after December 31, 1977 and plant and equipment are recorded at cost. Depreciation is provided on the straight-line basis at the following annual rates:

Buildings	2½%
Machinery and equipment	10 - 30%

Deferred charges

Financing costs are being amortized over the terms of the related debts, over periods not exceeding 5 years.

2. ACCOUNTS RECEIVABLE

Included in accounts receivable is an amount of \$1,500,000 which is the minimum value placed by the insurers of the business interruption claim (arising from the fire which occurred at the Canada Cycle and Motor Company Limited (C.C.M.), St. Jean factory on February 17, 1977). Rights to this claim were acquired by the company as part of the consideration for the sale of C.C.M. in 1978. The company has claimed \$2,788,505 and the insurers have paid a portion of the amount receivable into court. The company is presently in the process of taking legal action against the insurance agents for amounts not paid by the insurers and in the opinion of legal counsel the company's claim to an amount of at least \$1,500,000 is well founded.

3. NOTE RECEIVABLE

On December 17, 1979, the Company sold all the issued and outstanding shares of its wholly owned subsidiaries, Premium Forest Products Limited ("Premium") and Lloyd-Truax Limited, for \$4,200,000 of which \$3,000,000 was received in cash and \$1,200,000 by the purchasers' assumption of a long term debt. In addition the company received a promissory note for \$998,400 from Premium in respect of a previous inter-company debt. The note is receivable over a period of 10 years with interest thereon at 9½% per annum commencing December 30, 1979, and is secured by a standby letter of credit from a Canadian chartered bank. Subsequent to the year end, the same chartered bank loaned the company an amount equal to the balance due on the promissory note on the security of the note and the standby letter of credit. In the event of default on the note or nonrenewal of the letter of credit, the proceeds of the letter of credit will be used to repay the loan in full.

4. NET INVESTMENT IN LEASE

In 1979 the Company adopted the recommendations of the Canadian Institute of Chartered Accountants relating to accounting for leases. Accordingly, this has been applied retroactively to the leasing of a building which meets the criteria of a direct financing lease. The lease grants an option to the lessee to acquire the building for \$250,000 in 1983. As a result, net income for 1978 has been decreased by \$15,926 and retained earnings as at December 31, 1977 has been decreased by \$64,076.

The company's net investment in the lease is as follows:

	<u>1979</u>	<u>1978</u>

The company and its subsidiaries have accumulated losses for income tax purposes in current and prior years amounting to approximately \$914,000 which may be used to reduce taxable income as follows:

\$ 92,000 to 1980
105,000 to 1981
62,000 to 1982
323,000 to 1983
332,000 to 1984

The benefit from the utilization of these losses to reduce taxable income in future years has not been recognized in the accounts.
