THE BONDHOLDERS' PROTECTIVE COMMITTEE,
ABITIBI POWER & PAPER COMPANY, LIMITED,
TORONTO, CANADA.

March 2, 1933.

Dear Sirs:

As instructed, we have made an examination of the books and accounts of Abitibi Power & Paper Company, Limited as at the close of business on September 10, 1932 (as of which date Mr. G. T. Clarkson was appointed Receiver and Manager) and of the books and accounts of its principal wholly owned subsidiary companies as at August 31, 1932, viz:

MANITOBA PAPER COMPANY, LIMITED	MURRAY BAY PAPER COMPANY, LIMITED
STE. ANNE PAPER COMPANY, LIMITED	ABITIBI ELECTRIC DEVELOPMENT COMPANY, LIMITED
ST. ANNE POWER COMPANY	KAMINISTIQUIA POWER COMPANY, LIMITED
BAIE ST. PAUL LUMBER COMPANY, LIMITED	MATTAGAMI RAILROAD COMPANY

We have prepared and attach hereto a consolidated balance sheet as of the dates stated above (Exhibit I) with statement of surplus and profit and loss for the intervening period from January 1, 1932, (Exhibit II) which are submitted subject to the following comments:

It is our understanding that you require these statements for the purpose of ascertaining the results of the transactions since December 31, 1931, and the financial position of the companies at the time the Receiver and Manager was appointed, the statements to be on the same general basis as was followed in the last annual balance sheet. The companies' books indicate that subsequent to September 10, 1932, the Receiver and Manager has made substantial provisions for losses in realization of inventories and other assets; for the reason above stated we have not attempted to deal with such questions of revaluation of assets which are now important in the light of the present state of over-capacity and market conditions in this industry and which will involve substantial write-offs.

The Receiver and Manager has prepared an Estimated Statement of Assets and Liabilities as at September 10, 1932, of Abitibi Power & Paper Company, Limited, and we attach hereto (Exhibit III) a reconciliation of the attached Consolidated Balance Sheet with the statement of the Receiver and Manager. Briefly, we may say that:

- (1) Whereas the Receiver and Manager's statement is a statement of the assets and liabilities of the Abitibi Power & Paper Company, Limited only,
- (2) The attached balance sheet is a consolidation of the assets and liabilities of the group of companies.
- (3) Whereas the Receiver has made certain important adjustments in the values of the inventories and certain other assets,
- (4) In accordance with your instructions the attached consolidated statements are drawn up on the basis of the book values.

Under your instructions we did not visit the companies' mills for the purpose of examining the records at those points, and our examination was therefore limited to the records at the chief office in Toronto.

In 1931 the question of the inventory values was investigated by the management and as a result an appropriation of \$3,560,892.36 was made from Surplus under date of January 1, 1931, for the purpose chiefly of reducing the book values of the stocks to the estimated then current values. As a result of the depressed conditions in the newsprint industry there has been a serious falling off in the demand for and reduction in the selling price of pulpwood, newsprint and sulphite, particularly during the past year, and accordingly it would now appear that a further substantial reduction should be made in the

inventory values to bring the pulpwood, materials and supplies to the basis of present replacement values and to provide for losses on inventories at mills which have ceased to operate. We are unable at this time to ascertain the amount of the further write-down which will be required, but it will undoubtedly represent a substantial amount.

The investments in plant, machinery and equipment and in lands, timber limits, undeveloped water powers, etc., are stated in the attached balance sheet at book values. Under the existing condition of excess capacity arising from the falling off in the demand for the products of the newsprint industry in Canada it would appear that the company should take up the question of writing down the book values of inactive plants and properties.

Depreciation and depletion of fixed assets have been provided for during the period on the basis of production. Whilst this basis would appear to be sound under conditions of normal operations, the provisions set aside on this basis during periods of reduced operations would appear to be inadequate. This question is becoming increasingly important in view of the continued reduction in volume of production.

The Investments in and Advances to other companies shown on the balance sheet at a net book value of \$8,739,477.92 consist chiefly of the company's investments in the entire share capital of and advances to the Thunder Bay Paper Co. Limited, shares of the Newsprint Bond and Share Company and in the ownership of the entire outstanding common stock of Provincial Paper Limited, consisting of 100,000 shares which are pledged with The Royal Bank of Canada as part security for bank loans. Provision has been made for the carrying charges and current losses incurred by the company in connection with the investments in Thunder Bay Paper Co. Limited and Newsprint Bond and Share Company. The shares of the Thunder Bay Paper Co. Limited, are deposited with a Trustee under the Contract of Purchase and pledged as security for the payment of the deferred instalments of the purchase price and for the carrying out of the terms of purchase. We understand that the vendor may sell these shares in the event of default by Abitibi Power & Paper Company Limited in payment of any instalment of principal or interest thereon or in performance of any of its other covenants in the purchase contract after sixty (60) days' written notice of such default, unless such default is cured within the said period of sixty (60) days. At the present time the Abitibi Company is technically in default under the terms of this Agreement, although we understand that notice of default has not been given to date by the vendor.

The investment in the shares of the Newsprint Bond and Share Company are stated at cost, less a provision for current losses applicable to the Abitibi Company's holdings. The liabilities for all calls of capital have been established on the balance sheet, whilst the uncalled subscriptions amounting to \$550,600.00 are shown as a contingent liability. The Receiver will have to decide whether or not to make the additional payments necessary to protect this investment. All advances in connection with the Ontario Power Service Corporation, Limited have been written off in the attached accounts and we have referred in a footnote to the balance sheet to the question of the contingent and contractual obligations (whatever they may be) of Abitibi Power & Paper Company, Limited and Abitibi Electric Development Company, Limited in connection with the Ontario Power Service Corporation, Limited.

We have made certain changes in the classification of assets and liabilities as compared with the balance sheet as of December 31, 1931, and for your information in comparing the position of the companies as to net current assets as of December 31, 1931, with the showing disclosed by the attached balance sheet, we give below a reconciliation thereof:

Net current assets at December 31, 1931, as per consolidated balance sheet published.....	\$10,909,324.74
Less—Net current assets of Provincial Paper Limited included therein..	3,098,964.30
<i>Balance</i> , being net current assets at December 31, 1931, carrying common stock of Provincial Paper Limited as an Investment..	\$ 7,810,360.44
Net current assets at September 10, 1932, as per attached statement....	280,630.77
DECREASE.....	\$ 7,529,729.67

This decrease is accounted for as follows:

Deferred Liabilities at December 31, 1931, which have since become
Current Liabilities:

The Royal Bank of Canada, loan.....	\$4,250,000.00
Other liabilities.....	71,333.04
	<u>\$ 4,321,333.04</u>

Other Assets and Deferred Charges:

Unexpired insurance premiums, deposits with Mutual Insurance Companies, cash deposits on timber limits, etc., etc..... 595,303.00

(Since December 31, 1931, certain reserves in the current asset position of the company have been absorbed in profit and loss; therefore under present conditions it is considered that these items should be removed from the current asset classification.)

Investments in and Advances to Other Companies:

Cash disbursements made and increases in current liabilities in connection with:

Thunder Bay Paper Co. Limited:

Investment.....	\$605,000.00
Advances.....	168,271.33

Amounts transferred to Reserve against Investments..... 597,181.08

	<u>1,174,142.67</u>
	952,348.62

Written off Investment in Bonds..... 70,000.00
Account with Newsprint Institute of Canada written off..... 150,104.74
Cost of bonds purchased for sinking fund..... 333,655.75
Sundry other changes..... 87,408.43

TOTAL DECREASE, AS ABOVE..... \$ 7,529,729.67

The largest item entering into the foregoing is the inclusion with the current liabilities of the Royal Bank loan of \$4,250,000.00 originally made in connection with the purchase of the shares of the Thunder Bay Paper Co. Limited, which under an agreement with the bank was not due until January 2, 1933 (subject to the fulfilment of the company's obligations to the bank current from time to time) and was therefore treated as a deferred liability in the balance sheet at December 31, 1931. For present purposes it is of course shown as a current liability in the attached balance sheet.

In the annual balance sheet accompanying the directors' report to the shareholders as at December 31, 1931, the assets and liabilities of Provincial Paper Limited were consolidated with those of Abitibi Power & Paper Company, Limited and its subsidiary companies. In the attached balance sheet the interest in Provincial Paper Limited, is shown as an investment at cost. This change in treatment results in important reductions in both the current assets and current liabilities as compared with the figures in the annual balance sheet of December 31, 1931.

Yours very truly,

PRICE, WATERHOUSE & Co.
