The prosperity of the country to which reference was made in the Report of last year, has continued. There has been a large increase in its capital and population, the development of resources has progressed rapidly, and the general business of the country has been both active and profitable.

During the year 21 new Branches of the Bank have been opened, bringing the total number of Branches up to 67. Of these new Branches 12 are in Ontario, 5 in Manitoba, and 4 in Saskatchewan.

All the expenses of opening and equipping these new offices, including safes, furniture, stationery and alterations to buildings, have been charged against the profits of the year.

The sum of \$190,000 having been expended upon new buildings during the year, and further sums being required for this purpose during the ensuing year, the Directors have deemed it advisable to write off \$100,000 from the amount represented by Bank premises.

The new stock issued in May, 1905, has been fully paid, and to meet the requirements of the Bank for increased note circulation, consequent upon its enlarged business, the Directors decided to increase the paid-up Capital Stock of the Bank to the full extent authorized, and an allotment of \$500,000 new stock was made on the 3rd of June, 1906.

At the closing of the books on 30th November last, there had been subscribed of such allotment \$464,400, on which \$443,530 had been paid, making the paid-up Capital on that date \$3,943,530.

As the Capital Stock now authorized is \$4,000,000, and this amount has been almost fully paid, the Directors propose asking the Stockholders at this meeting to authorize a further increase in the Capital Stock to the extent of \$6,000,000, which would make the total authorized Capital \$10,000,000, and to give powers to the Directors to issue this new stock from time to time as the interests of the Bank may require.

The Directors deem it worthy of mention in this Report that the Bank has completed 50 years of its history, having opened its doors for business in July, 1856.

All of which is respectfully submitted.

W. H. BEATTY,  
President

The President, Mr. W. H. Beatty, in moving the adoption of the report, said :—

Gentlemen, I have pleasure in rising to move the adoption of the report which has just been read in your hearing.

It is not necessary for me to dwell at very great length on any of the points that are touched upon in the report, for to a very large extent it speaks for itself.

Your attention is called therein to the prosperity of the country, and, happily, there is no need to present many statistics in order to substantiate the truth of the statement. Evidences of this prosperity are manifest on every hand. Every department of our country's commercial life is prosperous to a very high degree. The wealth of our fields, forests and mines, the activity of our factories, and the largely increased demand for, and consumption of commodities of all kinds, are so well known to each one of us that it is hardly necessary to follow the reference to them with any degree of detail.

And yet it seems desirable to mention a few figures that will bring these evidences under our notice in a concrete form.

The trade and commerce returns issued by the Government for the year ending 30th June last show that the total exports and imports of the Dominion amounted to \$546,000,000, an increase over the previous year of more than \$81,000,000. The figures that have been published for the five months succeeding that date show an increase of \$44,000,000 over those for the corresponding months of the preceding year. These amounts relate only to the foreign trade of the country, and while it is impossible for us to estimate the volume of the domestic trade, each one here knows that it has been of a most active character. Every factory is running at its full capacity, and the owners of most of them have to tell the story that they have a larger number of orders on hand than they can fill, and that the volume of their business has never attained such dimensions.

The railways are unable to carry the amount of freight that has been offered, although they have spent over fourteen millions of dollars during the year in increasing their equipment. More than 3,300 miles of new railways have been constructed at an expenditure of over \$62,000,000.

There has been added to our population by immigration from different countries about 200,000 people, and the amount of land that has been brought under cultivation has very largely increased in consequence.

The combined statements of the chartered banks present other evidences of the enormous expansion that has taken place. In November, 1905, the amount of Bank and Government notes in circulation and in the hands of the public was \$83,000,000; in 1906 the amount had increased to almost \$93,000,000. At the same time deposits in Canadian banks have grown from \$566,000,000 to \$660,000,000, an increase of \$94,000,000. This increase in deposits has been largely used in assisting commercial and industrial undertakings, the loans of the banks having increased from \$600,000,000 to \$700,000,000.

Further evidence, therefore, is hardly required, and I do not deem it necessary to go into particulars about the different branches of trade, as has been done on some former occasions.

It would, however, be very little satisfaction to us as stockholders of The Bank of Toronto to know that general conditions were in such a satisfactory state in the country if this Bank were not sharing in the prosperity and growth everywhere manifested. But I am satisfied that a comparison

of the figures presented to you in the statement of to-day shows that we have been participating in the growth and have received our fair share of the increases.

The circulation of the notes of the Bank has increased from \$3,088,664 to \$3,546,905; deposits, from \$21,367,075 to \$24,737,123, an increase of \$3,370,048; loans, from \$23,763,628 to \$28,326,025, an increase of \$4,563,397. And as an indication that the Bank has not been behindhand in assisting the commercial and industrial interests of the country, your attention is called to the fact that we have withdrawn part of our money from call loans and have increased the amount of our commercial loans, so that the difference between the current commercial loans of a year ago and of to-day shows an increase of \$6,749,270, being from \$19,538,928 to \$26,288,198.

In connection with the Bank's operations for the year, the report informs you that we have opened twenty-one new branches. These have already added to our resources and have increased the volume of our business, and we trust they will all prove profitable offices and aid in strengthening the position of the Bank. The expense of opening so many new branches and thoroughly equipping them has amounted to a very considerable sum. They are all provided with burglar-proof safes of the latest construction, and are also provided with furnishings and adapted for the purposes of carrying on the business of the Bank. These safes and fixtures are really a very valuable asset of the Bank, as they form part of the machinery which enables us to do our work in a satisfactory manner, but it has been our invariable practice to charge all such expenditure against the profits of the year; and this year, although the amount has been much larger than usual, we have not hesitated to charge the whole amount to our expense account, which has been debited with over \$60,000 for this purpose.

We are at present engaged in building new offices in Toronto, Winnipeg and St. Catharines, and in connection with these buildings there has been expended during the year \$190,000. While it is no doubt true that these buildings are worth all they cost and serve useful purposes, not only in providing the Bank with its working places, but also in advertising the Bank in an effective manner, yet it seems a prudent policy to reduce the valuation of these properties in our statement and to keep the valuation of such assets always under their cash value rather than above. Your Directors have, therefore, thought it well to apply \$100,000 in reducing the amount of Bank Premises Account.

The paid-up capital of the Bank has now nearly reached the limit of \$4,000,000 heretofore authorized. Of the last allotment of \$500,000 there had been subscribed up to 30th November, 1906, the sum of \$464,000, on which \$443,530 had been paid, making the paid-up capital on that date \$3,943,530. The time for subscription had not then expired, and some amounts have been subscribed since our financial year closed, but shares representing the unallotted fractions and unsubscribed stock will very shortly be available for sale. These shares will be sold to the best advantage and the premium be added to the profit account of the Bank, and be available for further additions to the Rest Account.

Your Directors deem it desirable to obtain authority to make further issues of new stock as the business of the Bank is considered to require it. The obligation has been laid upon the chartered banks of this country to provide the circulating medium which enables the necessary exchanges of commodities to be made. The banks have received the privilege from Parliament under their charters to issue their own notes up to the amount of their paid-up capital, and as the business of the country expands and as new

demands are made upon us, from time to time, we feel ourselves bound to share in discharging the duty which banks owe to the country in providing the currency to assist in facilitating and developing its trade.

For this reason the Directors are about to ask the stockholders for authority to make application to the Treasury Board for permission to have the authorized capital increased to the sum of \$10,000,000, and further to ask you to give the Directors power, from time to time, to issue the capital so authorized in such sums and at such times as it may be in the interests of the Bank to have increases made.

As the report has stated, we have now completed fifty years of bank history, and I think I may safely say that the Bank is to-day stronger and better equipped for business than at any time during its long life. The policy pursued by the Bank has been of a conservative character, and we consider ourselves justified in stating that on the whole this course has proved to be not only the wisest but the most profitable one in the interests of the stockholders. Throughout the whole of this period of fifty years the Bank has never failed to pay a dividend to its stockholders every six months. The average rate of yearly dividend during this long term of years has been 9.32 per cent., and, in addition to this, the stockholders have, in connection with the issues of new stock, received rights and privileges which had a cash value, and if such value were taken into account and distributed over the period of fifty years the return received by our stockholders would be increased to an average of over twelve per cent. throughout the period. In addition to this, a Reserve Fund of \$4,500,000 has been built up, of which not less than \$2,500,000 has been accumulated out of the earnings of the Bank, making an average addition of \$50,000 per year to the Rest Account from the Bank's earnings.

When we take into consideration the many periods of depression and severe financial crises through which we have passed, the long years during which the country made very slow growth, and the number of banks that have been unsuccessful, it is a matter for congratulation that the stockholders of this Bank have received such a steady and adequate return upon their investments, and that the Bank occupies the position of great strength that it does to-day.

I need not say to you, gentlemen, to how large an extent the success of the Bank is owing to the unwearied effort and high business capacity of the present General Manager, who has for thirty years past filled that office, and whose connection with the Bank in various capacities has extended over very nearly fifty years, for in April next he will have completed that period of service in the Bank. I am sure that you, gentlemen, will join with me in expressing to him our very hearty thanks for the care and fidelity which he has exercised over our interests during these many years, and, not least, in the year which has just passed.

I beg also to state that the Directors recommend to their successors in office that hereafter dividends of the Bank be paid to the stockholders at quarterly periods instead of half-yearly, as heretofore.

I now beg to move, gentlemen, seconded by the Vice-President, Mr. W. G. Gooderham, that the report which has been presented to you be adopted and printed for distribution amongst the stockholders.

The motion was adopted.

Mr. Coulson, in responding to the words of appreciation expressed by the President, said :—

I have difficulty in expressing my thanks as I could wish for the more than flattering manner in which you have called attention to my long connection and service with the Bank. The period of this service may be said to mark the space between youth, and, shall I say, approaching old age, and while during all these years I have, to the best of my ability, aided in building up the Bank and placing it in the proud position which it occupies to-day, there has ever been associated an able body of Directors and an efficient and loyal staff to whom must be given credit for much of what has been accomplished in this respect.

It is sometimes said that this Bank might have accomplished more than it has done, that its policy has been one of over-conservatism, and that we have not expanded as rapidly as we might have done, and have been less ready to adopt modern methods of business than some of our neighbors. We are quite ready to admit that others have shown greater aggressiveness, and in many cases have spread themselves over extended territory ; but I will venture the opinion that none have builded deeper or on a more solid and enduring foundation than has the Bank of Toronto.

Looking back over a period of fifty years, we are reminded of the changes that have taken place in the banking institutions of the country. We are prepared to find changes in a business community amongst the ordinary mercantile houses, but in connection with financial institutions we are led to consider it natural for them to exhibit greater stability. The record of the past, however, does not show that this is a necessary result.

When The Bank of Toronto opened its doors in 1856 there were twelve chartered banks in the Provinces of Ontario and Quebec. Of these there are only five doing business to-day. In the next succeeding ten years thirteen new banks were formed ; of these five are left. In all twenty-two banks in these two Provinces have gone out of existence since we began to do business. Including those mentioned, seventy-eight banks have opened for business in various parts of the Dominion, and of these only thirty-five now remain, the others having passed out of existence, either by suspension, liquidation, or having been absorbed by some of the remaining banks.

The remembrance of these facts will, I think, tend to show that banking is a business that is attended with its own share of risks, and the fact that we have survived and are to-day occupying the position that we do is a matter for congratulation.

Will you pardon me for saying that I have great pride in The Bank of Toronto, that I am proud of my long connection with it, and prouder still of the position that it has attained amongst the financial institutions of the Dominion.

I trust that the years to come will show continued steady growth, and that even if history does repeat itself and days of adversity come upon the country, this—the old Bank—will be in a position to extend aid to the mercantile community at the times they need it most, and will continue to be a safe place where all classes can deposit their surplus money with confidence.

Again thanking you, Mr. President and gentlemen, for your very kind words.

Moved by MR. THOMAS LONG, seconded by MR. SAMUEL NORDHEIMER, and

*Resolved*—That the thanks of the Stockholders be tendered to the President, Vice-President and Directors of the Bank for their attention to its affairs throughout the year.
