## PRESIDENT'S ADDRESS

The year just closed is notable for the sound progress made in nearly every branch of our economic life. Some of our industries have in previous times reached a greater pitch of prosperity, due to the war or to the expansion booms of earlier days, but 1927 brought substantial growth without the aid of abnormal conditions. Undoubtedly Canada will do well if it can continue in this way, and we as bankers can have no better objective than to help to maintain and promote development along these lines.

Nature's bounty, and stable conditions in the markets for most farm products, combined to make 1927 a year of sound prosperity in agriculture, and this in turn provided a healthy basis for manufacturing, trade and finance. The acreage sown to field crops, according to the Dominion Government estimates, was a little lower than in 1926, but the yields of practically every grain were slightly larger, and except for a slight decline in wheat the average value of every important grain has been higher. Our total field crops in 1927 are calculated to be worth One billion one hundred and forty-one million Dollars, which is a little above the estimate for the preceding year.

Improved prices of live stock have stimulated this important branch of farming, and the demand for our dairy products has been good, so that the raising of animals both for sale and for dairy purposes has been encouraged. I think we should all be glad to note that the tendency towards mixed farming continues, for though new wheat lands are each year being brought into use, it is obvious that agriculture as a permanent industry must be along varied lines.

Industries based on our forest resources become more important each year. The lumber industry is still undergoing readjustment but prices were steady during the year and a good volume was marketed. The big expansion continues to be in the pulp and paper field, however, and it is encouraging to note the tendency for carrying our raw materials through to finished products within our own borders. Several newsprint machines were installed in 1927, and the year's output was approximately Two million one hundred thousand tons, which is above the newsprint output of the United States, and more than double our own production of five years ago.

The year was a notable one in mining, the total production being valued at over Two hundred and forty-one million, which slightly exceeds the previous high record established the year before. More important than this gain, however, was the discovery of new deposits of great value, which will add to the list of big producers in the future.

The fish catch was on the whole not so good as in 1926. Precautionary measures taken by the Government to protect our future supply also proved a temporary hardship.

Manufacturing as a whole had a good year. The value of our manufacturing output is now over Three billion Dollars a year, and it is growing steadily. Conditions in the iron and steel industry were better in 1927. Most branches of the textile industry are thriving. Even more notable was the demand for machinery and other capital equipment going into the extension of our industries.

The use of our water powers increases rapidly. Still only a small part of our total water powers are developed. These power resources are proving a great asset to Canada. They make up in some degree for the lack of coal in our central provinces, and afford a basis for industrial development.

The year's business cannot better be summed up than by a reference to a few items that are representative of the whole industrial structure. Employment in recent months, as shown by returns made by employers to the Dominion Government, has been exceptionally good. Immigration has been better, and with the British people looking in this direction with more favor, we are encouraged to hope for a bigger entry of English speaking peoples. The visit of the Prince of Wales and of Premier Baldwin of Great Britain, and the Empire Mining Congress, both appropriately taking place in the year of our Diamond Jubilee of Confederation, did a great deal towards stimulating interest in our country. Bank debits and clearings again show the total business of 1927 to have exceeded all previous records, and this is the more striking when we bear in mind the big reduction in prices that took place in 1920 and 1921. Increased car loadings and railway gross earnings are also evidence of the growth in production and marketing of commodities. High production records were achieved in a number of industries.

Our exports for the twelve months ended November were in round figures One billion two hundred and twenty-six million Dollars compared with One billion three hundred and six million the year before. Imports, on the other hand, were One billion and eighty-six million Dollars, a considerable increase over the figure of One billion and three million for the preceding year. We have still a good balance of exports over imports, however, and such a big investment of outside capital in Canada as took place during the past year is bound to increase our imports in relation to our exports.

This basic development has meant unusual activity in finance. New issues of Canadian bonds during the year totalled approximately Six hundred million Dollars. The United States took about half of these new bonds, and Canada nearly all of the balance. The growing financial power of our own country is apparent, when we remember that before the war practically every bond issue of size had to be taken to Great Britain. And this power is all the more clear when we see savings deposits unaffected by such a big investment. In fact the latest returns show these deposits to be the highest on record.

Sales of Government and municipal bonds were not high as compared with some earlier years. This is in part due to more moderate programs of expenditure, and also to the improved budgets of the Dominion and of some of the Provinces, which enable them to meet more of their requirements out of revenue. The Dominion Government was able to reduce its debt by over Fifty million Dollars, Ontario has made a start on a comprehensive debt retirement plan, and some of the other provinces are working to the same end. These changes, which have been made possible by the prosperity of the country, make tax reductions practicable, and this in turn will gradually relieve industry of a burden which has been heavy since the war.

Financing of public utility and industrial corporations was very active during the year, the new issues going in part to raise capital for expansion, and in part to refund debts at lower interest rates. New stock issues were also above all previous records, being estimated at One hundred and eighty million Dollars. Dealings in existing stocks on our exchanges were very high during the year. From excessive conservatism engendered by the Victory bond campaigns, and by the difficulties met by corporations shortly after the war, it appears that people have gone to the other extreme, and are now only too ready to risk their money in speculative ventures. This speculation is being watched with concern, and we hope that it will be checked in time.

So far as the future is concerned we have every reason to be confident. Our present prosperity is not superficial, but is well founded on natural resources, organization and efficiency.

# THE BANK OF TORONTO

Canada is in a strong position. Corporations and firms in most lines of business have had good years of earnings, and have strengthened their position. Throughout the whole economic field, from farm to factory and from factory to the retail store, there has, in recent years, been real progress in equipment and methods which has gone a long way towards making Canada a bigger, stronger and more complex industrial country. We have only to keep our house in order and our optimism under control, practice the old virtues of industry, economy and patience, to realize our best hopes for ourselves and for our country.

Under the provisions of The Bank Act one of our auditors must be changed every second year. Mr. Arthur B. Shepherd, C.A., of Peat, Marwick, Mitchell and Company, who has acted as one of our auditors for the past two years, is retiring this year and the name of Mr. W. D. Glendinning, C.A., of the firm of Riddell, Stead, Graham and Hutchison will be proposed in his place. Mr. Shepherd has given us satisfactory service during his term of office.

Before moving the adoption of the Report, I will ask the General Manager to address you, giving you more particular information with regard to the important items in the statement and the progress we have made during the past year.

## GENERAL MANAGER'S ADDRESS:

Our balance sheet this year again reflects the growing prosperity of the country. We have had a good year. Our volume of business has been larger, and profits, as bank profits go, have been satisfactory.

## DEPOSITS:

Deposits have increased by over \$12,000,000 or 13.72%, which compares with an average increase of 8.69% in the Canadian deposits of all the banks, excluding Government balances. An increase of over \$5,000,000 in the Savings Department, or 9.35% is satisfactory, the gain in this department for all Canada being 4.65%. We have, therefore, received more than our share of the average gains. We like to feel that to some extent this represents an expression of confidence in the Bank and its policies. If we are sometimes referred to as a conservative bank, at least we keep the institution safe for its depositors and shareholders, and we believe the public has an appreciation of this fact.

## COMMERCIAL LOANS:

Commercial loans and advances, including advances to municipalities, are up over \$10,000,000, or 18.61%.

Our increases in deposits and in commercial loans are somewhat exceptional and have been assisted by transactions which are temporary and possibly non-recurring. We do not, therefore, promise similar gains in 1928.

I have great satisfaction in certifying to the quality of our loans. These receive constant supervision and revaluation by our own officials, and also undergo special examination by your auditors. The figures at which these assets are taken into the balance sheet provide for all losses, known or anticipated, and we believe are fully realizable under any conditions which can reasonably be expected.

## CASH:

Our cash assets, which include specie, Dominion of Canada notes, cheques on other banks, bank balances and deposit in the Central Gold Reserves, stand at \$26,000,000, in round figures, an increase of over \$5,000,000.

# THE BANK OF TORONTO

Securities owned by the Bank are down \$6,000,000, and Call and Short loans up \$3,000,000. In regard to these two items, our securities are of the best and are carried at cost or less, which is well below present market prices.

Call loans are fully covered by listed securities, well diversified and amply margined. We have no heavy nor inactive accounts.

## PROFITS:

Profits show a moderate increase. After paying the usual dividend and a bonus of 1%, and making customary deductions as reported in the statement, there remained \$165,000 which has been added to Profit and Loss account and carried forward.

We expect to continue the bonus inaugurated last year, and at the same time to continue adding moderately to our reserves. As our business expands reserves must be proportionately increased in order that all risks may be properly insured.

The book value of your stock now stands at \$252. per share, and our disbursement for last year of \$13. per share represents a return of a shade over 5%, which we think is not excessive. Bank stocks, however, have shared in the rapid advance in prices of all high class securities. In our own case the market price has been marked up to a point where the yield is down to 4 1/2%—just about the same as on a Government bond. It is a question if present quotations do not discount the future too far ahead.

## BANK PREMISES:

Bank premises are not materially changed. We spend a considerable amount in upkeep each year, as well as in new buildings, but this expenditure is taken care of through our Depreciation Account.

We have opened 12 new branches during the year and have closed 2, making a total of 177 branches now in operation.

The most noticeable feature of the present time, in my opinion, is the cheerful and confident outlook of our people. Only three or four years ago, or less, depression existed to a considerable degree, and our near future was viewed with some concern in many quarters. All this has changed. Confidence has steadily increased, particularly during the past year. Securities listed in our stock exchanges have shown rapid advances, and the year just closed reports the heaviest volume of trading in our history. There is, of course, a basis for much of the improvement in security prices. More money is available for investment, we have had several good crops at good prices, and the country generally is in better shape; purchasing power is higher, federal taxation has started downward, and there has also been a remarkable development in mining. After making all allowances, however, we wonder if confidence is not showing a tendency to outrun actual achievement, particularly in security prices. Human nature changes slowly, if at all, and the tendency to swing from one extreme to the other still exists. Volume and profits cannot be expected to run very far ahead of population, and it is therefore wise that in our present more prosperous condition we should not lose our sense of proportion.

There is, of course, no boom in industry, no undue additions to plant leading to over-production, no surplus of goods in the country, which is a very healthy situation, and so far there is no serious speculation in real estate and building.

On the whole our situation, if properly handled, gives promise, during the next ten or fifteen years, of more rapid growth and development, both in population and industry than we have ever before witnessed in any similar

# THE BANK OF TORONTO

period. We are practically certain of a steady increase in our agricultural production, and perhaps even greater than this will be the increase in the development of our mining areas. Manufacturing on an increasing scale will naturally follow, and our immigration problem will largely solve itself through our absolute need for workers.

Let us hope that as we go along we shall deal with our problems calmly, avoiding extremes, but with a true vision of our great future.

## STAFF:

We come now to the customary reference to the staff. If our enlarged business is a true indication, very satisfactory work has been performed all along the line during the year.

If we have anything good to say of the staff, no doubt the best way to say it is with increases and bonuses, and I am sure you will be glad to know that tangible recognition is being given in this way. The scale of pay has steadily increased during recent years, but no doubt there is still room for improvement. It is a fact that the benefit of increased volume and of economies is going to the public rather than to the staff or to the shareholders, and without doing the public any appreciable good.

Competition in banking is exceedingly keen. Rates of discount are fair, but, notwithstanding much higher operating costs, banks continue to give a vast amount of service to the public for nothing, or next to nothing. The machinery necessary and the expense involved in clearing the enormous volume of transactions taking place every day from one end of the country to the other are not fully considered nor appreciated by the public. For this condition both the banks and the public are responsible, but if the latter would pay a very slight profit, perhaps even the actual cost of these services, bank employment would soon come to be regarded as most desirable. This would be in the interest not only of bank officials but of the public, and banks could perhaps then afford to somewhat reduce their discount rates.

Moved by the President Mr. W. G. GOODERHAM, seconded by Mr. WM. STONE and

*Resolved*—That the Report of the Directors and the Statement taken as read be approved and adopted, and printed for distribution to the Stockholders of the Bank.

Moved by Mr. PAUL J. MYLER, seconded by Mr. A. H. CAMPELL  
BY-LAW NO. 54

Be it enacted as a by-law of The Bank of Toronto that the Board of Directors shall have power to grant to the President and Vice-Presidents such remuneration as they may from time to time determine.

Mr. LAMB spoke to the motion:

The increasing business of the Bank during the past few years has brought us to the point where we feel that our Executive organization should be strengthened, and after discussion with the Board it has been decided to appoint a new General Manager and Assistant General Manager. This arrangement will relieve me of much detail, and enable the work to be carried on to better advantage.

My successor as General Manager will be Mr. Harvey B. Henwood, and Mr. F. H. Marsh, at present Western Superintendent, will be advanced to the position of Assistant General Manager.

# THE BANK OF TORONTO

This by-law, if it meets with your approval, will enable us to provide for these changes.

*Carried*

Moved by Mr. JAS. C. BLACK, seconded by Mr. C. A. WITHERS and

*Resolved*—That Mr. D. MCK. MCCLELLAND, F.C.A. of Price, Waterhouse & Company and Mr. W. D. GLENDINNING, C.A. of Riddell, Stead, Graham and Hutchison, be and are hereby appointed Auditors of this Bank for the ensuing year at a remuneration not to exceed \$10,000.

*Carried*

Moved by LT.-COL. ROBT. F. MASSIE, D.S.O., seconded by Mr. SIGMUND SAMUEL and

*Resolved*—That the thanks of the Stockholders are hereby tendered to the President and Directors for their attention to the interests of the Bank and to the General Manager, Assistant General Manager and other officers of the Bank for their service during the past year.

*Carried*

Moved by Mr. C. S. MACDONALD, seconded by Mr. W. B. MACLEAN and

*Resolved*—That the Scrutineers cast one ballot for the election of the following named gentlemen as Directors of The Bank of Toronto:
