THE TWENTY-SECOND ANNUAL REPORT  
OF THE DIRECTORS OF CANADIAN  
COTTONS LIMITED, AS PRESENTED TO  
THE SHAREHOLDERS AT THE ANNUAL  
MEETING OF THE COMPANY HELD AT  
MONTREAL, MAY 19TH, 1932.

*To the Shareholders of  
Canadian Cottons, Limited.*

**Y**OUR Directors have pleasure in presenting the Twenty-Second Annual Report of the Company, showing the result of its operations for the fiscal year ended March 31st, 1932, together with Balance Sheet and Profit and Loss Account for the period named.

Sales for the year amounted to \$6,541,000.55, compared with \$6,431,171.63, an increase over the previous year of \$109,828.92, or about 1¾%.

The production during the year 1931/32 was 1,300,000 yards in excess of 1930/31, which enabled your plants to operate 60% of capacity.

At the end of the 1930/31 fiscal year spot cotton closed at 10.70c per lb., while on March 31st, 1932, spot cotton closed at 6.20c per lb., showing a reduction of 4½c per lb. This meant that goods had to be sold and inventories taken at this lower basis, resulting in a tangible loss that was not anticipated, seeing that cotton had been selling lower than for many years.

Prevailing prices must be showing a very serious loss to the growers.

The Profits of the Company were also lessened by the Canadian dollar having suffered a serious discount as compared with the American dollar. Not only had American funds to be provided against purchases of raw cotton, dyestuffs, mill supplies, machinery, etc., but several thousands of dollars were lost through the necessity of paying Bond Interest in American funds.

The chief loss, however, that your Company suffered during the year resulted from Britain going off the Gold Standard. The reduction in the value of the pound sterling enabled English mills to lay down goods in Canada at prices that your Company found it quite impossible to meet. It is hoped that legislation will in due course be enacted to prevent the transfer, resulting from the reduced value of the pound, of much-needed work from Canadian textile operatives to textile operatives overseas. Had the value of the pound been maintained, your mills, as well as all other Canadian textile mills, could have furnished employment to a much larger group of workers than was possible under the circumstances.

The results of the operating of the mills of the Company showed a loss for the year of \$43,651.32, before making any provision for dividends, which surely shows that there is no room for criticism by the consuming public in regard to the prices they are called upon to pay for such goods as your mills provide.

It is unfortunate that the surplus had to be again drawn on to the extent of \$94,280.17, to enable the Company to pay its Preferred dividends.

In accordance with the usual policy of your Directors, substantial sums have been expended on new equipment, and the several plants of the Company have been maintained in a high state of efficiency, your Directors believing that only thus is the survival of the industry possible.

World conditions being still in a state of flux, it is quite impossible to give a forecast of business conditions for the year 1932/33.

The financial position of your Company would indicate ability to take advantage of any improvement that may be manifest in the general situation during the coming years.

The working capital shows a decrease of about \$100,000.00, which is accounted for by the purchase during the year, at a favorable price, of a block of the Company's Bonds.

Your Directors wish to record their appreciation of the loyal service of the Officers and Employees of the Company throughout a very difficult period.

The Books and Accounts of the Company have been duly audited and the Auditor's Report is submitted herewith.

Respectfully submitted,

A. O. DAWSON,

President.

Montreal, May 19th, 1932.
