

FEDERAL GRAIN, LIMITED

Fourteenth Annual Report of the Directors

YEAR ENDED 31st JULY, 1943

TO THE SHAREHOLDERS:

Your Directors present herewith Financial Statements for the year ended 31st July, 1943, including the Balance Sheet, certified by your Auditors, Messrs. George A. Touche & Co.

Statement of Income and Expenditure shows an operating profit of \$391,856.20 after providing for bond interest, depreciation and other charges. This is \$22,735.14 less than the operating profit for the year ended 31st July, 1942. From the net operating profit there has been deducted \$170,000.00 as provision for Income and Excess Profits Tax. The balance, together with the capital gain arising from the sale of properties, has been transferred to Surplus Account.

Our letter to shareholders a year ago made reference to the reduction in grain handling charges provided in the new contract with The Canadian Wheat Board, and the reduced storage rates which are controlled by the Board of Grain Commissioners. These reductions and the payments of higher prices for grain, required to maintain your Company's business in the face of patronage dividend payments by some elevator companies resulted in lower earnings.

Bank loans of \$10,144,214.58 show a large increase owing to the heavy stocks of grain carried in the Company's elevators and annexes.

First Mortgage Bonds of the par value of \$175,000.00 were redeemed during the year in accordance with Sinking Fund provisions, bringing the total redemption of bonds to \$1,807,000.00.

Working Capital was increased during the year by \$554,135.83 and now amounts to \$2,225,014.49. Depreciation at the maximum rates allowed on the Company's properties has been provided.

During the year some of the Company's properties at points where there was a duplication of facilities with The Alberta Pacific Grain Company Limited were disposed of, and the money received has contributed to the improvement in working capital.

Early this year your Company organized Algoma Grain Securities Ltd., as a wholly owned subsidiary. This subsidiary company now controls The Alberta Pacific Grain Company Limited through the purchase of approximately 98% of preferred and 80% of the common shares. Special bank loans were arranged to finance this purchase. Your Company's terminal elevators have always been dependent upon shipments from The Alberta Pacific Grain Company Limited for a substantial proportion of their business, and any change in policy of that Company would have seriously reduced your Company's earnings.

Over a considerable area in Western Canada severe drought conditions were experienced this Summer and this, together with the reduction in acreage sown, has resulted in a wheat crop of about one-half of last year's record crop. There are still very large stocks of grain carried on Western farms, and this will to some extent offset the smaller crop.

Two Preferred Dividends of \$2.00 per share each, totalling \$120,000.00, were paid to shareholders during the fiscal year. A further payment of \$2.00 per share was made on September 2, 1943, and future payments will be made as conditions warrant.

Your Directors desire to express appreciation of the efficient services and devotion to duty of employees. All are investing in War Savings Certificates and Victory Bonds. Many more members of the staff have joined the Canadian Forces, thus throwing a heavier burden on those remaining.

All your Directors retire at the ensuing General Annual Meeting and are eligible for re-election.

On behalf of the Board of Directors,

H. E. SELLERS,
President.

FEDERAL GRAIN, LIMITED
