

McGILL UNIVERSITY
MONTREAL

FACULTY OF MEDICINE
DEPARTMENT OF SURGERY

March 20th,
1928.

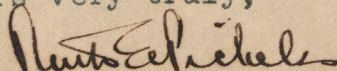

Dr. Wilder Penfield,
Berlin, Germany.

Dear Dr. Penfield:

The enclosed letter, with the accompanying specimen, came just before Dr. Archibald left for Boston, and as the envelope was marked "may be opened if necessary" he did so, and I have written to Dr. Bishop telling him so and stating that the slide has been forwarded to you.

Dr. Archibald also asked me to acknowledge receipt of your letter, written on the train, and to say that he was taking up the points with Mr. Finlay, and asking that he write direct to you. Dr. Archibald will write you shortly.

Yours very truly,

Secretary to
Dr. Archibald.

*P.S. Ben voyage. Will
see Martin & write later*
