

Organization
of
NEUROLOGICAL AND NEURO-SURGICAL CLINIC

.....

OUT-PATIENT DEPARTMENT

Diagnosis)
Consultation) All members of Clinic including ~~ass't. residents.~~ *neurological internes.*
Treatment)
Follow-Up)

Conference in O.P.D. weekly after clinic.
Conducted by neurologist for presentation of out or in-patients.
attended by all members of clinic and outside men if interested.

WARD SERVICE (Concentration of beds if possible)

Operative cases - ^{Interne #1} ~~1st Ass't. resident~~) + Neuro-surgeons
Non-operative " - ^{Interne #2} ~~2nd " "b~~) + Neurologists

OPERATING ROOM

- Isolation of instruments *for neurosurgery.*
- Specialization by instrument nurse
- Isolation of operating room if possible *(not used for infected cases)*
- Operating team: ~~1st Ass't. resident and interne.~~
Interne #1 + general interne.

NEUROPATHOLOGICAL LABORATORY (Closely related to General Pathology)

Operative Material

Reported by ~~1st Ass't. resident.~~ *neurological interne #1.*
Verified by neuro-surgeon

Autopsy Material

Autopsy done and reported by ~~2nd Ass't. resident~~ *neurological interne #2.*
Verified by neurologist.
Also by pathologist?
Also by conference?

Spinal Fluid Material

Spinal Fluid - *examined by neurological interne #2*
From all services (excluding Wassermans)
Supervised by neurologist
Or Research Fellow

Equipment of Neuropathological Laboratory

1. Individual small rooms or tables equipped for research for all members of Clinic and for visiting workers.
2. Secretary to run laboratory, make records and reports and type manuscripts.
3. Technician in separate room to prepare routine histological sections.
4. Second technician (if possible) to do spinal fluid work and research histology.

ANIMAL EXPERIMENTATION

To be done in the Laboratory of ~~Experimental Surgery~~ *or Physiology* by any members of Clinic.

ORGANIZATION OF NEUROLOGICAL AND NEURO-SURGICAL CLINIC -2-

CLINIC STAFF

Interne #1
2nd Ass't. Resident

Neurological examination of non-operative cases
Out-patient examinations
Autopsies on cases of neurological interest
Examinations of all spinal fluid
Selected investigation

Interne #2
1st Ass't. Resident

Neurological examination of operative cases
Out-patient examinations
Reports on material removed at operation
Assistant at operations
Selected investigation

Research Fellow

Histological and experimental research
Administration of Neuropathology Laboratory
Once a week in Out-Patient

Attending Neurologists

Out-patient consultation
Chairmanship and organization of O.P.D. conference
Immediate supervision of out-patient clinic
Care of non-operative hospital patients
Teaching on such patients
Supervision of autopsy neuropathology
Research

Attending Neuro-Surgeons

General direction of Clinic
Immediate supervision of Neuropathological Laboratory
Care of operative patients
Teaching ^{neuro}
Supervision of surgical ^{neuro} pathological reports
Research
