

24th June 1930.

Professor J. Simpson,
McGill University,
MONTREAL.

Dear Professor Simpson,

We have received a bill on the Ottmann Fund for extra feeding for cats. This evidently is in response to our request that the cats be given enough food so that they would not lose weight, as they were doing. The increase in the amount of food has resulted in their regaining the weight that they had lost. I wonder if this has come to your attention.

With best regards,

Sincerely yours,

WGP/HL.
