

C. P. HOWLAND

February 5th 1931.

Dr. Charles F. Martin,
Dean, Faculty of Medicine,
McGill University,
Montreal.

Dear Dr. Martin,

I have just received the following letter from Mr. Charles P. Howland. It is as follows:-

"Gregg is back and we have had a word about you. He would rather have you wait until his schedule gives him a breathing spell. He means to go over the ground with you. I suggest you make a note on your calendar to bring it up about May first, if you have not heard from him by then."

Under those circumstances, evidently the thing to do is to wait. Mr Howland seems to be a friend in court.

Ever yours,

WGP/MD
