

MCGILL UNIVERSITY
MONTREAL

FACULTY OF MEDICINE
OFFICE OF THE DEAN

May 14th,
1931.

Dr. W. G. Penfield,
Department of Neurosurgery,
McGill University.

Dear Dr. Penfield,

With the terrific over expenditure of the budgets, I do not see how it is going to be possible to get an extra man to look after the monkeys. We are struggling with the budget for Neuropathology and Neurosurgery, which the central office have opened up so wide that you will be surprised when you get the details. Meanwhile your monkeys should have every attention, and I shall certainly speak to those in charge about it.

Hoping to see you soon, and with all kind regards,

Sincerely yours,

C. Martin
DEAN.
