Dr. C.F. Martin,  
McGill University,  
Montreal.

Dear Dr, Martin,

This contribution which you are making to the McGill Students' Annual, like most of them which you have made in connection with the Institute, causes me to blush unseen. Some of it is not true but I suppose it will not deter you from publishing it just the same.

I would make only one suggestion; namely, in the first paragraph where you mention the "major developments in American neurosurgery", I would suggest the addition of the word "neurology" so that it reads "major developments in American neurology and neurosurgery."

I am running away for a couple of days ski-ing.

With best regards,  
Ever yours,

WGP/HL.
