

M^C GILL UNIVERSITY
MONTREAL

FACULTY OF MEDICINE
OFFICE OF THE DEAN

1st November, 1929.

Dr. Wilder Penfield,
Dept. of Neurological Surgery,
Royal Victoria Hospital, Montreal.

Dear Dr. Penfield,

Would you mind dictating a few lines to Miss Lewis, outlining the number of lectures they have asked you to give; the number of post-graduate students in your service during this year; and the number of publications already issued or in progress.

I would like to add this information to my report.

I return herewith the copy of your letter to Mr. Burrell, dated the 30th ultimo, which you were kind enough to let me see this morning.

Sincerely yours,

C. J. Martin
